## Supplemental S3

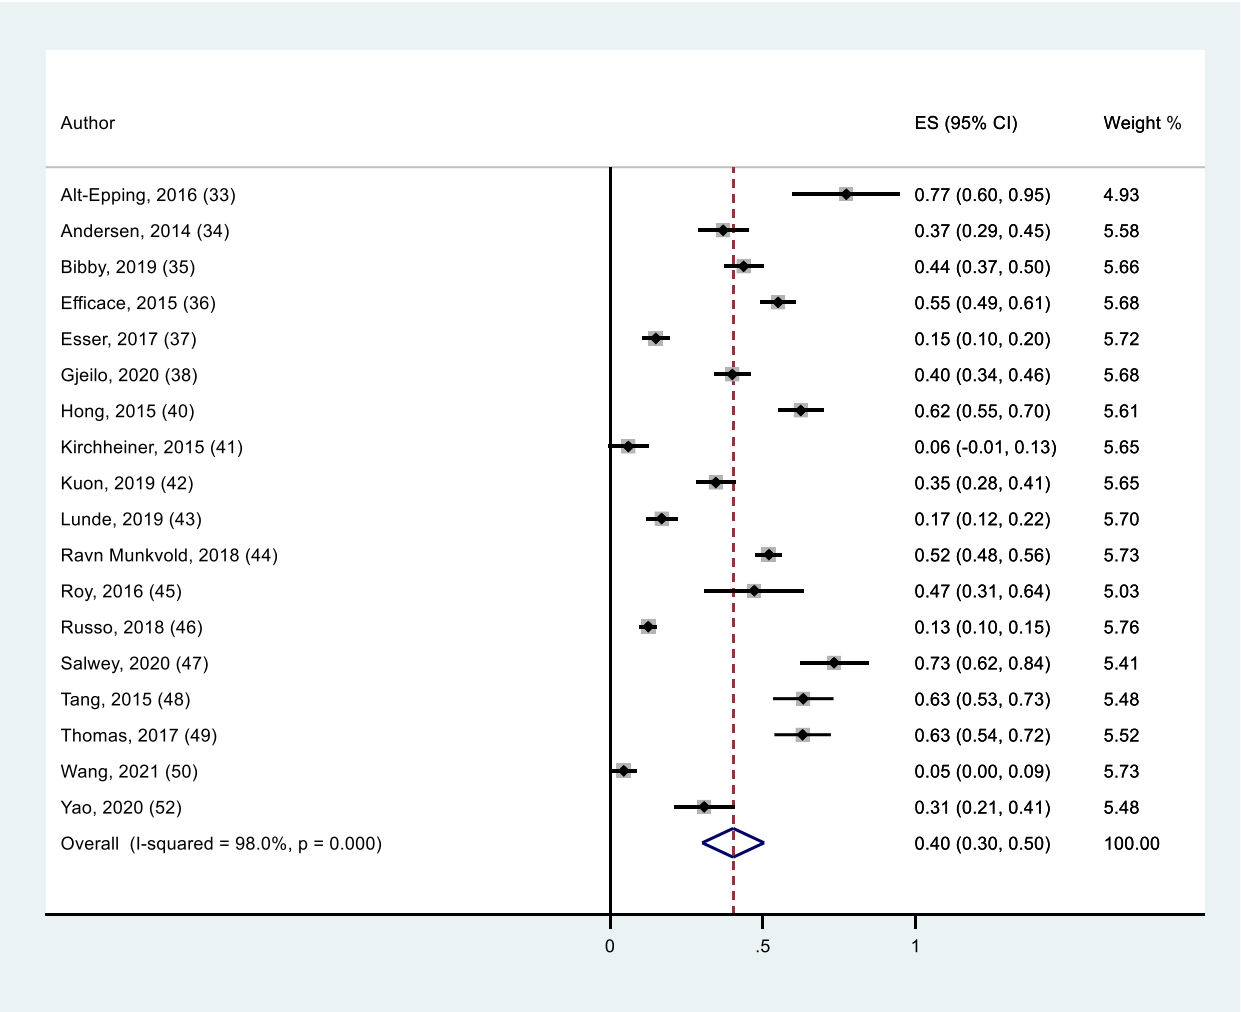

Figure S3.1: Forest plot of pain prevalence in treatment-naïve cancer patients (Group 1) [33–50,52].

