

Table S1. Composition of Commercial amino acid solution VIUSID Agro®

Composition	Percentage (%) (m / m)
Free amino acids	7
Aspartic acid	1.6
Arginine	2.4
Glycine	2.5
Tryptophan	0.5
Distiller water s.q.f.	100 mL

Note: All them subject to a biocatalytic process, which increases their effectiveness without altering their properties. The biocatalytic process greatly improves the biological activity and biochemical reactivity of all antioxidant molecules.
