

Stock_Trading_Platform Operation Instructions

- For questions regarding the use of the website, please contact :

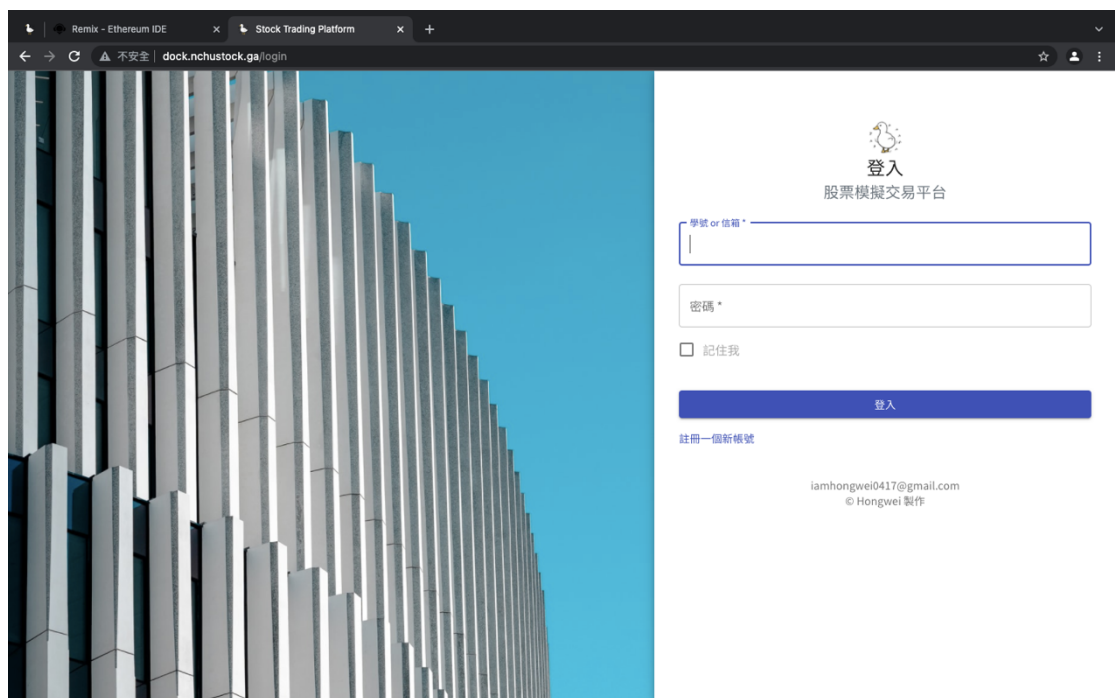

Ya-Cen, Sie __ Effie🌸 (ytlemony@smail.nchu.edu.tw)

- URL : <http://140.120.53.198/login>

(It is recommended not to use the school network to log in, as it may cause connection failure)