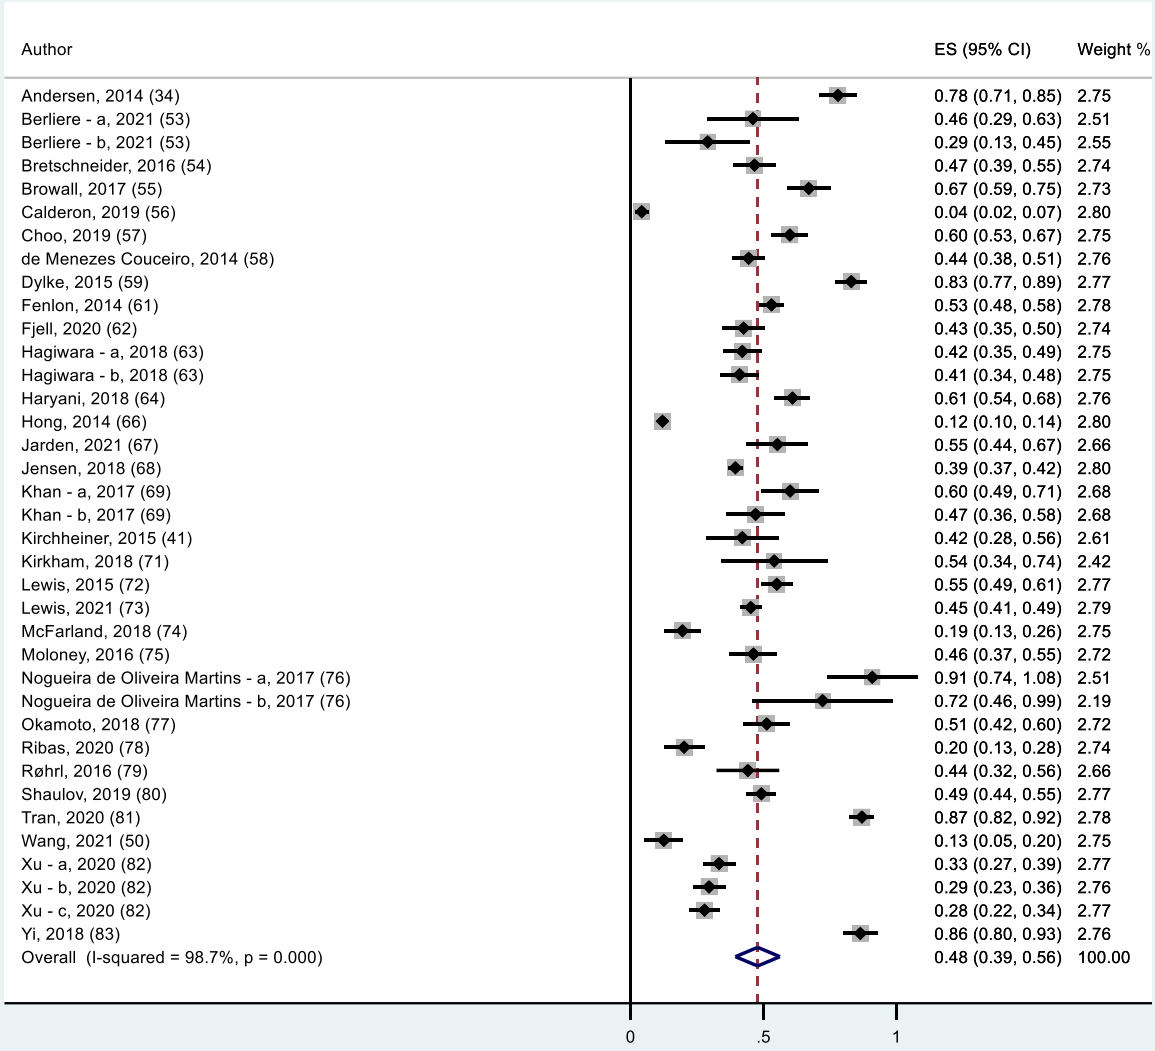

Figure S3.2: Forest plot of pain prevalence in patients with curative treatment (Group 2).

