Air pollution exposure and human health in port cities: a systematic review

Supplementary File S6. Details of estimates from multi-pollutant and/or multi-source exposure.

Figure S30. Forest plot for long-term exposure effect on macrosomia (logarithmic scale).
Figure S31. Forest plot for short-term exposure effect on all causes (linear scale).
Figure S32. Forest plot for short-term exposure effect on respiratory diseases (logarithmic scale).
Figure S33. Forest plot for short-term exposure effect on respiratory diseases (linear scale).
Figure S34. Forest plot for short-term exposure effect on cardiovascular diseases (logarithmic scale).
Figure S35. Forest plot for short-term exposure effect on cardiovascular diseases (linear scale).

Figure S30. Forest plot for long-term exposure effect on macrosomia (logarithmic scale).

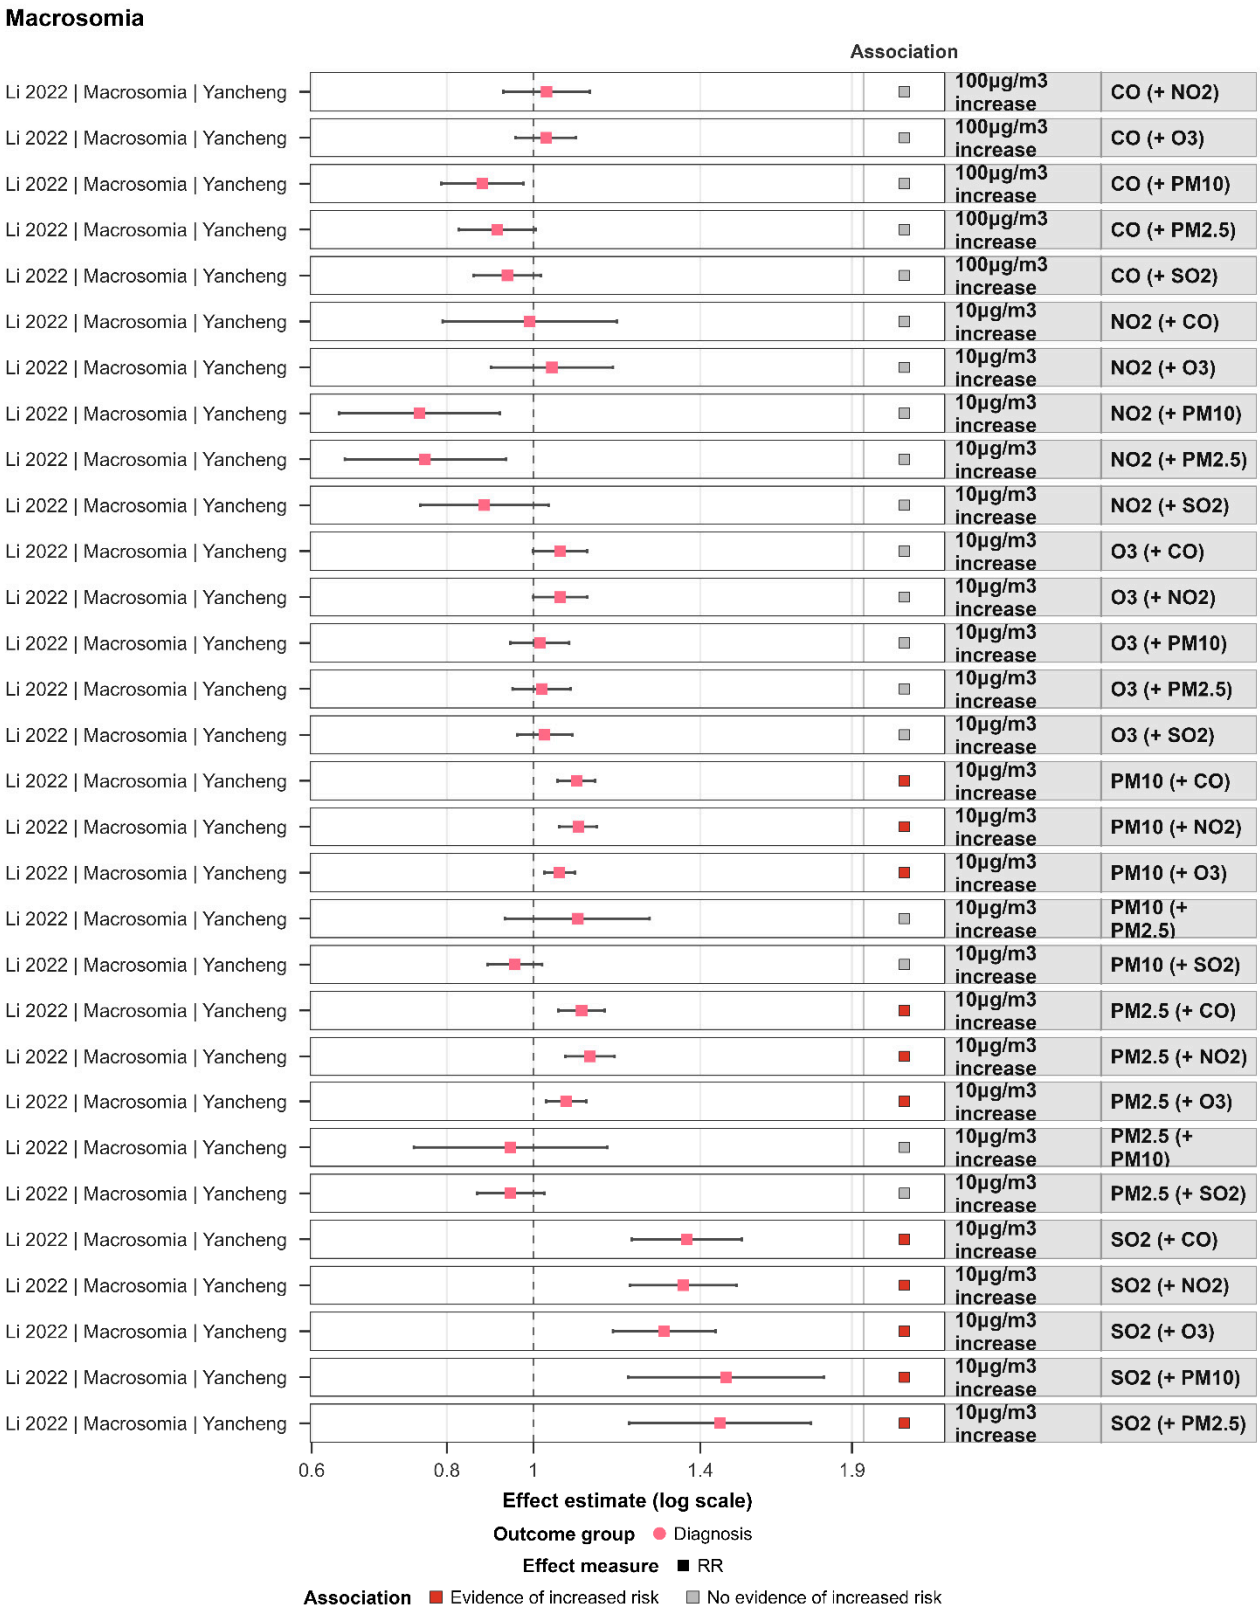

Figure S31. Forest plot for short-term exposure effect on all causes (linear scale).

