

Figure S6. Sample clustering based on PCA. Left column: clustering of potteries based on original XRD spectra (autoscaling treatment). Middle column: clustering of potteries based on original XRD spectra (autoscaling treatment). Right column: clustering of potteries based on data of Table S1 and S2. Autoscaling treatment was employed for the data of Table S1 and S2. Blue circles represent samples from the Guyuan city of the Han dynasty. Red circles are samples from the Zhongwei city of the Han dynasty. Yellow circles is samples from the Zhongwei city of the Tang Dynasty.
