Supplementary file for **Living in the heights: Unveiling urban livability for a high altitude Himalayan town in India by integrating geographically weighted technique**

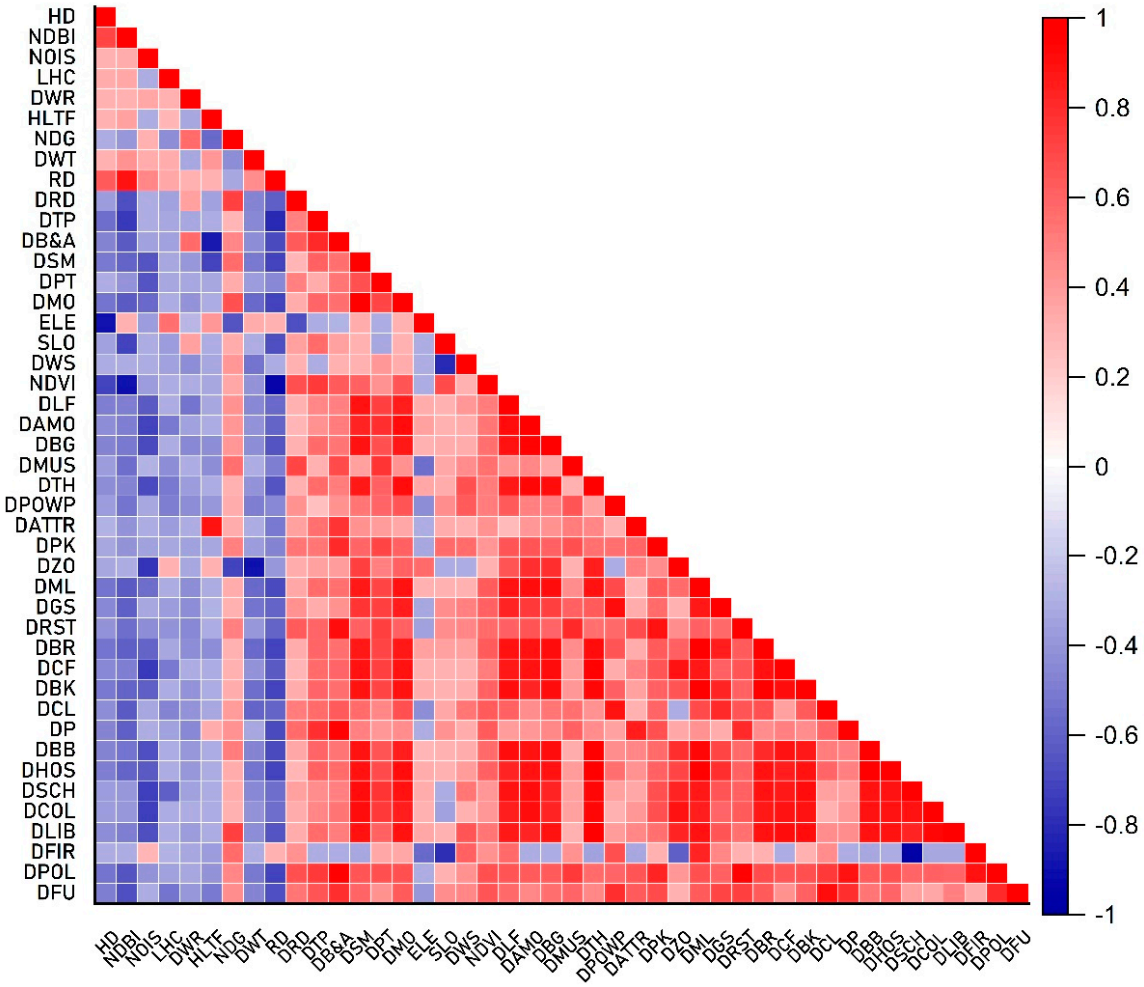

Figure S1: Showing correlation among the selected variables. The dark red showing strong positive correlation and the dark blue showing negative correlation. *(HD= household density, NDBI= normalized difference built-up index, NOIS= Mean noise level, LHC= Livable House condition, DWR= Dwelling rooms <2, HLTF= Household having latrine facility, NDG= No drainage, DWT= Drinking water within premises, RD= Road density, DRD= Distance from major road, DTP= Distance from major transport facilities, DB&A= Distance from bank and ATM, DSM= Distance from supermarket, DPT= Distance from public toilet, DMO= Distance from municipal office, ELE= Average elevation, SLO= Average slope, DWS= Distance from natural water source (Jhora), NDVI= normalized difference