Air pollution exposure and human health in port cities: a systematic review

Supplementary File S3. Details of estimates from source-specific pollutant exposure.

Figure S11. Forest plot for long-term exposure effect on all causes (logarithmic scale).

Figure S12. Forest plot for long-term exposure effect on respiratory diseases (logarithmic scale).

Figure S13. Forest plot for long-term exposure effect on lung function (linear scale).

Figure S14. Forest plot for long-term exposure effect on cardiovascular diseases (logarithmic scale).

Figure S15. Forest plot for long-term exposure effect on digestive system diseases (logarithmic scale). Figure S16. Forest plot for long-term exposure effect on renal diseases (logarithmic scale).

Figure S17. Forest plot for long-term exposure effect on cancer (logarithmic scale).

Figure S18. Forest plot for long-term exposure effect on neurological/psychiatric diseases (logarithmic scale).

Figure S11. Forest plot for long-term exposure effect on all causes (logarithmic scale).

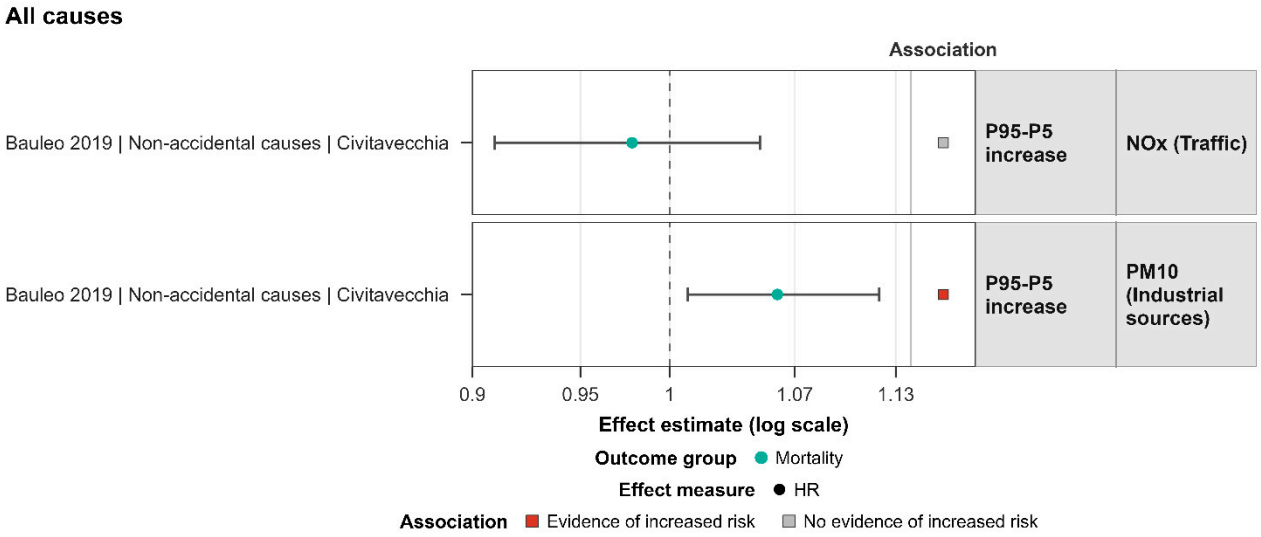

Figure S12. Forest plot for long-term exposure effect on respiratory diseases (logarithmic scale).