- Login page

Enter your student ID (or email address) and password when registering

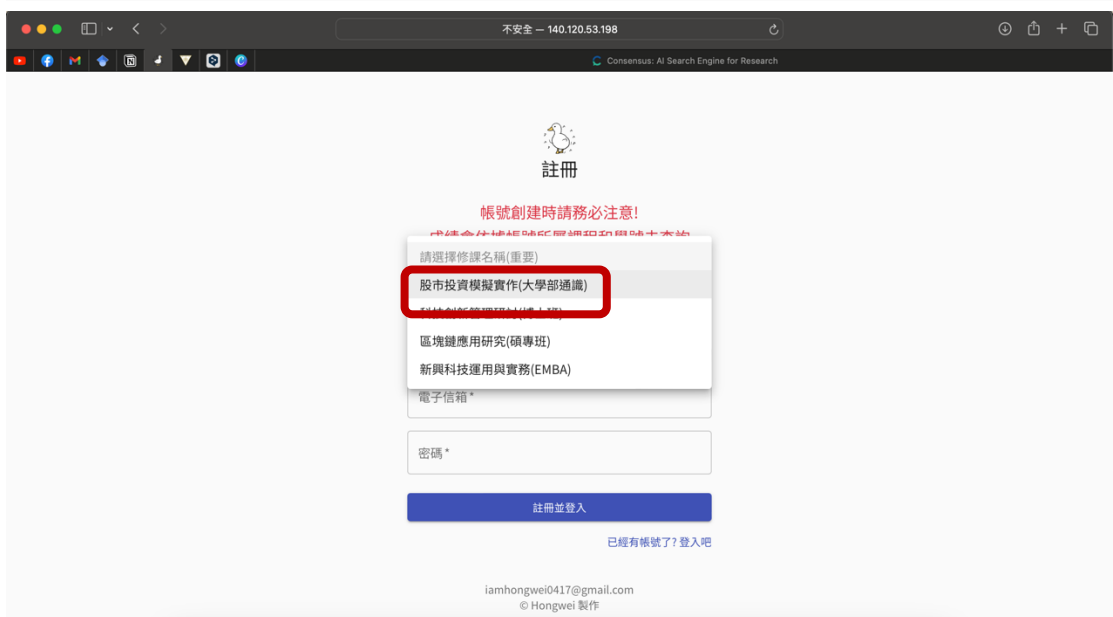

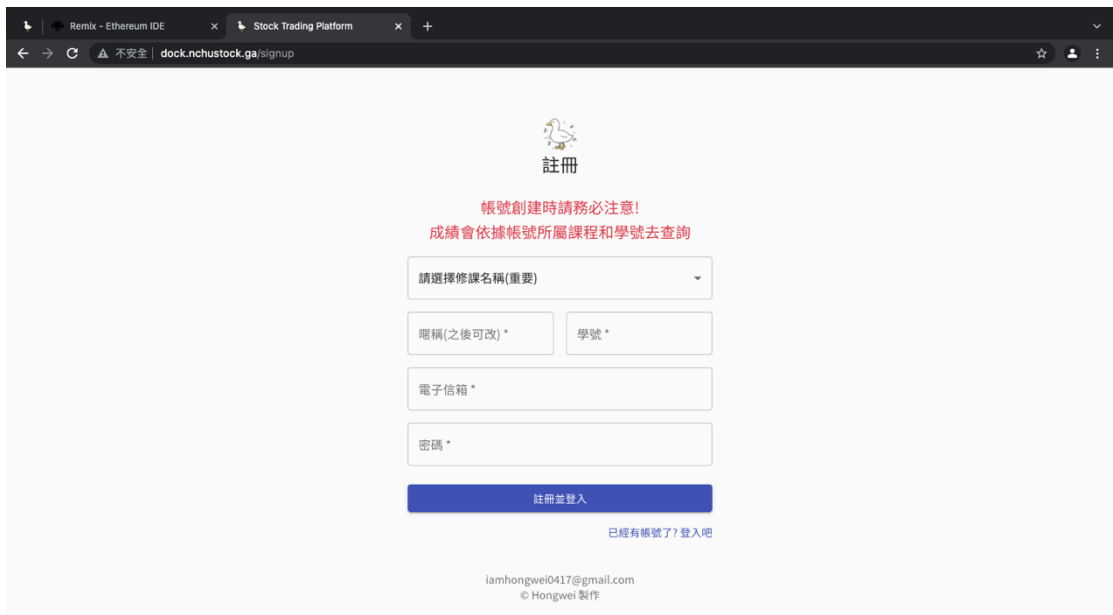

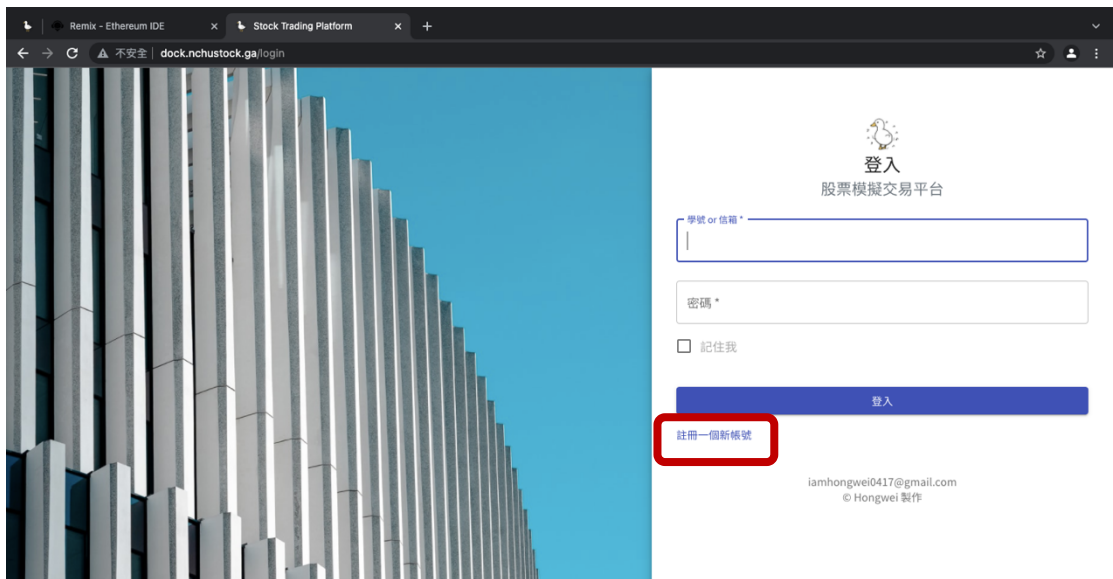

- Registration Page

Select the course name (required), please select " **Stock Market Investment Simulation Implementation (Undergraduate General Course)** "

Please fill in the student's real student ID as the student ID , and **PLEASE SAVE THE PASSWORD BY YOURSELF TO AVOID FORGETTING IT.**

After successful registration, click the confirmation button and the system will be directed to the home page.

