

Table S1. The correlation between dialytic interval and echocardiographic parameters

	R	p value
LV ejection fraction, %	-0.06	0.28
LV diastolic diameter, mm	0.21	< 0.001
LV systolic diameter, mm	0.16	0.003
LV wall thickness, mm	-0.05	0.34
LV mass index, g/m ²	-0.01	0.91
Left arterial diameter, mm	0.16	0.003
E/E'	-0.02	0.78

Abbreviations; LV, left ventricular; E/E', ratio of the early diastolic transmitral flow velocity to mitral annular velocity.
