Table S2. Published research on Sn and Sb along the railway.

Literature source	Country	Locality	Functional part of railway	Distance from the tracks	Year of soil samples collection	Sn mg/kg	Sb mg/kg
Dzierżanowski and Gawroński [14]	Poland	suburbs of Warsaw	between stations	0–1 m from the track embankments	2011	below detection limit	below detection limit
Wiłkomirski [15]	Poland	Białystok, Sokółka, Hajnówka and Kuźnica	railway stations: in different functional parts	not specified	2012	3–23	not investigated
Staszewski [16]	Poland	Ława Główna	railway junction	< 2 m	2008	4–33	not investigated

Table S3. Bioavailable concentrations and percentage of bioavailable concentrations for Sn and Sb.

No. of site	Bioavailable concentrations		Percentage of bioavailable concentrations	
	Sn mg/kg	Sb mg/kg	Sn %	Sb %