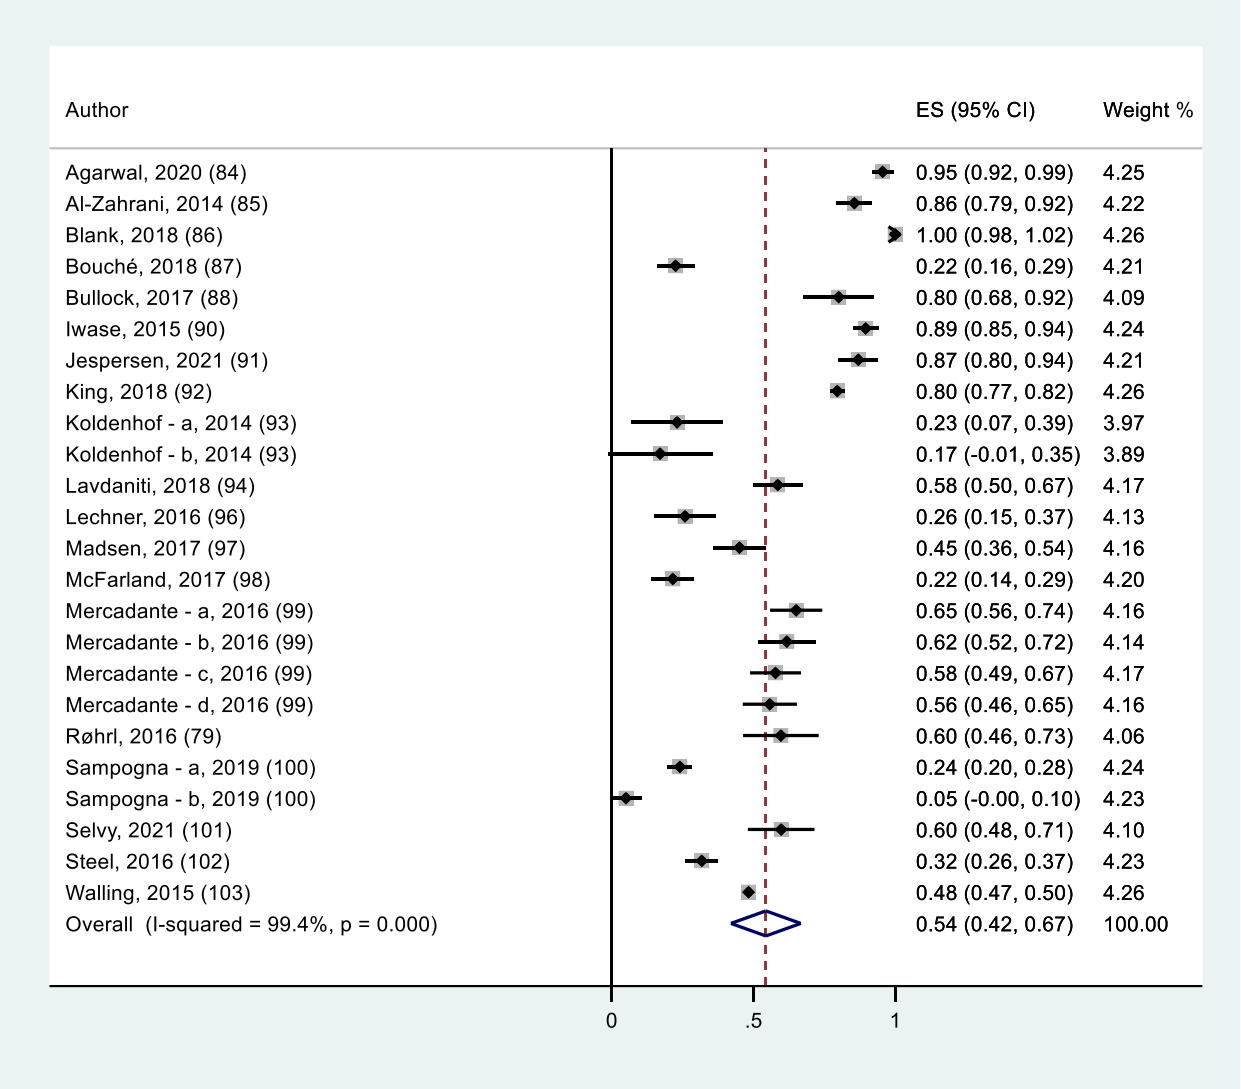

Figure S3.3: Forest plot of pain prevalence in patients with palliative treatment (Group 3).

