Number
Phenylpropanoid biosynthesis
Starch and sucrose metabolism
Cyanoamino acid metabolism
ABC transporters
Limonene and pinene degradation
MAPK signaling pathway - plant
Glycolysis / Gluconeogenesis
Cutin, suberine and wax biosynthesis
Tryptophan metabolism
Valine, leucine and isoleucine degradation
Histidine metabolism
Brassinosteroid biosynthesis
Fatty acid degradation
beta-Alanine metabolism
Carbon fixation in photosynthetic organisms
Tropane, piperidine and pyridine alkaloid bi...
Pentose phosphate pathway
Protein processing in endoplasmic reticulum
Plant hormone signal transduction
Nitrogen metabolism
KEGG pathway