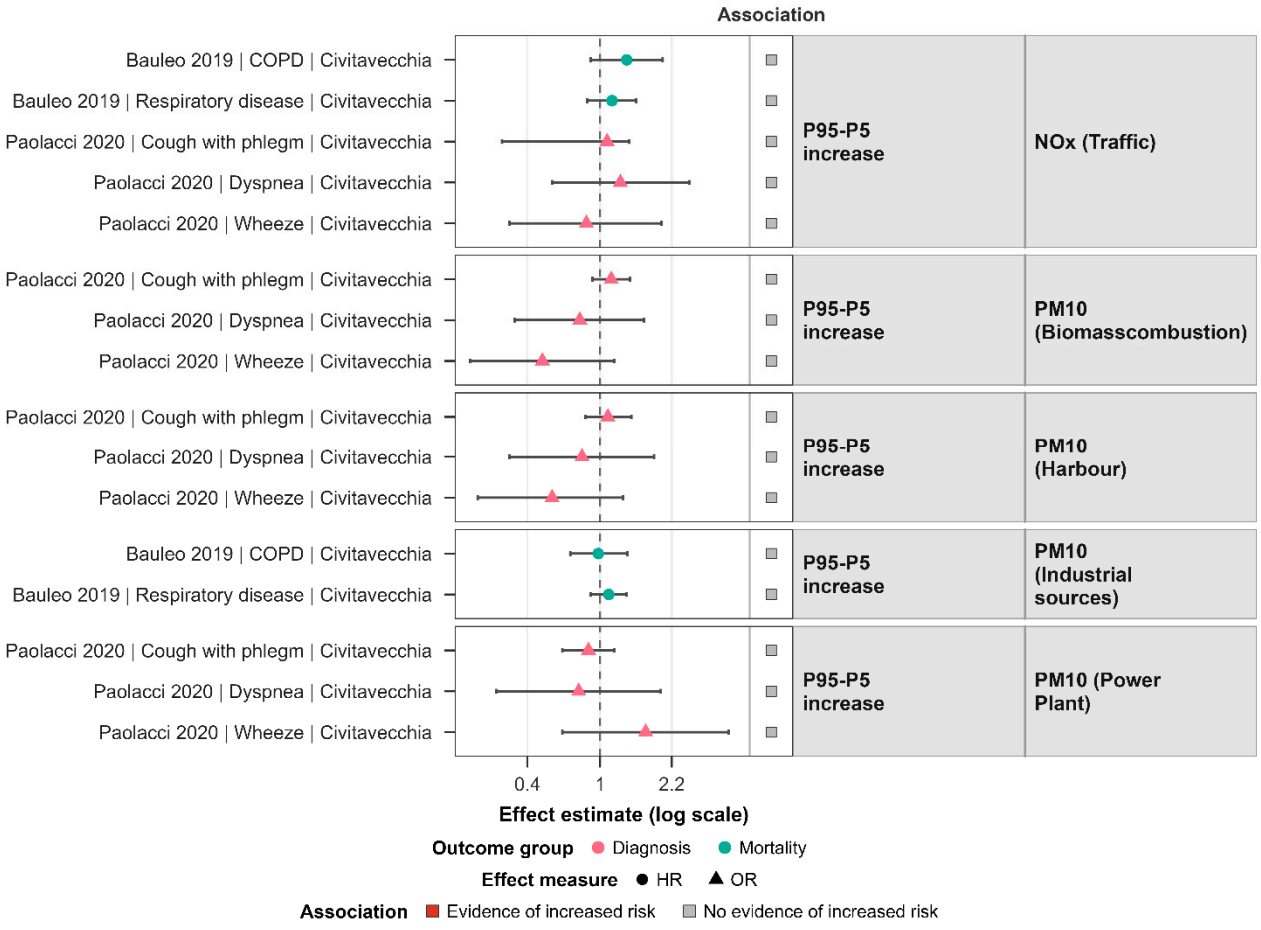

Figure S13. Forest plot for long-term exposure effect on lung function (linear scale).