vegetation index, DLF= Distance from open dumping place, DAMO= Distance from art memorial, DBG= Distance from botanical garden, DMUS= Distance from museum, DTH= Distance from theatres, DPOWP= Distance from place of worship, DATTR= Distance from major attraction and viewpoints, DPK= Distance from parks and playgrounds, DZO= Distance from Zoo, DML= Distance from malls, DGS= Distance from gym and sports centres, DRST= Distance from restaurants and take away counters of fast foods, DBR= Distance from bar, DCF= Distance from cafeteria, DBK= Distance from bakery, DCL= Distance from private clinics/nursing homes, DP= Distance from pharmacy, DBB= Distance from blood bank, DHOS= Distance from hospitals, DSCH= Distance from school, DCOL= Distance from college, DLIB= Distance Library, DFIR= Distance from fire service, DPOL= Distance from police station, DFU= Distance from fuel stations)*

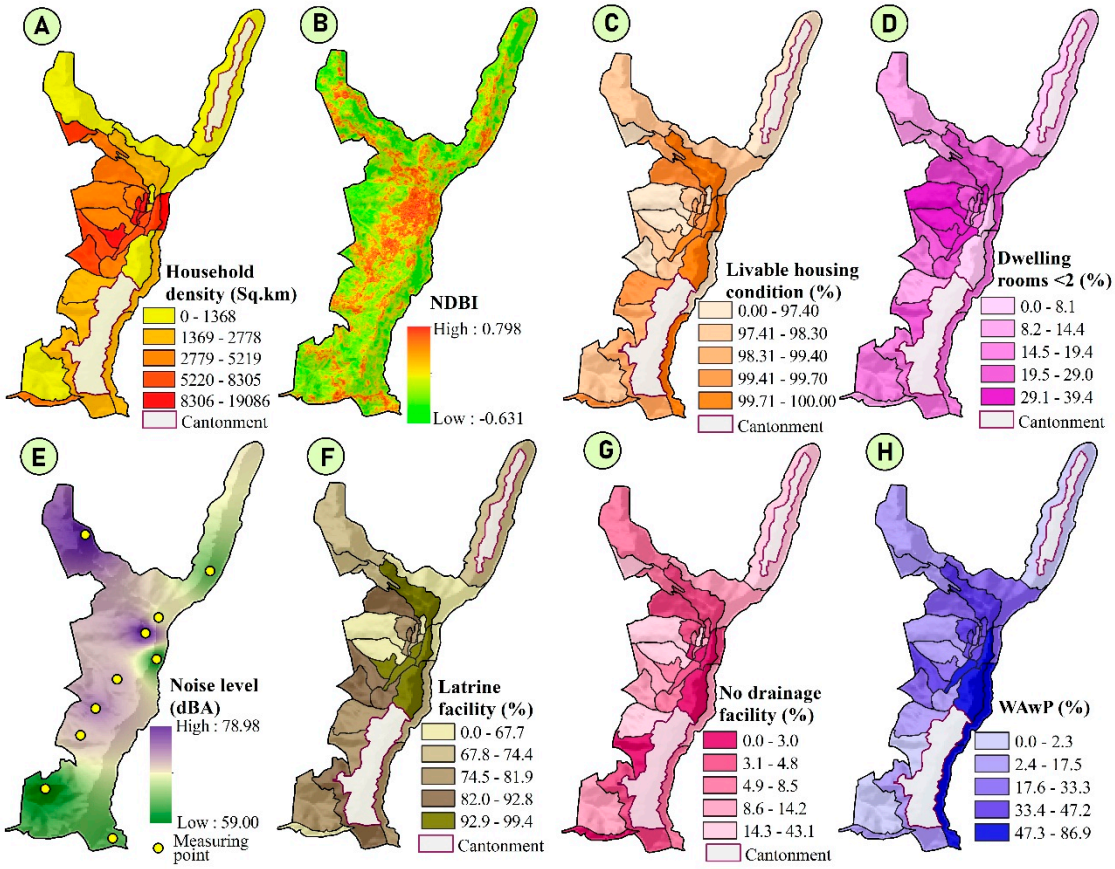

Figure S2: Built-up and Housing environment.