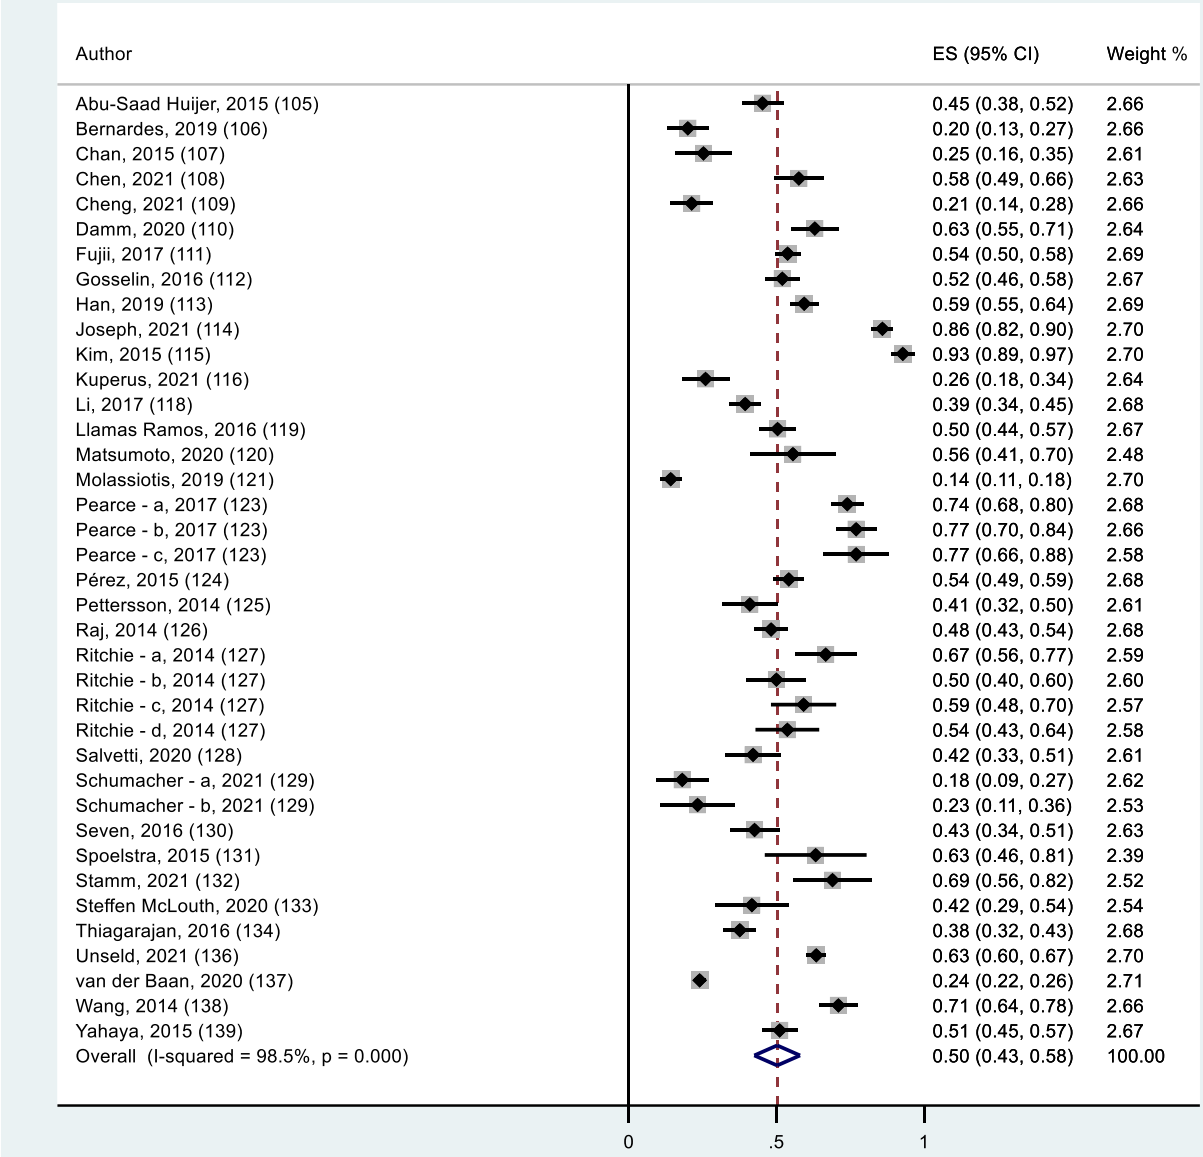

Figure S3.4: Forest plot of pain prevalence in patients with either curative or palliative treatment, or treatment intent not specified (Group 4).

