Air pollution exposure and human health in port cities: a systematic review

Supplementary File S5. Details of estimates from particulate components and composition exposure.

Figure S26. Forest plot for short-term exposure effect on all causes (logarithmic scale).
Figure S27. Forest plot for short-term exposure effect on respiratory diseases (logarithmic scale).
Figure S28. Forest plot for short-term exposure effect on cardiovascular diseases (logarithmic scale).
Figure S29. Forest plot for short-term exposure effect on cardiovascular diseases (linear scale).

Figure S26. Forest plot for short-term exposure effect on all causes (logarithmic scale).

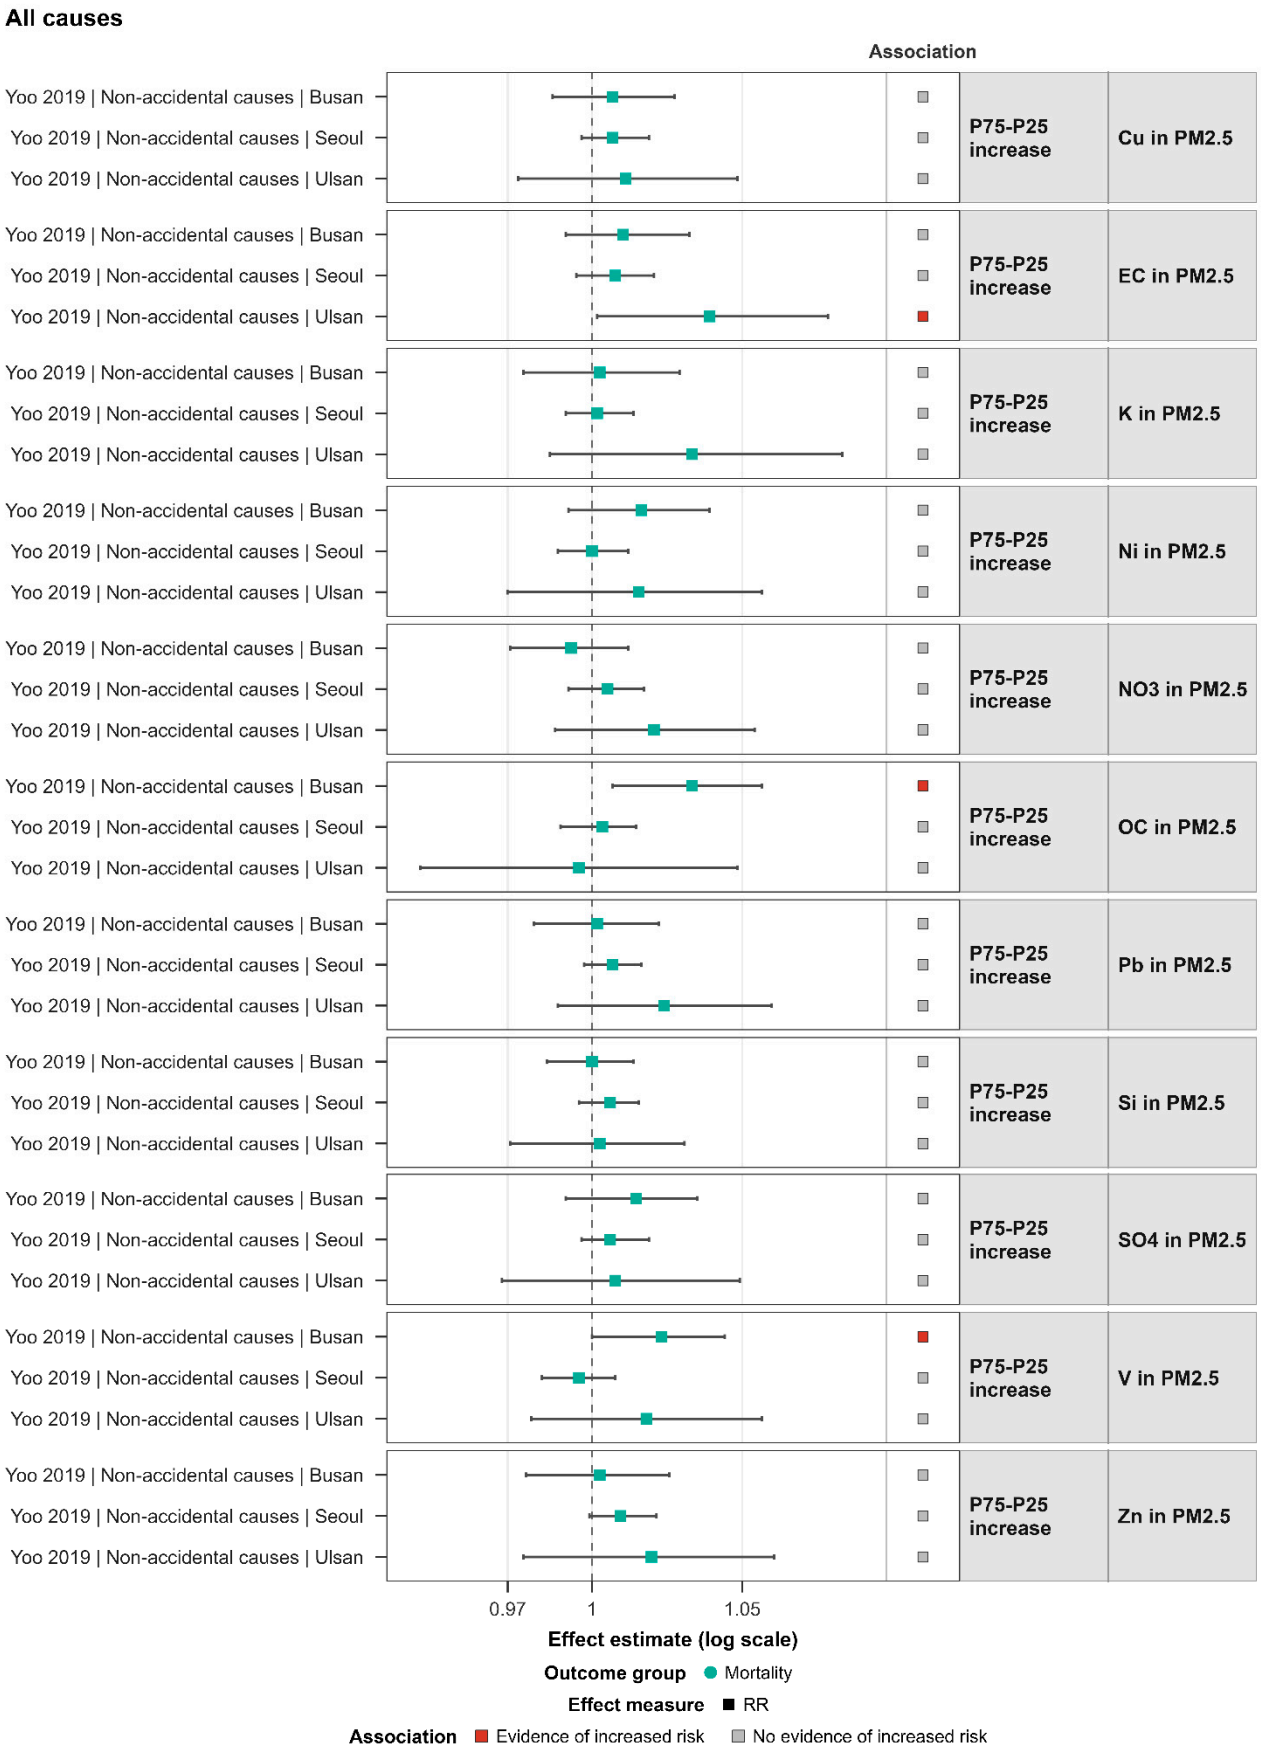

Figure S27. Forest plot for short-term exposure effect on respiratory diseases (logarithmic scale).

