Supplementary File S1 – English Version of First-Year Demographic and Specialty Preference Questionnaire

The data is collected as part of a study on specialty selection among medical students. Participation is voluntary and completely anonymous. The responses will be used for research purposes only.

You may stop participating at any time for any reason, without any consequences. If you would like to receive the results of the study once it is completed, please contact the research coordinator.

1. Gender
    - Male
    - Female
    - Other
