

## SUPPORTING INFORMATION

### Extracellular vesicles-mediated bio-orthogonal catalysis in growing tumors

Maria Sancho-Albero<sup>1,2,3,4,\*</sup>, Victor Sebastian<sup>1,2,3,4</sup>, Ana M. Perez-Lopez<sup>6,7,8</sup>, Pilar Martin-Duque<sup>1,3,5\*</sup>, Asier Unciti-Broceta<sup>6,7</sup>, and Jesus Santamaria<sup>1,2,3,4</sup>

**Figure S1.** TEM images at lower magnification of PdNSs and PEG-PdNSs.

**Figure S2.** Energy-dispersive X-ray spectroscopy analysis (EDS) of a PdNSs to determine the presence of Pd in the nanostructures. EDS analysis was carried out in the marked area of the STEM-HAADF image.