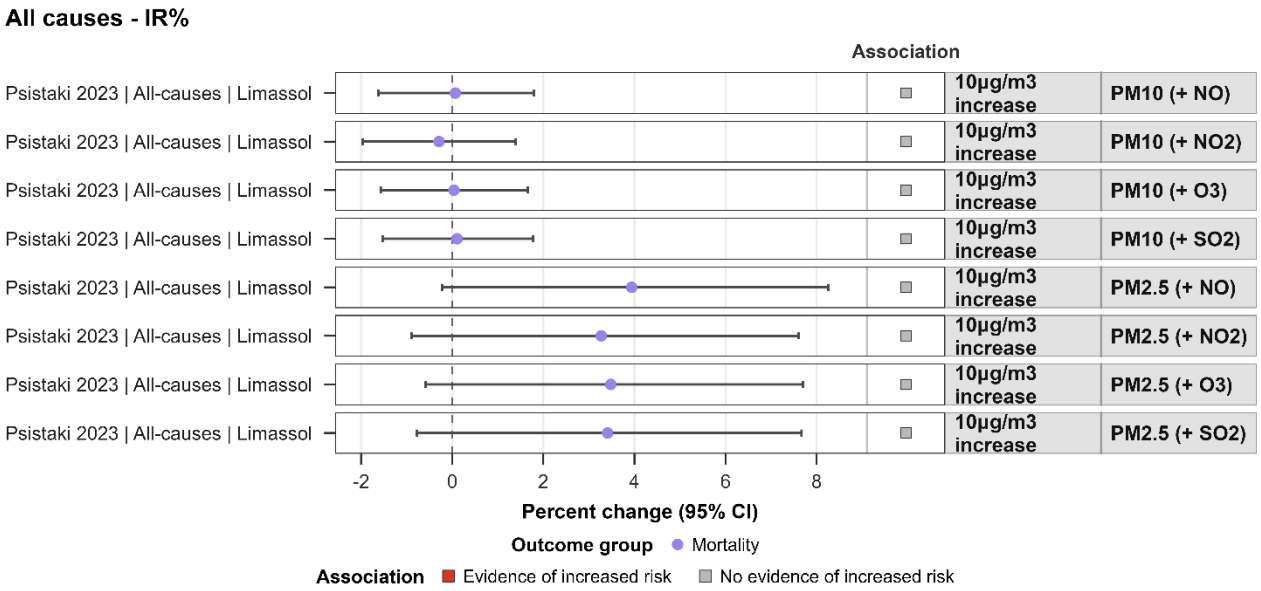

Figure S32. Forest plot for short-term exposure effect on respiratory diseases (logarithmic scale).

