

**Figure S1: Prevalence of genetic alterations in p53 and upstream p53 regulators in COAD.** The Oncoprint displays the genomic alterations (legend) in p53 and upstream p53 regulators (rows) across 526 COAD samples (columns; TCGA, PanCancer COAD dataset). The data was accessed via the cBioPortal webservice (<https://www.cbioportal.org/>) [180,181].
