

Supplementary Fig. 4. An overview of the pathways regulated in γδ T by M-MDSC exposure; generated from RNAseq data in reactome.org

Supplementary Fig. 5. An overview of the subpathways related to TP53 and regulated in γδ T by M-MDSC exposure; generated from RNAseq data in reactome.org

Supplementary Fig. 6. An overview of the subpathways of cellular response to stimuli regulated in γδ T by M-MDSC exposure; generated from RNAseq data in reactome.org