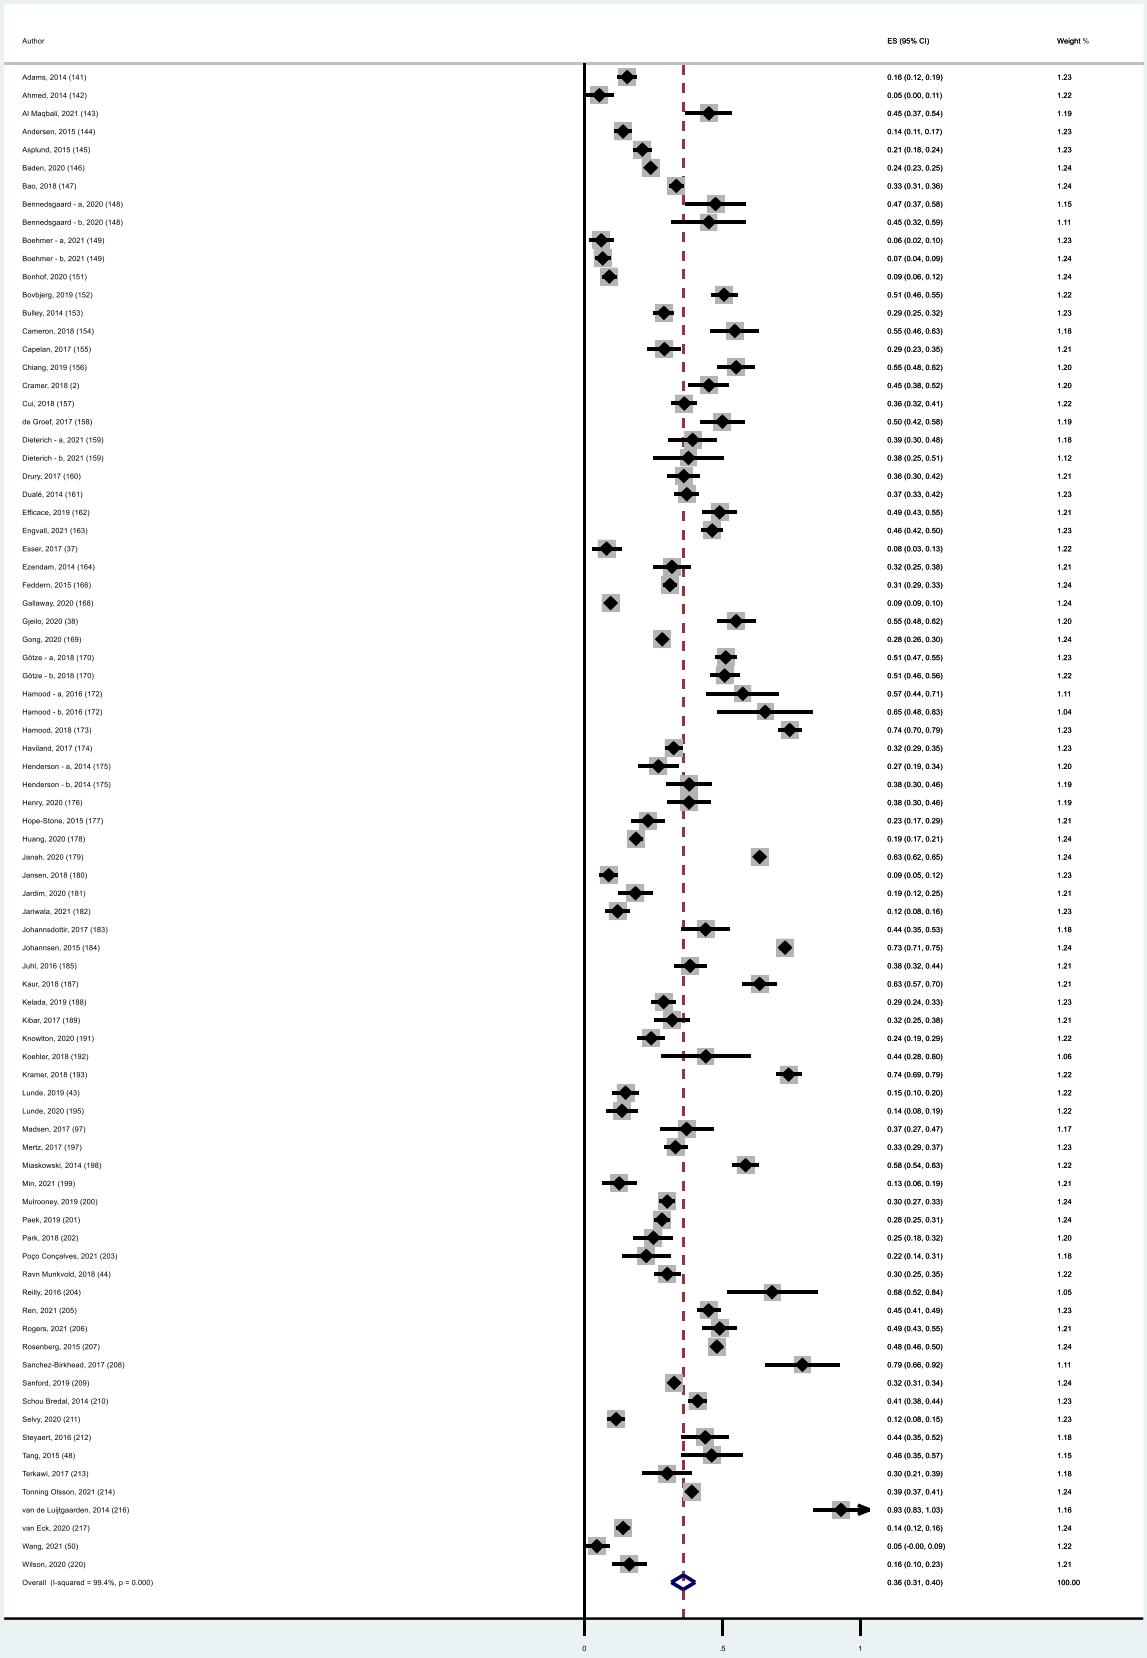

Figure S3.5: Forest plot of pain prevalence in patients after curative treatment (Group 5).

