

Figure. S1 Effect of paracin wx7 on DNA of *E. faecalis*.

Lane 1 is DNA marker (geneRuler 1kb plus, ThermoFisher, USA), lane 2 is DNA of *E. faecalis* without bacteriocin treatment, lane 3 to 9 are DNA of *E. faecalis* treated by paracin wx7 (DNA : bacteriocin) at ratio of 3.125:200, 6.25:200; 12.5:200; 25:200, 50:200, 100:200, 200:200, respectively ($\mu\text{g}/\text{mL}$: $\mu\text{g}/\text{mL}$).