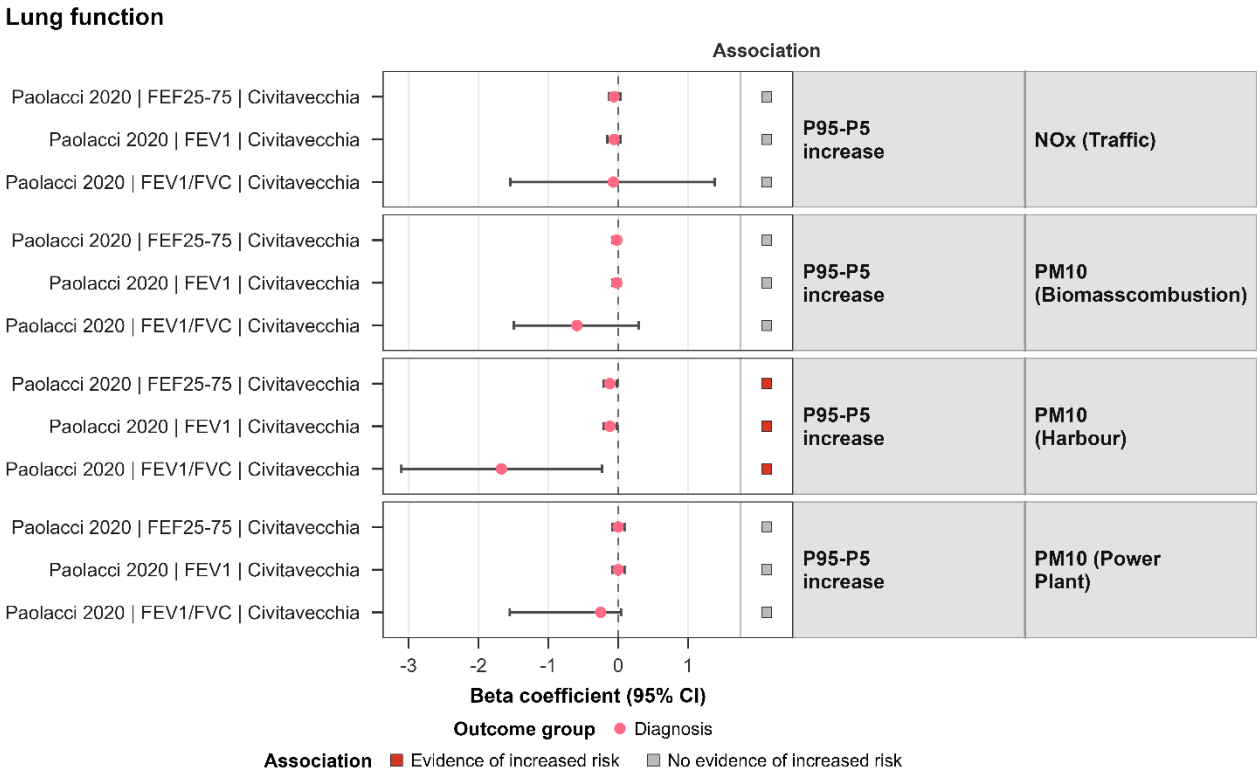

Figure S14. Forest plot for long-term exposure effect on cardiovascular diseases (logarithmic scale).