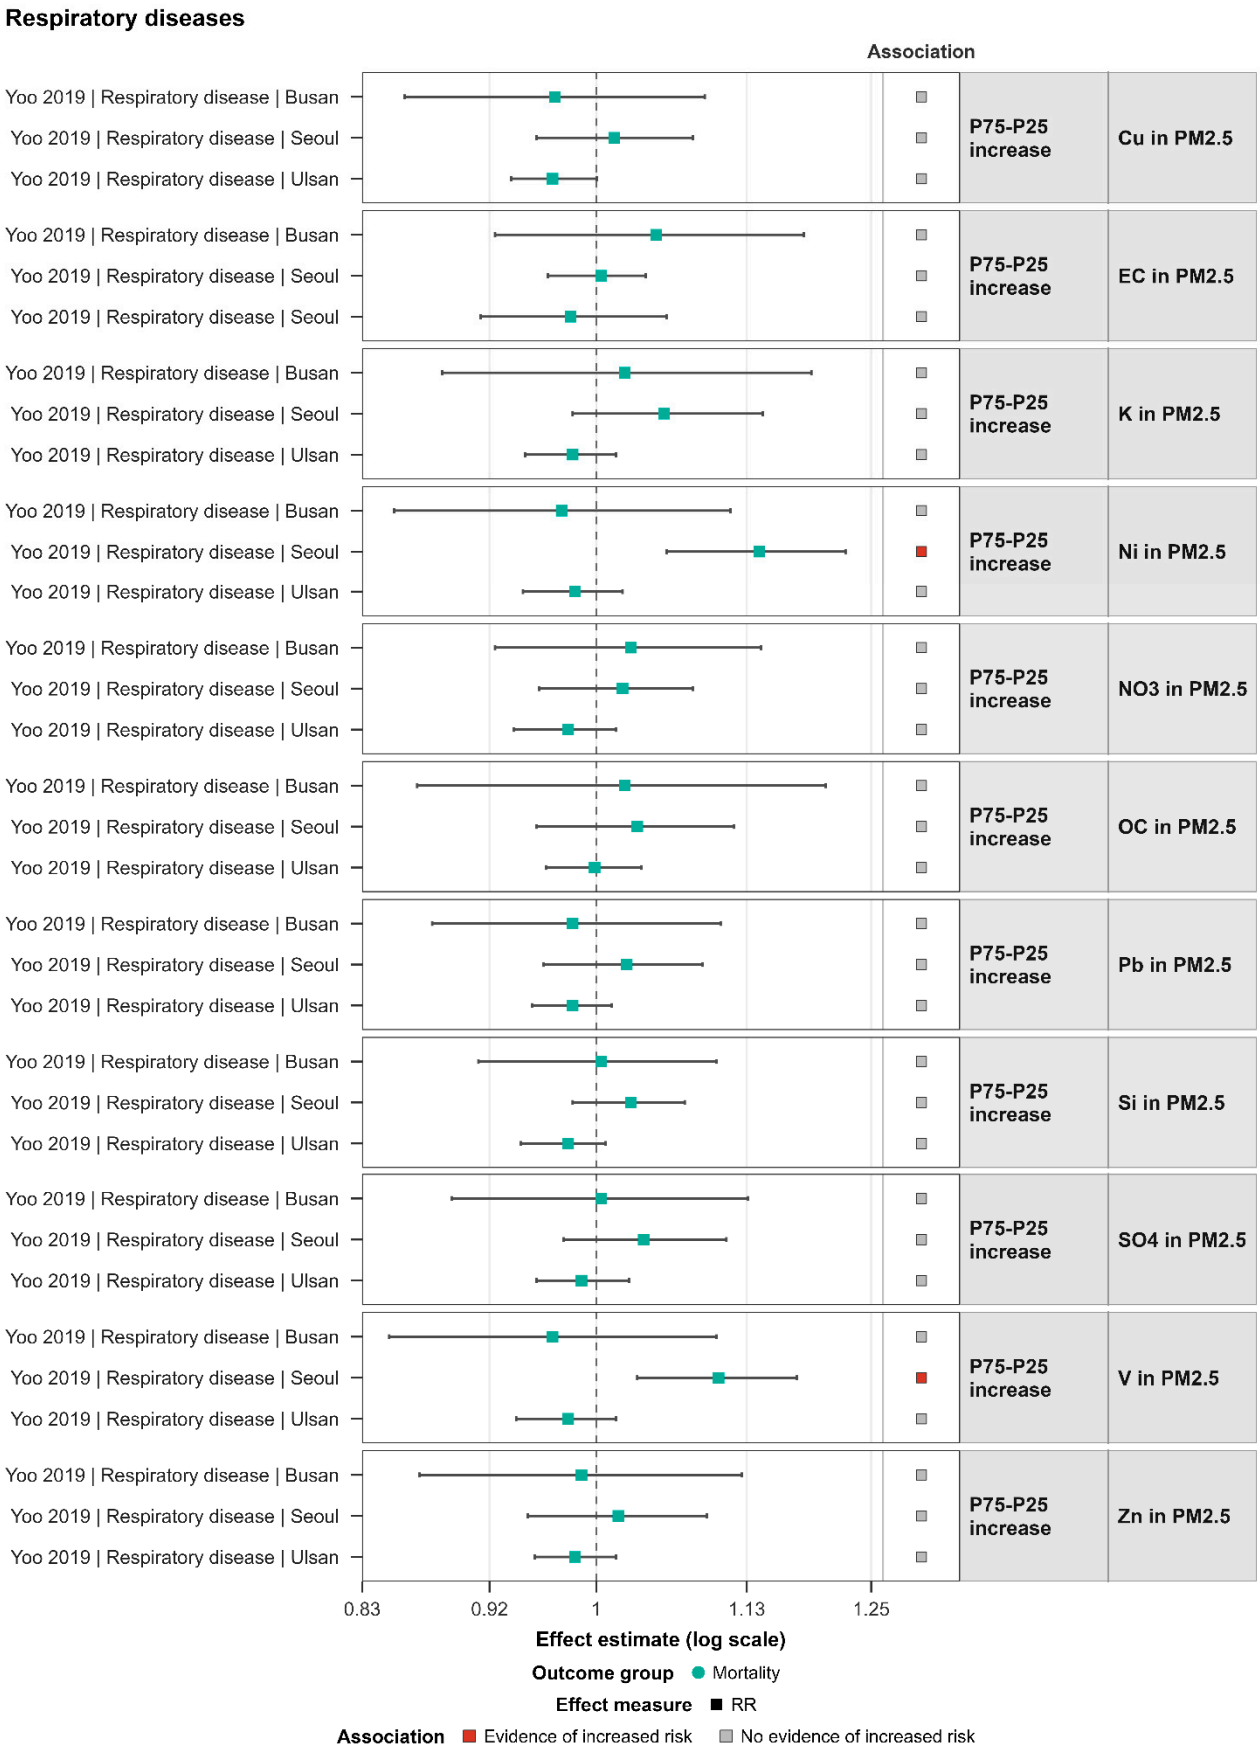

Figure S28. Forest plot for short-term exposure effect on cardiovascular diseases (logarithmic scale).