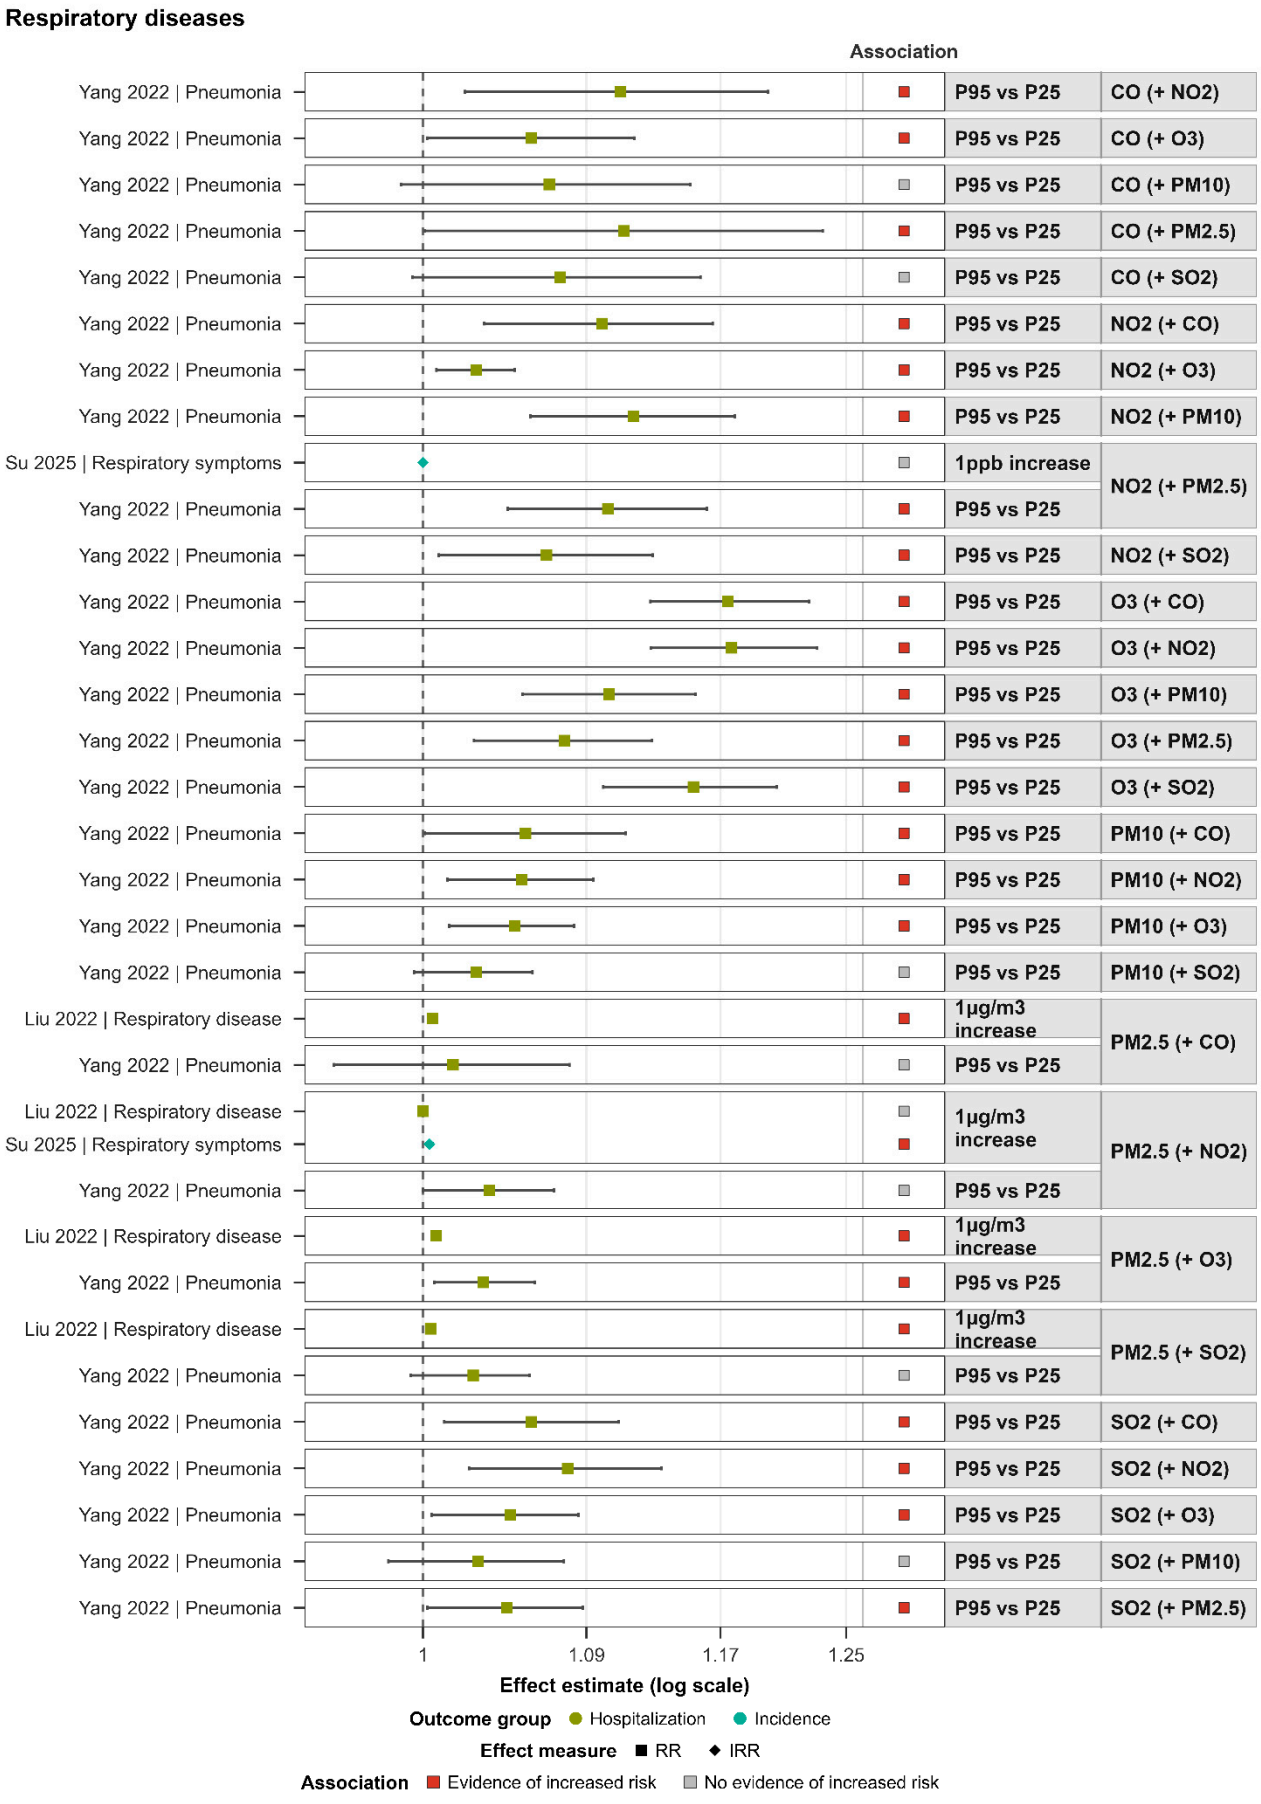

Figure S33. Forest plot for short-term exposure effect on respiratory diseases (linear scale).