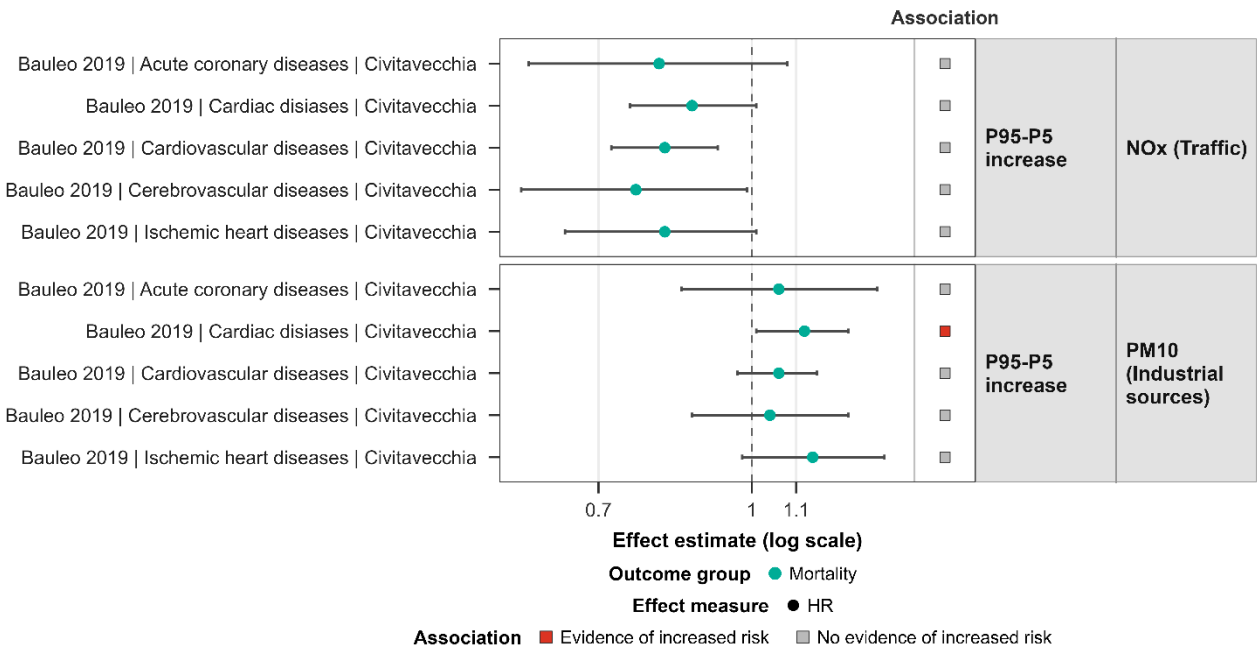

Figure S15. Forest plot for long-term exposure effect on digestive system diseases (logarithmic scale).

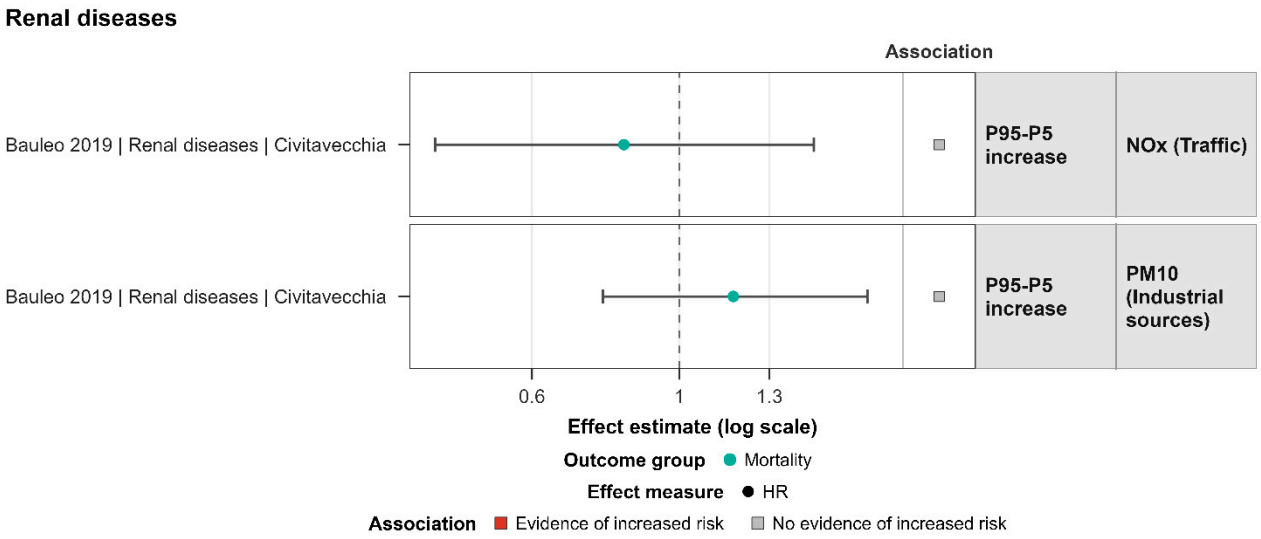

Figure S16. Forest plot for long-term exposure effect on renal diseases (logarithmic scale).