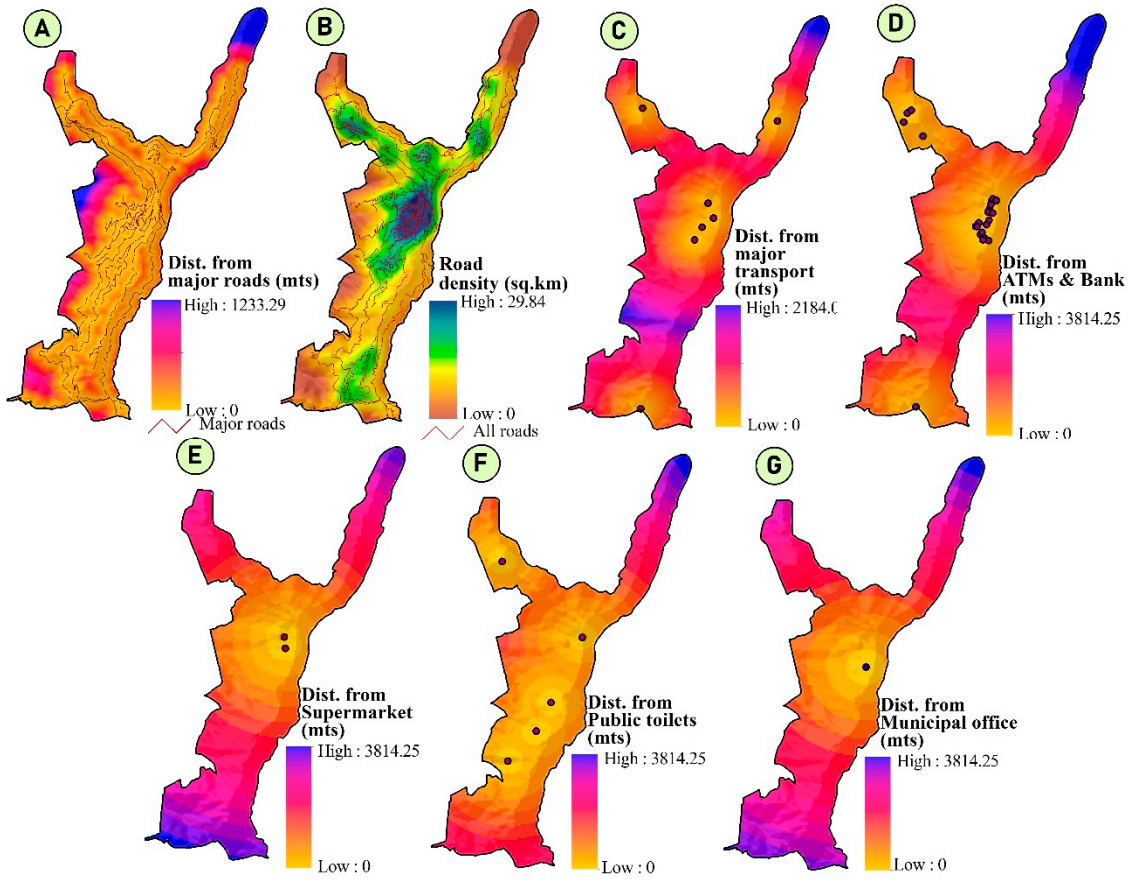

Figure S3: Public convenience & infrastructure.

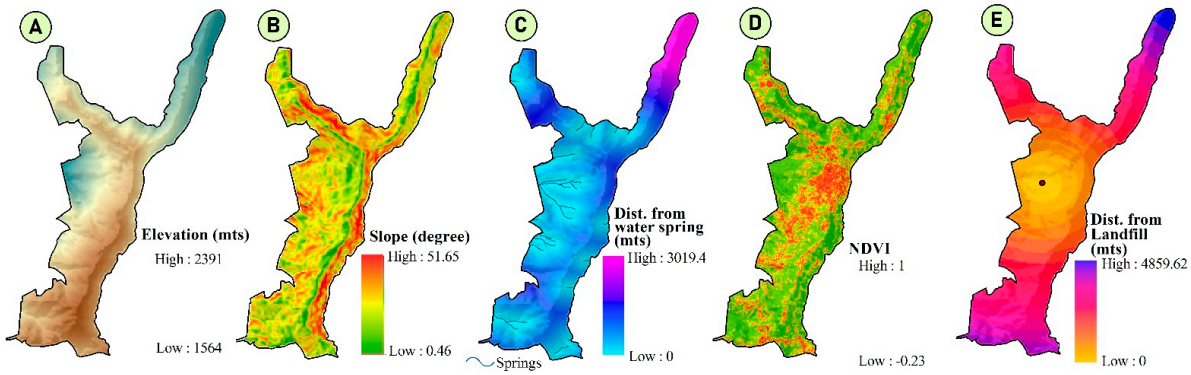

Figure S4: Physical environment.

