

Supplementary Materials

**Figure S1** Time dependence of the galvanic currents among the repeat sample#1 (a), the galvanic currents at 0 h to 28 h (b), the galvanic currents at 38 h to 61 h (c), and the galvanic currents at 61 h to 108 h (d).

**Figure S2** Time dependence of the galvanic currents among the repeat sample#2 (a), the galvanic currents at 0 h to 25 h (b), the galvanic currents at 36 h to 61 h (c), and the galvanic currents at 61 h to 108 h (d).
