**Table S1.** Chemical constituents of *Helichrysum italicum* (Roth) G. Don essential oil.

No.	Compound	Area percentage (%)
1.	<b><math>\alpha</math>-pinene</b>	<b>5.6</b>
2.	$\alpha$ -fenchene	0.1
3.	$\beta$ -pinene	0.3
4.	limonene	2.0
5.	1,8-cineol	0.5
6.	$\gamma$ -terpinene	0.5
7.	linalool	0.4
8.	2-methylbutyl-2-methylbutanoate	0.3
9.	nerol	0.3
10.	<b>neryl acetate</b>	<b>10.8</b>
11.	$\alpha$ -copaene	2.6
12.	italicene	3.1
13.	<i>cis</i> - $\alpha$ -bergamotene	0.9
14.	<b><i>trans</i>-<math>\beta</math>-caryophyllene</b>	<b>8.4</b>
15.	<i>trans</i> - $\alpha$ -bergamotene	0.9
16.	4,6,9-trimethyldec-8-ene-3,5-dione	3.3
17.	neryl propionate	2.0
18.	$\gamma$ -selinene	2.4
19.	<b><math>\gamma</math>-curcumene</b>	<b>18.1</b>
20.	<b><math>\alpha</math>-curcumene</b>	<b>5.8</b>
21.	$\beta$ -selinene	9.9
22.	2,4,6,9-tetramethyldec-8-ene-3,5-dione	2.4
23.	<b><math>\alpha</math>-selinene</b>	<b>6.9</b>
24.	$\alpha$ -muurolene	0.5
25.	$\gamma$ -cadinene	0.4
26.	$\delta$ -cadinene	1.7
27.	3,5,7,10-tetramethylundec-9-ene-4,6-dione	0.9

Bold means the highest percentage of the essential oil compounds.