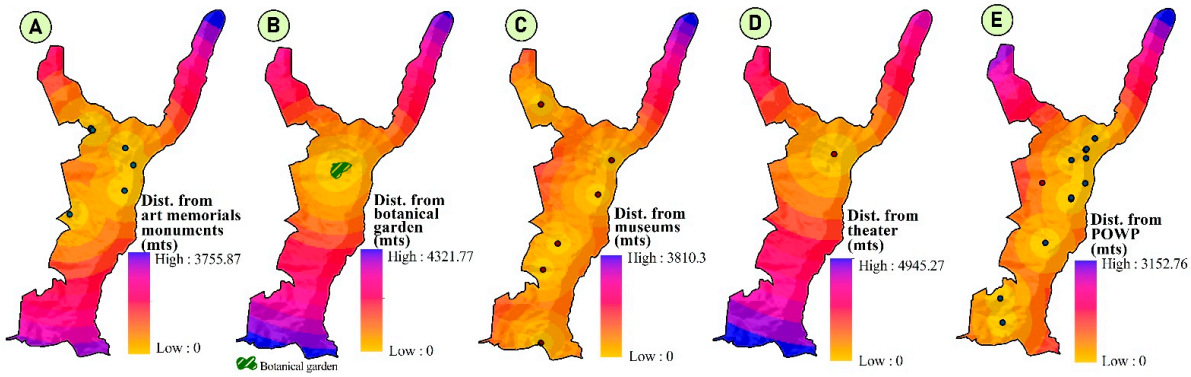

Figure S5: Cultural & Spiritual facilities.

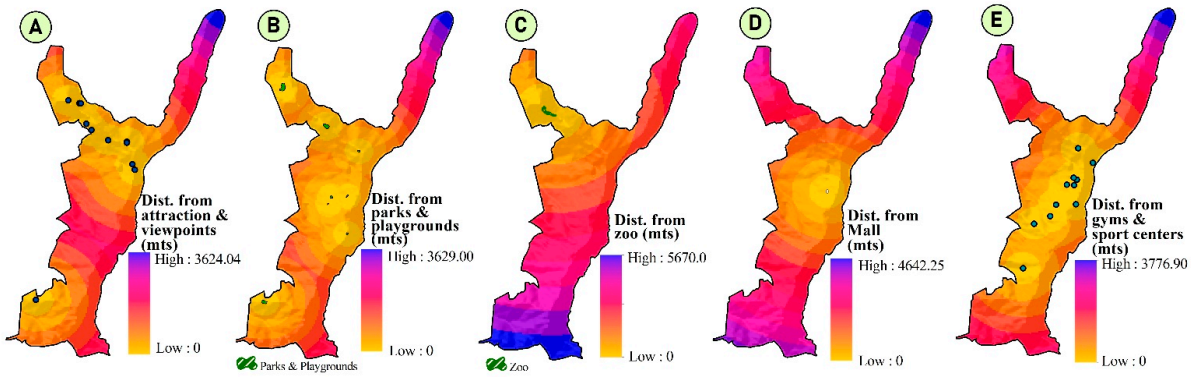

Figure S6: Recreational facilities.

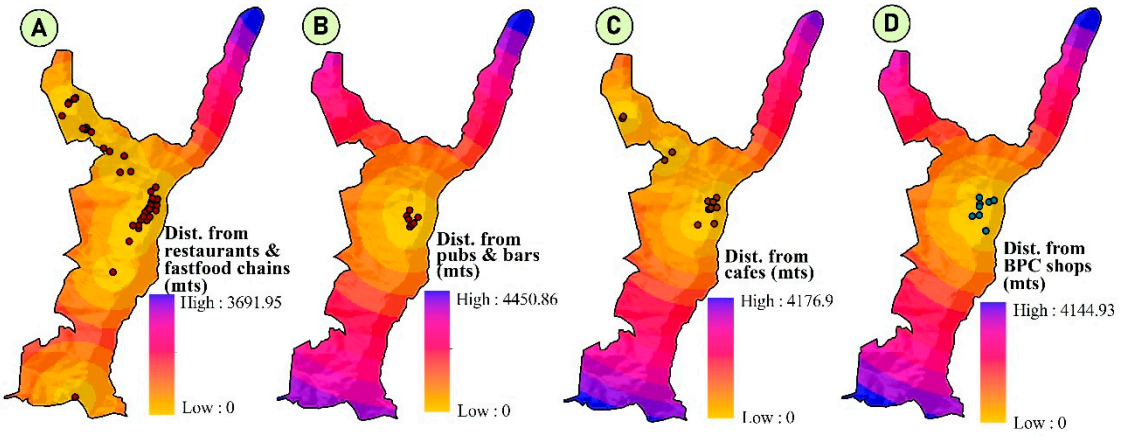

Figure S7: Dinning & Fooding services.