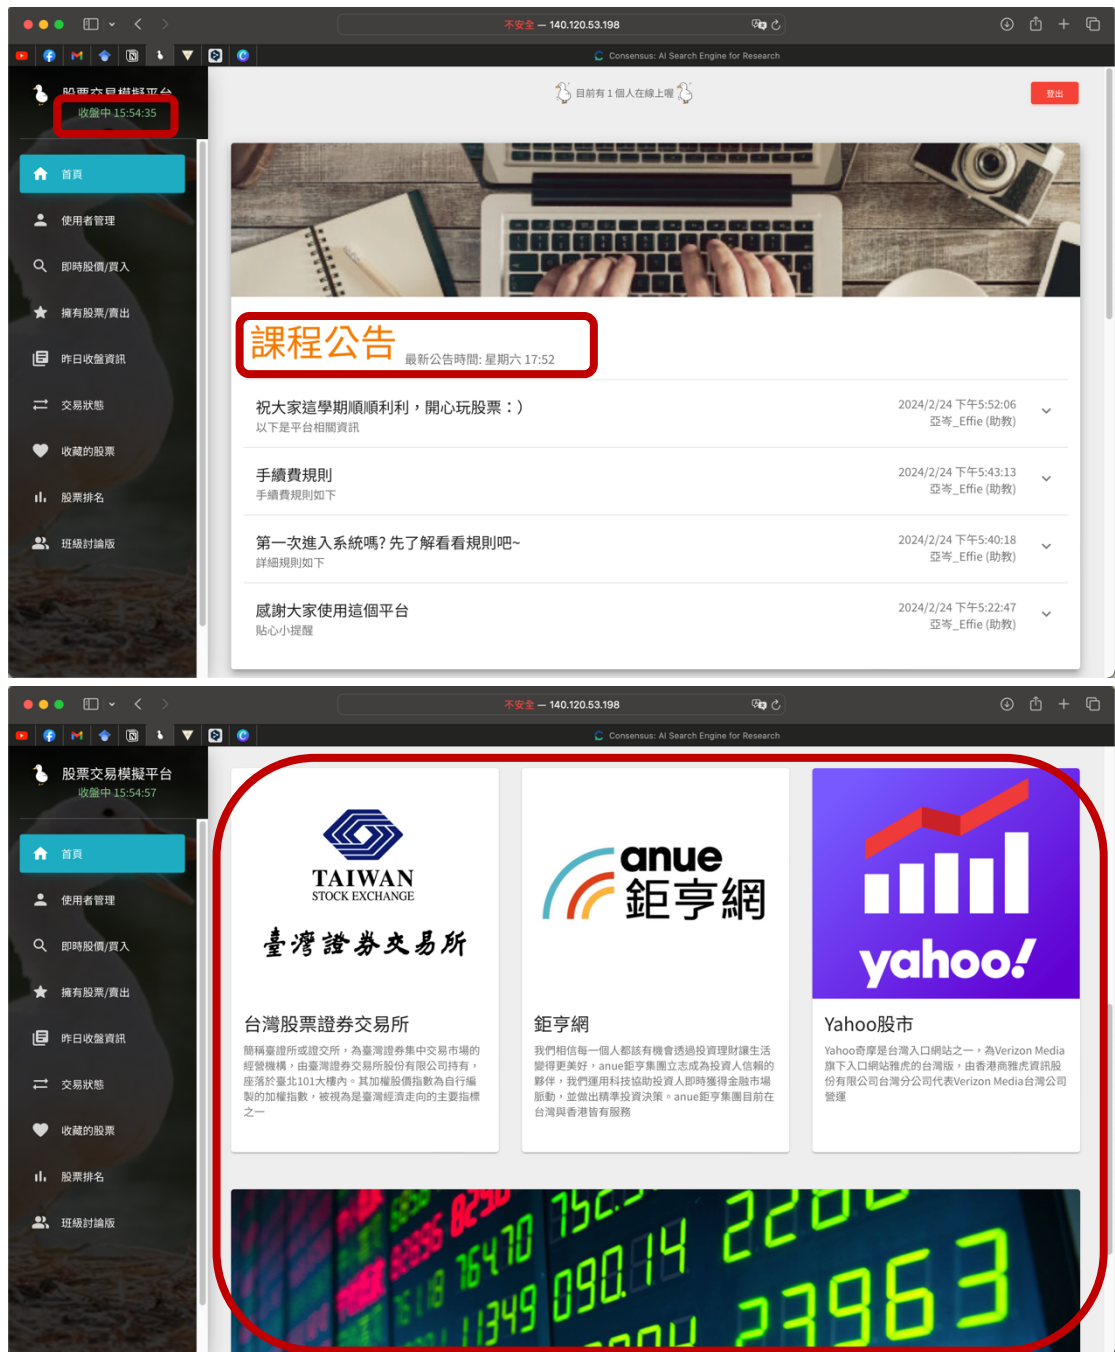

- **Front Page**

- ✓ The upper left corner shows whether the market is open or closed at that time.
 - ** Opening time: Monday to Friday 9:00 **
 - ** During the opening period, market orders will be processed 40 minutes after the order is placed **
 - ** During the opening period, limit orders will be processed after the market opens on that day **
 - ** Closing time: Monday to Friday 13:30 **
 - ** During the closing period, market orders/limit orders will be processed after the opening of the next day **
 - ** Transaction processing and account updates do not occur on National Holidays **
- ✓ Course Announcement

Relevant information will be announced from time to time.

Students are advised to read the course announcements after logging online to avoid missing the latest course information.
- ✓ Other stock market links

Four relevant stock market links are provided below for students' reference.

