

Supplementary Files:

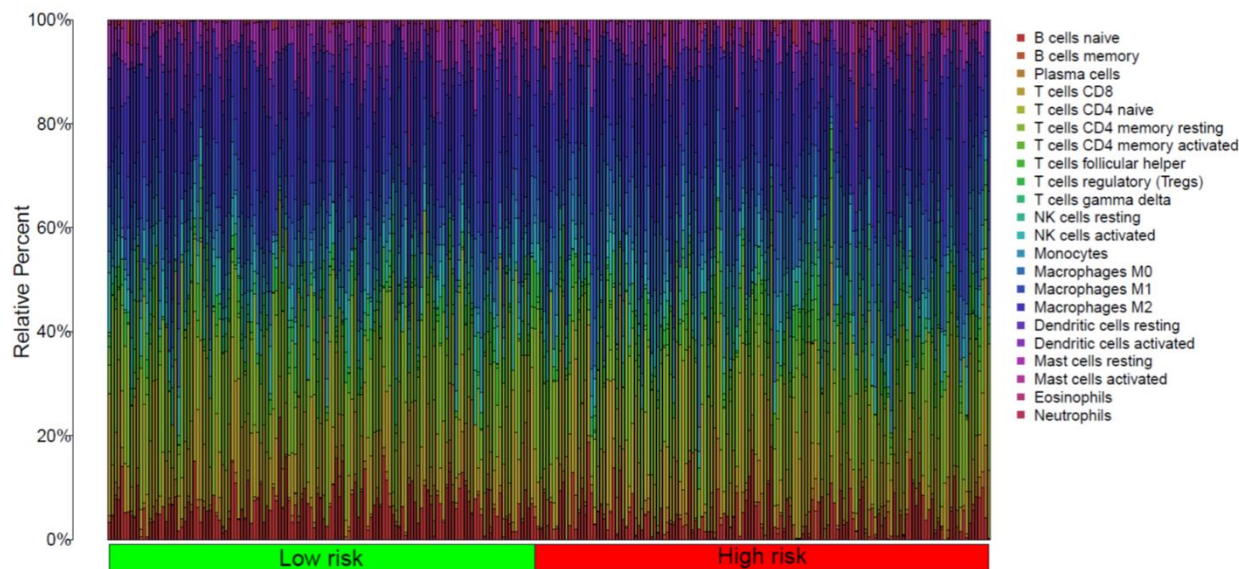

Supplementary Table S1: Information of multivariable Cox regression

LncRNA	β	Hazard ratio
MIR210HG	0.359	1.432
AC099850.3	0.555	1.741
CYTOR	0.604	1.830

Supplementary Figure S1: Flow chart illustrating the defined strategy in the study

Supplementary Figure S2: Percentage of infiltration immune cells in patients

Supplementary Figure S3: GO analysis
