

## Supplementary Materials:

Mohammad Asif, Rekha Yadav, Aditi Sugha and Manpreet Singh Bhatti \*

**Figure S1.** Sub-clusters of air mass back trajectories calculated at a height of 500 m above ground level for sampling days for (a) Cluster-1 (46% contribution) (b) Cluster-2 (43% contribution) and (c) Cluster-3 (11% contribution).

**Table S1.** Summary table of chemical composition of fog water samples along with anion-cation balance.
