

# Supplementary Materials

## Author Contributions

Table S1 Author Contributions.

Author	Contributions
Fernando Domingues Amaro	Conceptualization, investigations, experimental and software methodologies, review and editing
Elisabetta Baracchini	Conceptualization, investigations, experimental and software methodologies, project administration, Original draft
Luigi Benussi	Conceptualization, investigations, experimental and software methodologies
Stefano Bianco	Conceptualization, investigations, experimental and software methodologies
Cesidio Capoccia	Conceptualization, investigations, experimental and software methodologies
Michele Caponero	Conceptualization, investigations, experimental and software methodologies
Danilo Santos Cardoso	Conceptualization, investigations, experimental and software methodologies
Gianluca Cavoto	Conceptualization, investigations, experimental and software methodologies, review and editing
André Cortez	Conceptualization, investigations, experimental and software methodologies
Igor Abritta Costa	Conceptualization, investigations, experimental and software methodologies
Rita Joanna da Cruz Roque	Conceptualization, investigations, experimental and software methodologies
Emiliano Dané	Conceptualization, investigations, experimental and software methodologies
Giorgio Dho	Conceptualization, investigations, experimental and software methodologies
Flaminia Di Giambattista	Conceptualization, investigations, experimental and software methodologies
Emanuele Di Marco	Conceptualization, investigations, experimental and software methodologies, review and editing
Giovanni Grilli di Cortona	Conceptualization, investigations, experimental and software methodologies, review and editing
Giulia D'Imperio	Conceptualization, investigations, experimental and software methodologies
Francesco Iacoangeli	Conceptualization, investigations, experimental and software methodologies
Herman Pessoa Lima Júnior	Conceptualization, investigations, experimental and software methodologies
Guilherme Sebastiao Pinheiro Lopes	Conceptualization, investigations, experimental and software methodologies
Amaro da Silva Lopes Júnior	Conceptualization, investigations, experimental and software methodologies
Giovanni Maccarrone	Conceptualization, investigations, experimental and software methodologies

---

Rui Daniel Passos Mano	Conceptualization, investigations, experimental and software methodologies
Michela Marafini	Conceptualization, investigations, experimental and software methodologies
Robert Renz Marcelo Gregorio	Conceptualization, investigations, experimental and software methodologies
David José Gaspar Marques	Conceptualization, investigations, experimental and software methodologies
Giovanni Mazzitelli	Conceptualization, investigations, experimental and software methodologies, project administration, review and editing
Alasdair Gregor McLean	Conceptualization, investigations, experimental and software methodologies
Andrea Messina	Conceptualization, investigations, experimental and software methodologies, review and editing
Cristina Maria Bernardes Monteiro	Conceptualization, investigations, experimental and software methodologies, review and editing
Rafael Antunes Nobrega	Conceptualization, investigations, experimental and software methodologies
Igor Fonseca Pains	Conceptualization, investigations, experimental and software methodologies
Emiliano Paoletti	Conceptualization, investigations, experimental and software methodologies
Luciano Passamonti	Conceptualization, investigations, experimental and software methodologies
Sandro Pelosi	Conceptualization, investigations, experimental and software methodologies
Fabrizio Petrucci	Conceptualization, investigations, experimental and software methodologies
Stefano Piacentini	Conceptualization, investigations, experimental and software methodologies
Davide Piccolo	Conceptualization, investigations, experimental and software methodologies
Daniele Pierluigi	Conceptualization, investigations, experimental and software methodologies
Davide Pinci	Conceptualization, investigations, experimental and software methodologies, project administration, Original draft
Atul Prajapati	Conceptualization, investigations, experimental and software methodologies
Francesco Renga	Conceptualization, investigations, experimental and software methodologies
Filippo Rosatelli	Conceptualization, investigations, experimental and software methodologies
Alessandro Russo	Conceptualization, investigations, experimental and software methodologies
Joaquim Marques Ferreira dos Santos	Conceptualization, investigations, experimental and software methodologies
Giovanna Saviano	Conceptualization, investigations, experimental and software methodologies
Neil John Curwen Spooner	Conceptualization, investigations, experimental and software methodologies, review and editing
Roberto Tesauero	Conceptualization, investigations, experimental and software methodologies

---

---

Sandro Tomassini	Conceptualization, investigations, experimental and software methodologies
Samuele Torelli	Conceptualization, investigations, experimental and software methodologies

---