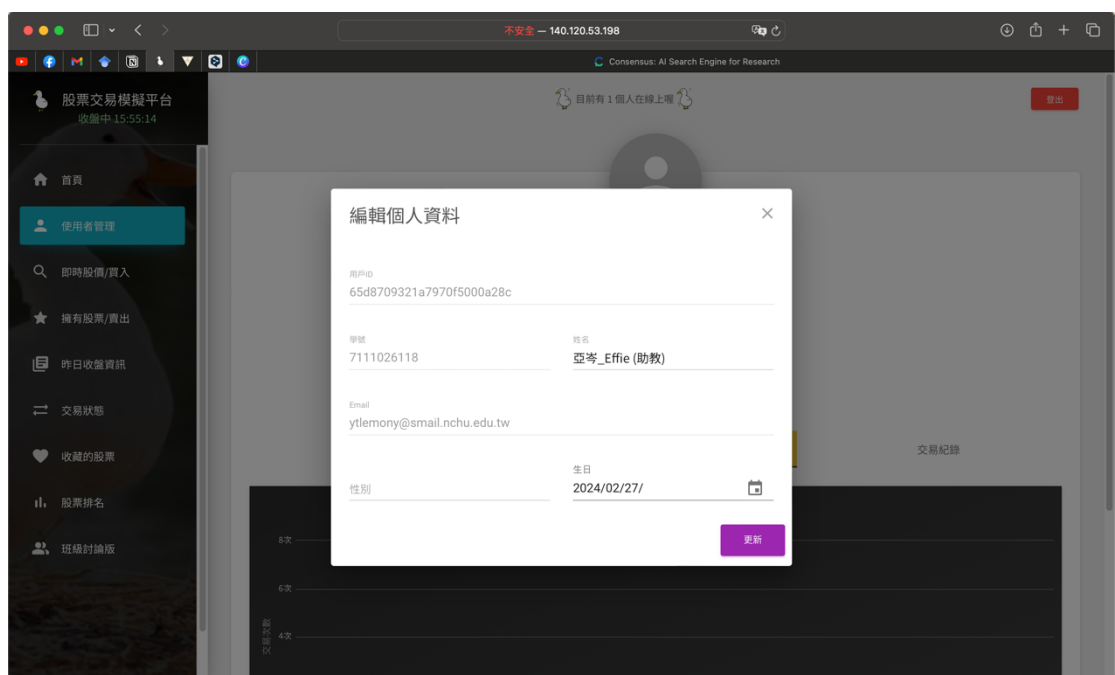

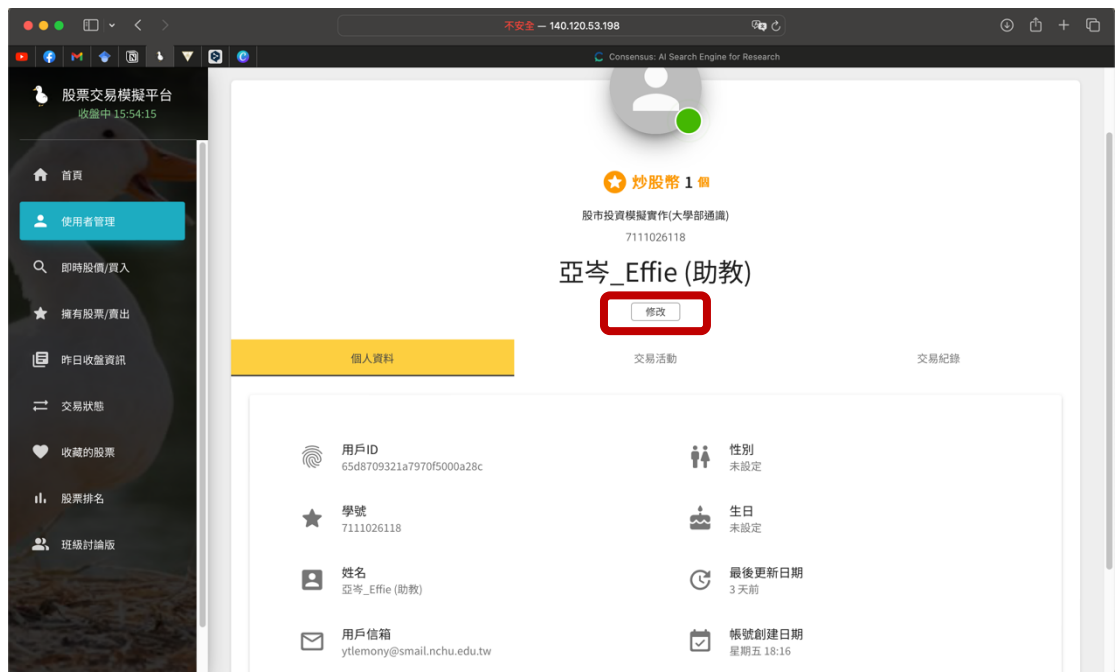

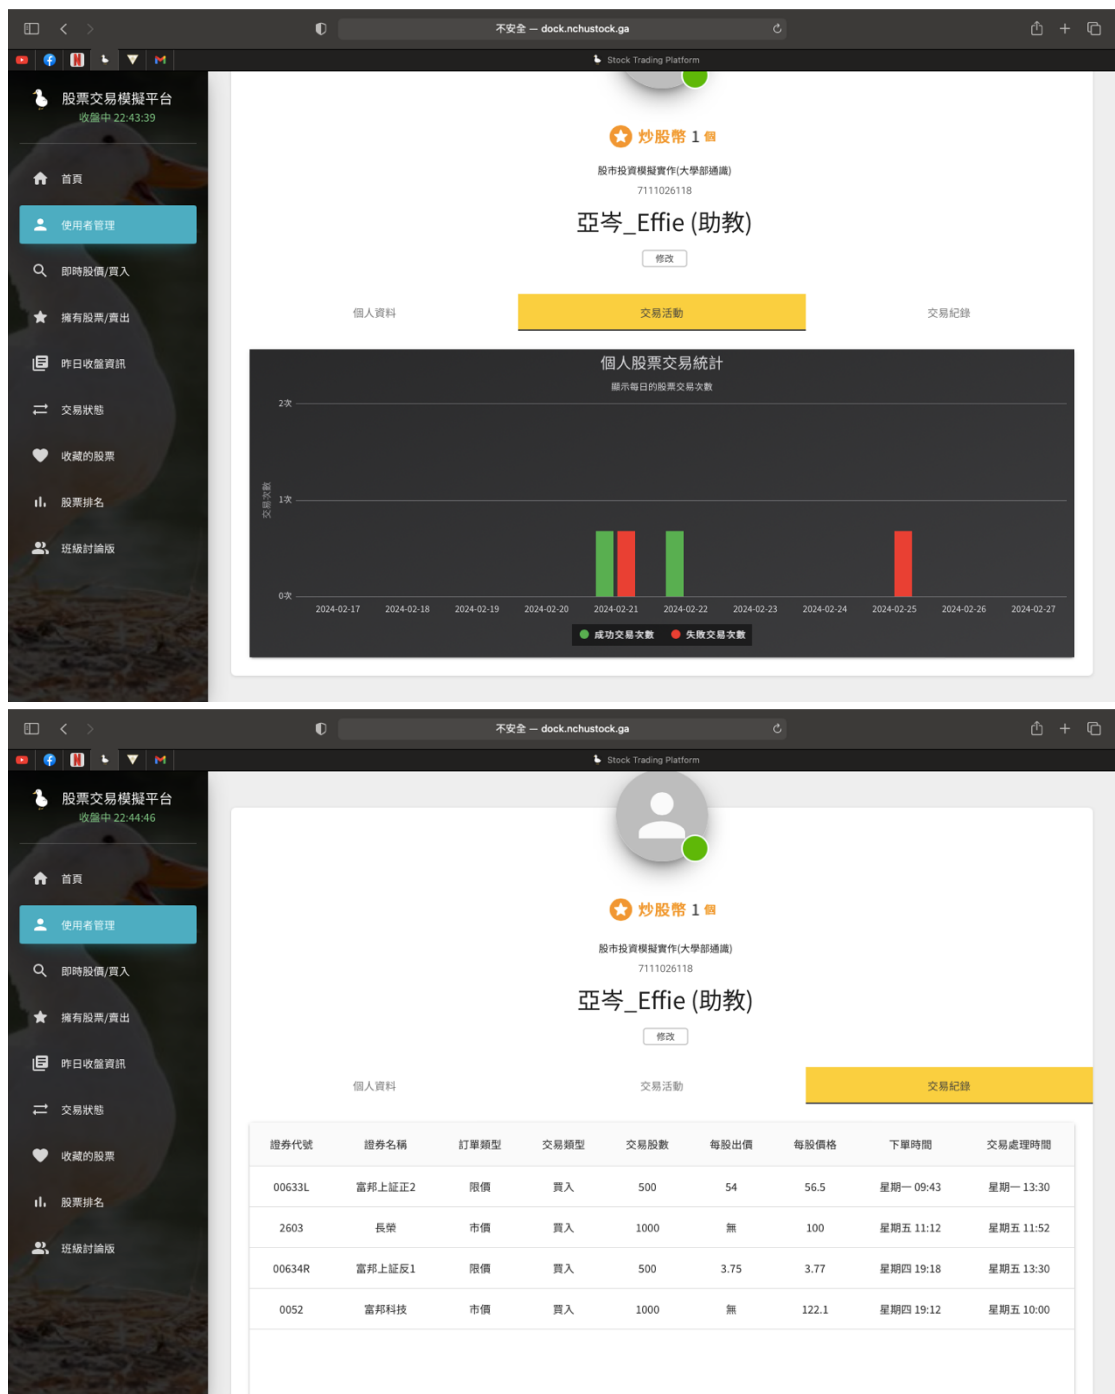

● User Management Page

- ✓ Modify relevant personal information (name, gender, birthday)
 - !! The student ID and email address cannot be modified after successful registration. If there are any errors, please contact the teaching assistant !!
- ✓ Trading Activity
 - recent successful / failed transactions

✓ Transaction History

Each transaction records relevant information, price, and time

- Real-time stock price, buying

Each student is initially given a principal of "2 million"

On this page you can see your current assets and the total value of your stock holdings.

The search bar can search for stock-related information.

(All tradable stocks are only stocks provided by "Taiwan Securities Exchange".)

After selecting the stocks, you can choose the purchase method

- ✓ Market Transaction (Market Order)
 - ** During the opening period, market orders will be processed 40 minutes after the order is placed **
 - ** During the closing period, market orders/limit orders will be processed after the opening of the next day **
- ✓ Limit trading (Limited Order)
