Supplementary material

Table S1. The AIC and BIC values for model selection for each variable studied, indicating whether the models included or excluded the treatment × time interaction.

Approach	Variable	treatment x time interaction excluded			treatment x time interaction included		
		npar	**AIC**	**BIC**	**npar**	**AIC**	**BIC**
State-space	G	9	955.75	986.96	12	959.75	1001.37
