## List of Supplemental Tables

**Table S1.** Dates of planting for each phytoremediation buffer system (i.e., phyto buffer).

**Table S2.** Probability values from analyses of variance for health and mean annual increment (MAI).

**Table S3.** Probability values from analyses of variance for height, diameter, and volume.

**Table S4.** Height for the buffer  $\times$  clone  $\times$  year interaction (2017 Buffer Group).

**Table S5.** Diameter for the buffer  $\times$  clone  $\times$  year interaction (2017 Buffer Group).

**Table S6.** Volume clone rank for the buffer  $\times$  clone  $\times$  year interaction (2017 Buffer Group).

**Table S7.** Height for the buffer  $\times$  clone  $\times$  year interaction (2018 Buffer Group).

**Table S8.** Diameter for the buffer  $\times$  clone  $\times$  year interaction (2018 Buffer Group).

**Table S9.** Volume clone rank for the buffer  $\times$  clone  $\times$  year interaction (2018 Buffer Group).

**Table S10.** Height for the buffer  $\times$  clone  $\times$  year interaction (2019 Buffer Group).

**Table S11.** Diameter for the buffer  $\times$  clone  $\times$  year interaction (2019 Buffer Group).

**Table S12.** Volume clone rank for the buffer  $\times$  clone  $\times$  year interaction (2019 Buffer Group).

**Table S13.** Final classification of clones into generalist and specialist response groups.

## List of Supplemental Figures

**Figure S1.** Health for the buffer  $\times$  clone interaction measured in 2018 (2017 Buffer Group).

**Figure S2.** Health for the buffer  $\times$  clone interaction measured in 2019 (2017 Buffer Group).

**Figure S3.** Health for the buffer  $\times$  clone interaction measured in 2019 (2018 Buffer Group).

**Table S1.** Dates of planting for each phytoremediation buffer system (i.e., phyto buffer) in the Lake Superior watershed of the Upper Peninsula of Michigan, USA and the Lake Michigan watershed of eastern Wisconsin, USA. Buffer groups correspond to year of planting.

Phyto buffer	Date of planting
<i>----- 2017 Buffer group -----</i>	
BW: Bellevue (West)	20 June 2017
CE: Caledonia (East)	22 June 2017
ME: Menomonee Falls (East)	21 June 2017
MW: Menomonee Falls (West)	21 June 2017
SL: Slinger	20 June 2017
WH: Whitelaw	26 June 2017
<i>----- 2018 Buffer group -----</i>	
BC: Bellevue (Central)	13 June 2018
BE: Bellevue (East)	13 June 2018
CW: Caledonia (West)	4 June 2018
MA: Manitowoc	6 June 2018
MQ: Marquette	30 May 2018
<i>----- 2019 Buffer group -----</i>	
EE: Escanaba (East)	11 June 2019
EW: Escanaba (West)	11 June 2019
MU: Munising	11 June 2019
ON: Ontonagon (North)	13 June 2019
OS: Ontonagon (South)	13 June 2019

**Table S2.** Probability values from analyses of variance for poplar clones grown in sixteen phytoremediation buffer systems (i.e., phyto buffers) in the Lake Superior watershed of the Upper Peninsula of Michigan, USA and the Lake Michigan watershed of eastern Wisconsin, USA. Buffer groups correspond to year of planting. Significant values highlighted in the Results are bolded.

	Buffer	Clone	Buffer × Clone
----- 2017 Buffer group -----			
Health <sub>2017(2017)</sub>	<0.0001	<0.0001	<b>&lt;0.0001</b>
Health <sub>2017(2018)</sub>	<0.0001	<0.0001	<b>&lt;0.0001</b>