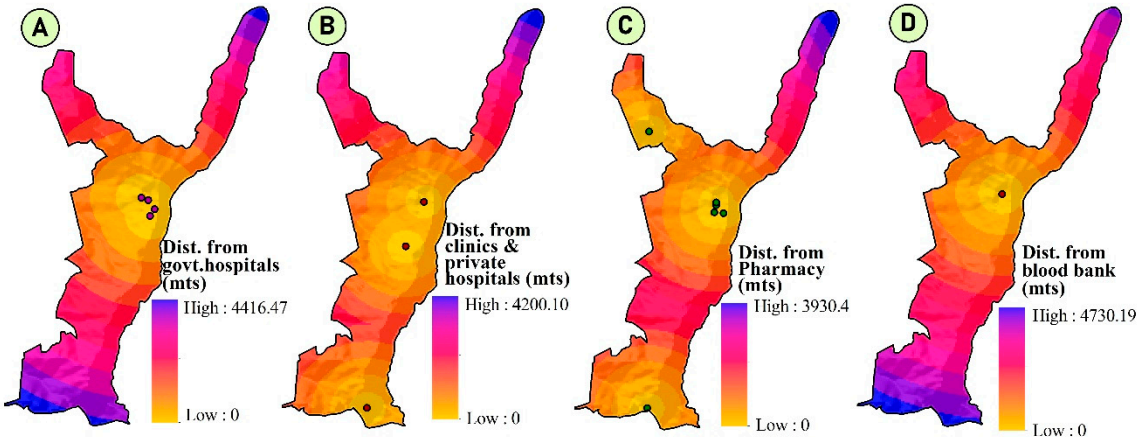

Figure S8: Healthcare facilities.

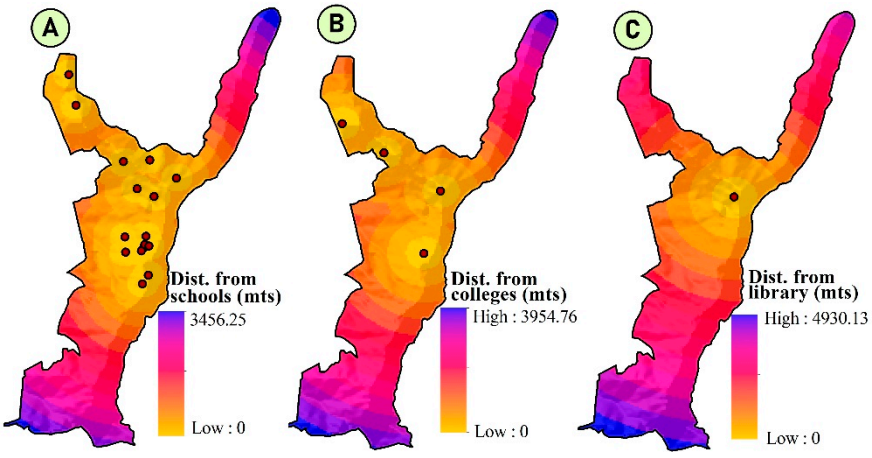

Figure S9: Educational facilities.

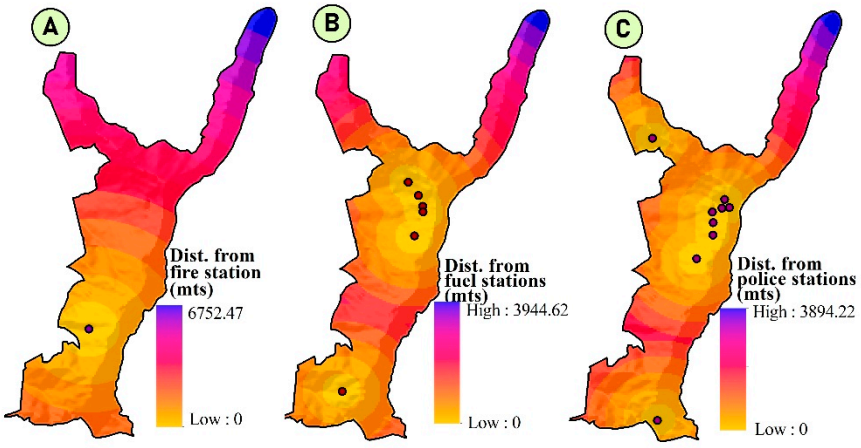

Figure S10: Safety services.