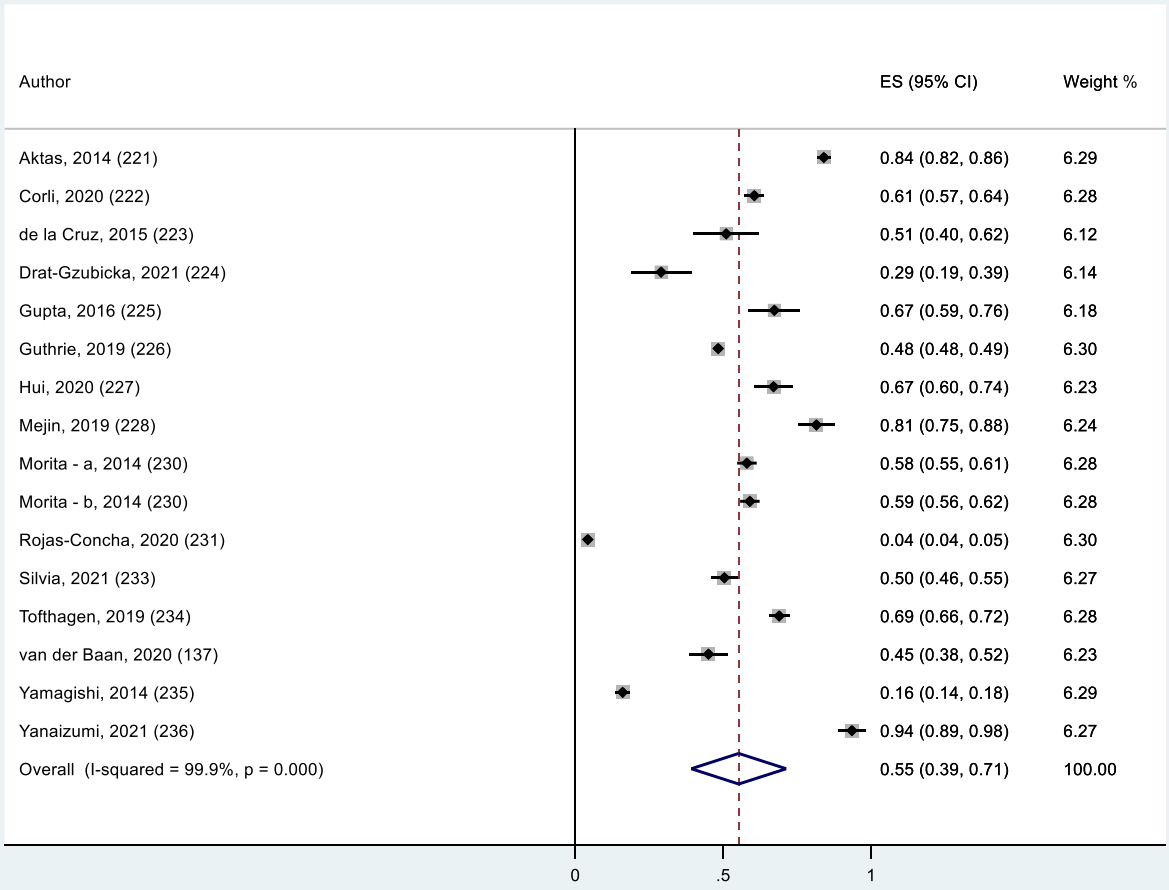

Figure S3.6: Forest plot of pain prevalence in patients without feasible anti-cancer treatment (Group 6).

