

Fig. S1. Alignment of flagellar ATPase FliI. The following sequences were used[^]
 KXC00516.1 flagellar protein export ATPase FliI [Proteus mirabilis]
 BFN10064.1 flagellum-specific ATP synthase FliI [Pseudomonas aeruginosa]
 ACA77353.1 ATPase, FliI/YscN family [Escherichia coli ATCC 8739]
 WP_003724451.1 flagellar protein export ATPase FliI [Listeria monocytogenes]
