

Supplementary figures

Figure S1. The original images of NS4A¹⁻⁷³ gel electrophoresis. (A) Original gel electrophoresis image of NS4A¹⁻⁷³ eluted with imidazole gradient. (B) Original gel electrophoresis image of SCE-purified NS4A¹⁻⁷³.

Figure S2. The original images of ENO1 gel electrophoresis. (A) Original gel electrophoresis image of ENO1 eluted with imidazole gradient. (B) Original gel electrophoresis image of SCE-purified ENO1.

Figure S3. The original images of the Western blots. (A) Original bright-field image of

ENO1. (B) Original white light image of ENO1. (C) Original merged image of ENO1.
(D) Original bright-field image of GAPDH. (E) Original white light image of GAPDH.
(F) Original merged image of GAPDH. (G) Original bright-field image of NS4A¹⁻⁷³.
(H) Original white light image of NS4A¹⁻⁷³. (I) Original merged image of NS4A¹⁻⁷³.