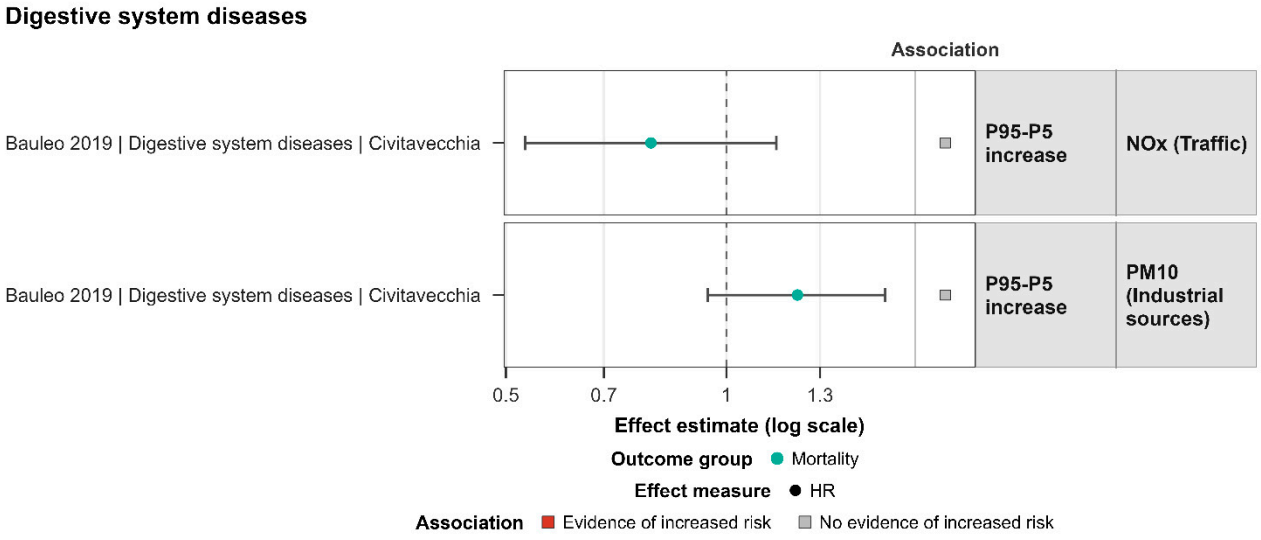

Figure S17. Forest plot for long-term exposure effect on cancer (logarithmic scale).

