### Modular Hub Genes in DNA Microarray Suggests Potential Signaling Pathway Interconnectivity in Various Glioma Grades

Marco A. Orda, Peter Matthew T. Fowler, and Lemmuel L. Tayo

**Figure S1.** TOM-based dissimilarity clustering of (a) PA, (b) OG, (c) AA, and (d) GBM datasets.

**Figure S2.** Summary of in-module connectivities of genes in highly preserved modules across all datasets referenced in GBM and plotted against (a) PA, (b) OG, and (c) AA datasets.