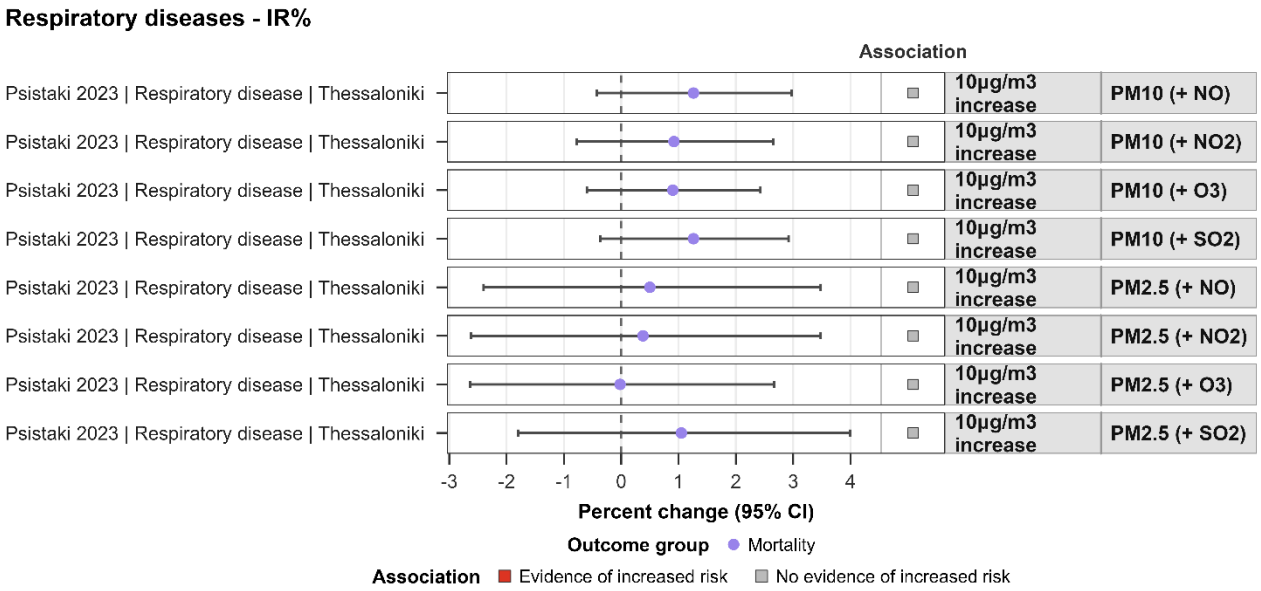

Figure S34. Forest plot for short-term exposure effect on cardiovascular diseases (logarithmic scale).

