

Figure S3. SPME–GC–MS spectrum of 1 g Aoil at the beginning and storage at 60 °C for 30 d (A). Volatile lipid oxidation products types of Aoil at the beginning (B) and after oxidation for 30 d (C). Volatile lipid oxidation products types of Aoil enriched with CA (D) and TBHQ (E). SPME–GC–MS spectrum of TBQ at the beginning and storage at 60 °C for 30 d (F). Dendrogram of volatiles (G).
