

Table S1. Midpoint soil organic carbon (SOC) storage and its monetary value by soil order and county for the state of Maryland (USA), based on the areas shown in Table 3 and the area-normalized midpoint monetary values in Table 4.

County/City	Total SOC Storage (kg), SC-CO ₂ (\$ = USD)	Degree of Weathering and Soil Development					
		Slight		Moderate		Strong	
		Entisols	Inceptisols	Histosols	Alfisols	Spodosols	Ultisols
Total SOC Storage (kg), SC-CO ₂ (\$ = USD)