 - ** During the opening period, limit orders will be processed during the opening period of the day **
 - ** During the closing period, market orders/limit orders will be processed after the opening of the next day **
 - ** Limit orders are only kept for one day **

Situation A : When you are a stock buyer, assuming that today's limit order is set to buy at 130 yuan, if the system detects that the stock is ≤ 130 yuan, it will sell the stock to you at the detected price . But if you If the set price exceeds the price limit, the order will not be established. (Bought at a lower price than the original price)

Situation B: When you are a stock seller, assuming that today's limit order is set to sell at 130 yuan, if the system detects that the stock is ≥ 130 yuan, it will sell the stock at the detected price , but if the price you set exceeds the price limit, the order will not be established. (Sold at a higher price than originally sold)

Situation C: A limit order is placed after today's market close, and it will be detected and processed at the market's opening

tomorrow. A market order was placed after the market closed today, and the transaction will be processed after the market opens tomorrow.

✓ Cancel order rules

You can find it in "Pending Transactions" in "Transaction Status". If a stock is in pending transaction status, a cross will appear on the right side of the stock, and the order can be canceled. The rules for canceling orders are as follows: 【Limit Price The order can be canceled as long as it is before the order is completed】 【The market order can only be canceled within 10 minutes after the order is placed】 【The order can only be canceled before the market opens on the next day】

- !! The price limit rules of this simulation system are calculated based on 9% regardless of the stock denomination.
- !! 0.1425% of the transaction amount for each purchase and sale.
- !! Selling transactions are subject to an additional 0.3% transaction tax rate.
- !! If the amount of each handling fee is less than 20 dollars, it will be calculated as 20 dollars.

● Trading Status

You can see your transaction records, including successful, pending, and failed transactions.

Failed transactions will indicate the reasons for failure: the bid price is too low/too high, insufficient balance, transaction error (such as unstable network , insufficient stocks traded), etc.

證券代號	證券名稱	訂單類型	交易類型	交易價格	每股出價	交易股數	下單時間	交易處理時間
2603	長榮	市價(盤中)	買入	100	無	1000	星期五 11:12	星期五 11:52
0052	富邦科技	市價(委託)	買入	122.1	無	1000	星期四 19:12	星期五 10:00