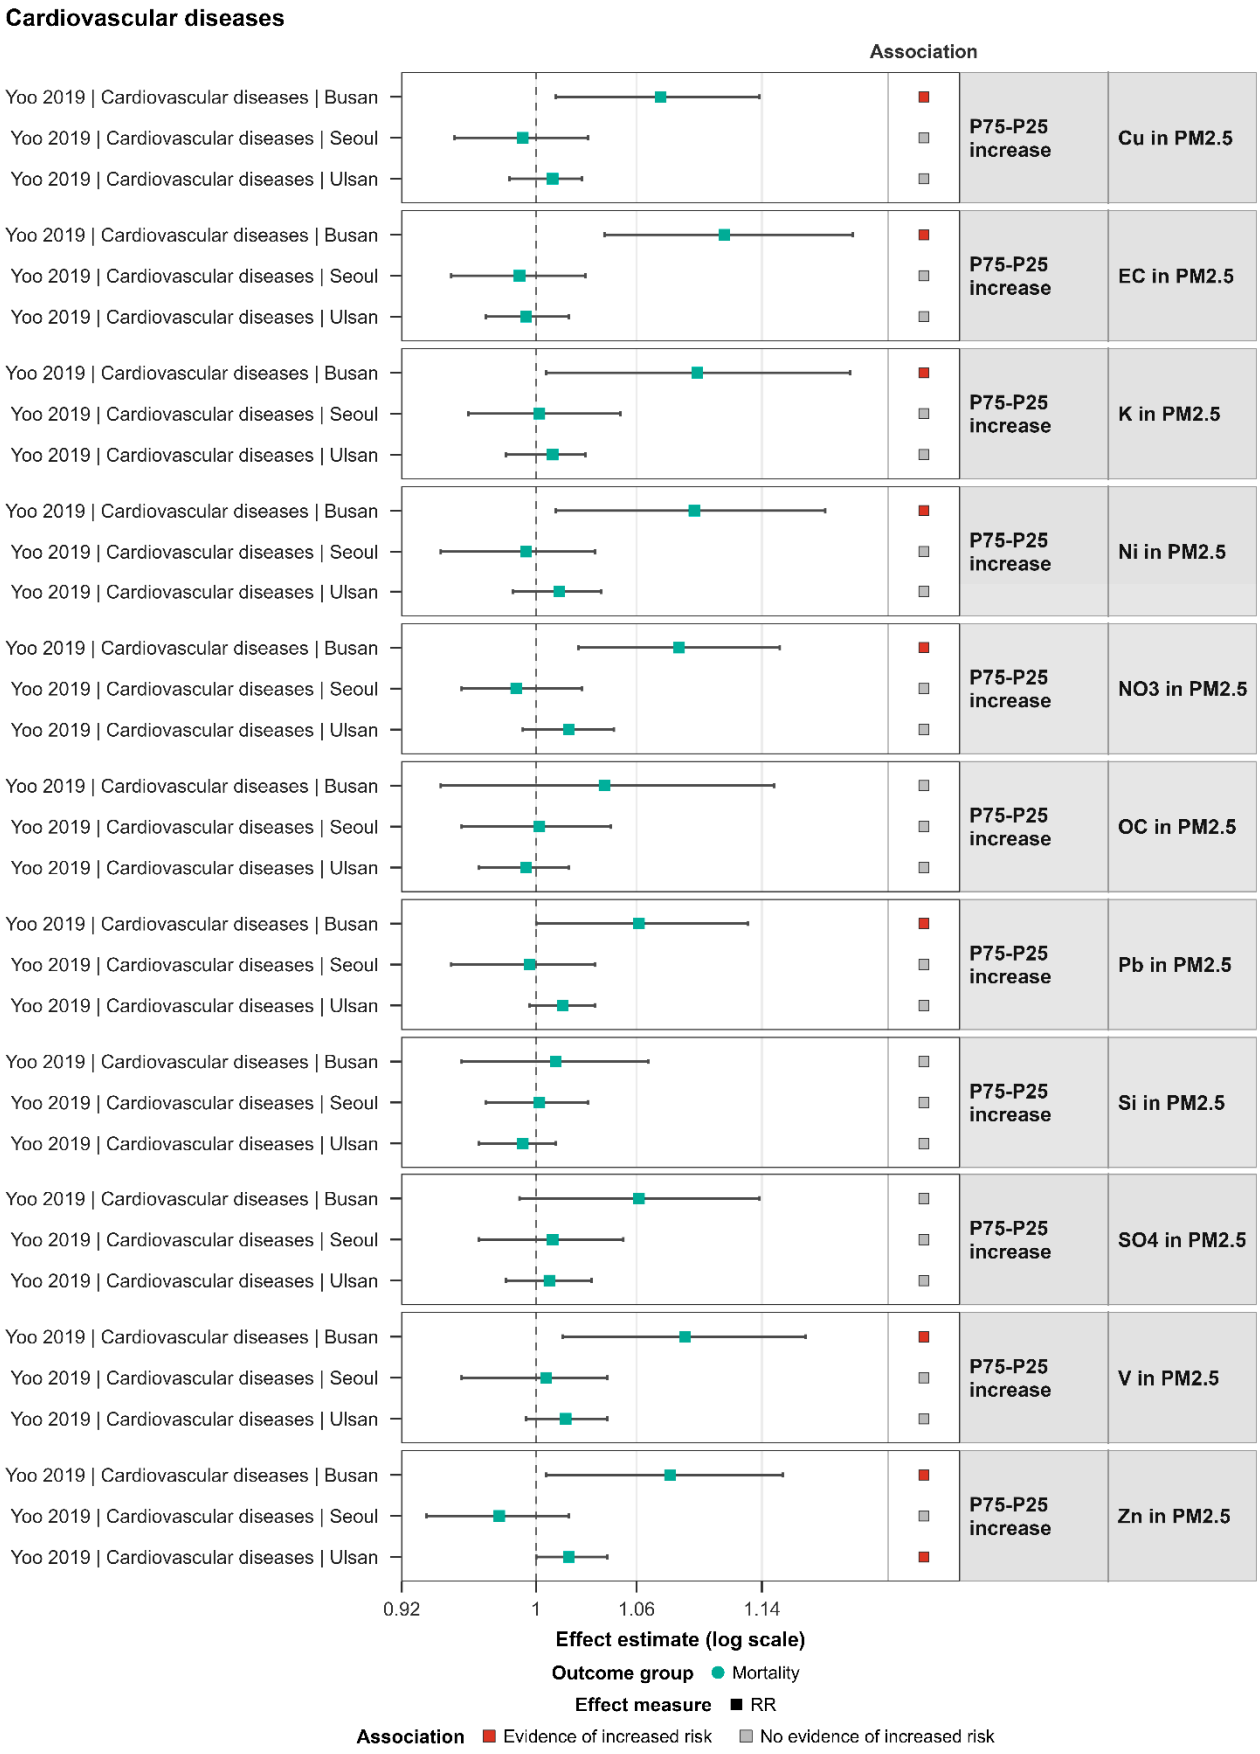

Figure S29. Forest plot for short-term exposure effect on cardiovascular diseases (linear scale).