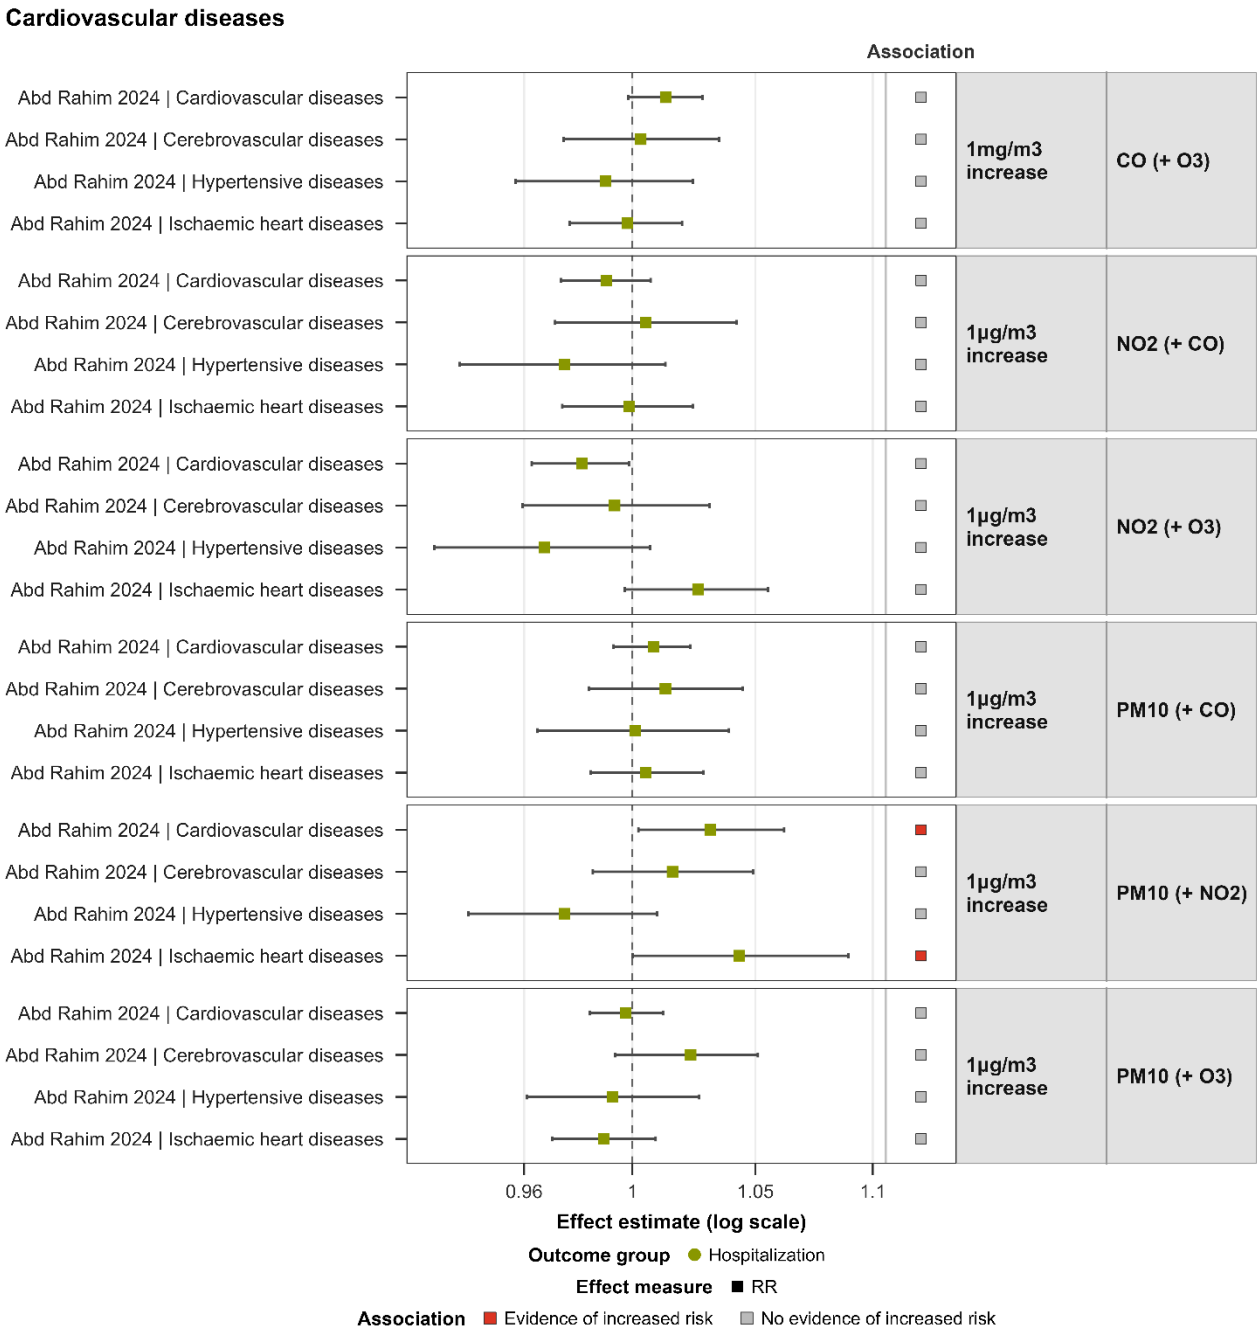

Figure S35. Forest plot for short-term exposure effect on cardiovascular diseases (linear scale).