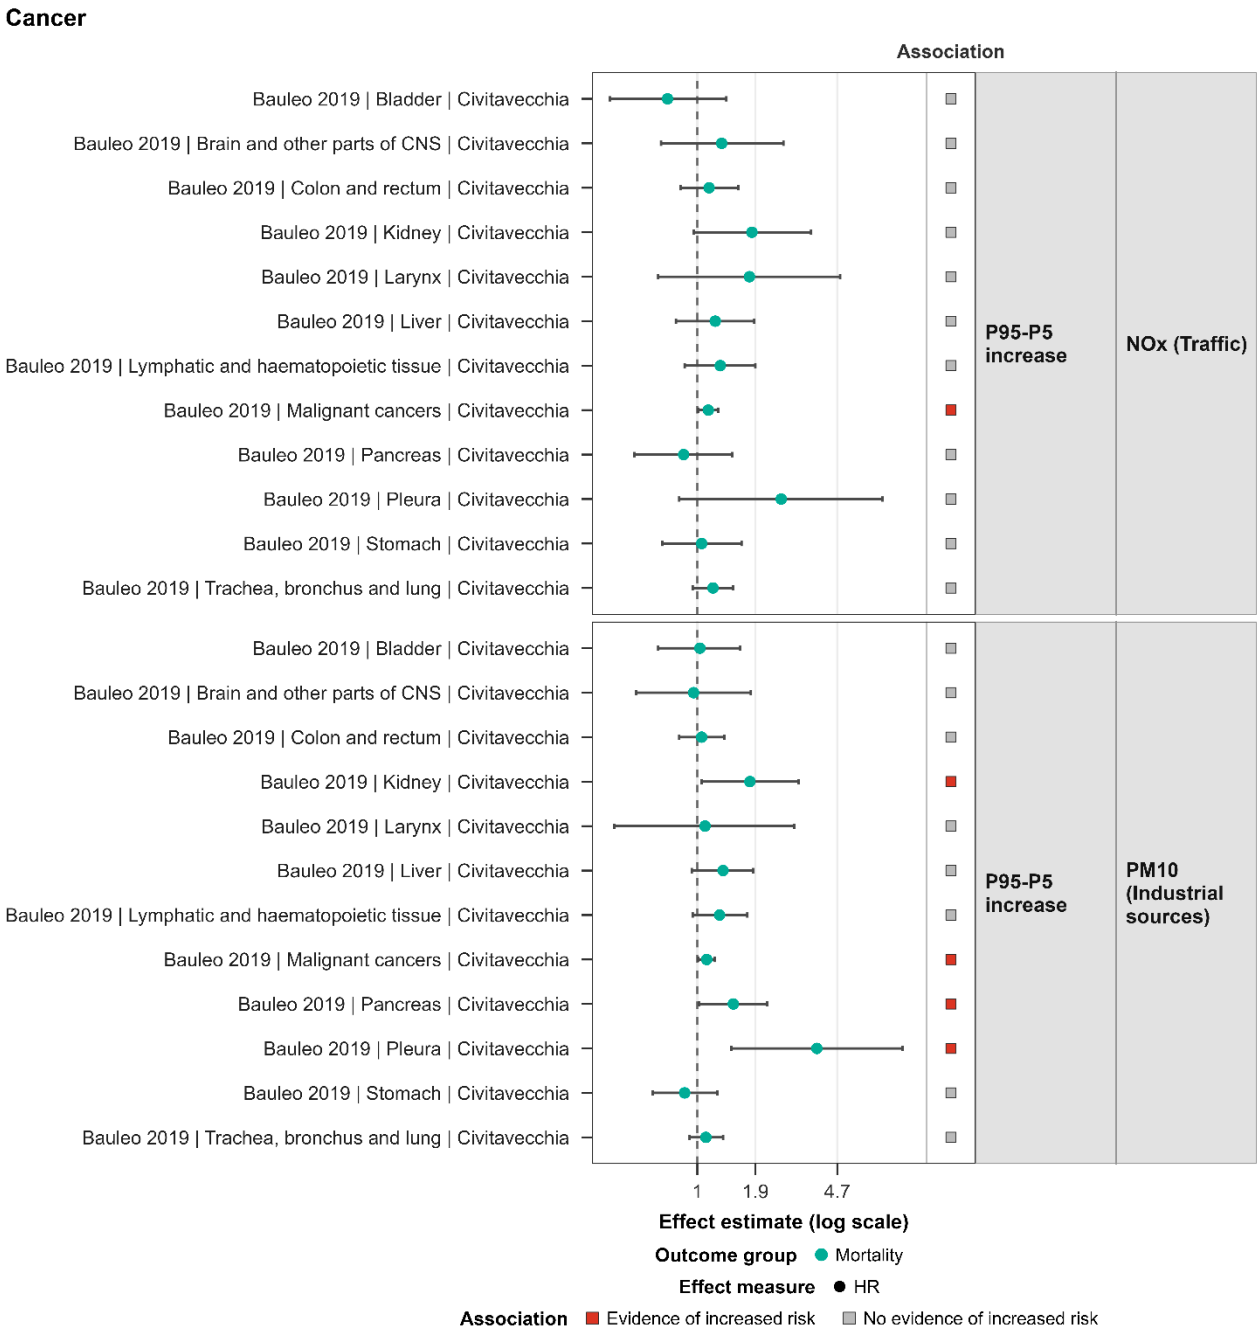

Figure S18. Forest plot for long-term exposure effect on neurological/psychiatric diseases (logarithmic scale).
