In the original publication [1], the Informed Consent Statement was incorrectly listed as “Not applicable.” The correct Informed Consent Statement appears below.

Informed Consent Statement: Informed consent for participation was not required due to the retrospective nature of the study, as approved by the Institutional Review Board of the University of Cincinnati College of Medicine.

The authors state that the Institutional Review Board has waived the requirement to obtain informed consent for participants and the scientific conclusions are unaffected. This correction was approved by the Academic Editor. The original publication has also been updated.
