

Supplementary Table S2. Comparison of variables between KNN registry and this study

Variables of KNN registry	Variables of this study
Neonatal factors	Neonatal factors
Male sex	Male sex
Gestational age	Gestational age
Body weight	.
1 min Apgar scores	.
5 min Apgar scores	5 min Apgar scores
Body temperature	Body temperature
Multiple births	.
Resuscitation at birth	Resuscitation at birth
Maternal factors	Maternal factors
Age, year	.
Diabetes mellitus	Diabetes mellitus
Hypertension	Hypertension
Chorioamnionitis	Chorioamnionitis
PROM	PROM
Antenatal steroid	Antenatal steroid
Cesarean delivery	Cesarean delivery
Maternal social history	
Education	
Marital status	
Nationality	
Paternal social history	
Education	
Ethnicity	

PROM = premature rupture of membranes