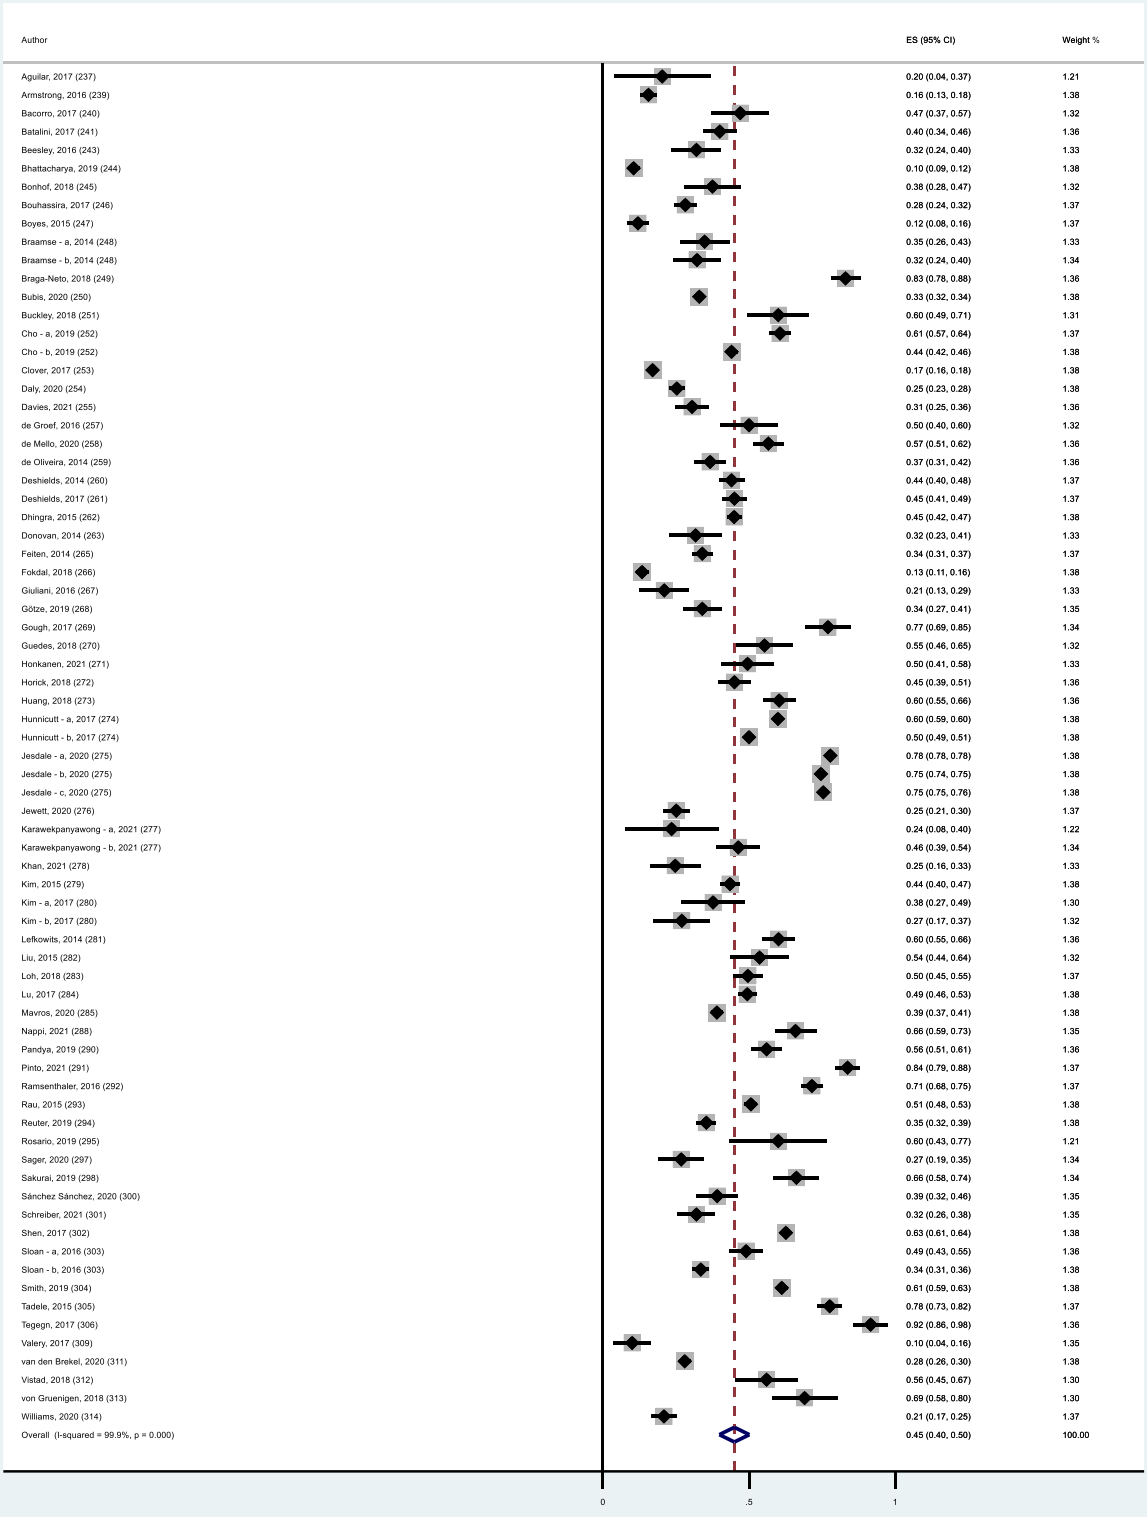

Figure S3.7: Forest plot of pain prevalence including patients in different phases of treatment (Group 7).
