Published: 13 January 2021

The journal retracts the Abstract [1] cited above. Following publication, concerns were brought to the attention of the publisher regarding misrepresentation of the affiliation of the first author. The author of the Abstract was listed as affiliated with the Department of Virology, ACU, North Sydney, Australia. The Australian Catholic University (ACU) in North Sydney confirmed that ACU does not have a Department of Virology and that the author has never been employed at the university [2].

The Abstract is therefore retracted.
