

Table S1B Macroscopic description of the undecorated pottery samples.

Sample code	Class	Morphology	Sample description	Fabric description
RC278	undecorated pottery	olla	Fragment of a closed vessel body with a handle attachment. Brown-grey fabric; surface poorly preserved.	Dark grey to black fabric with a sandy matrix, small-medium inclusions, and moderate levigation.
RC279	undecorated pottery	bowl	Rim fragment with attached bowl wall, dark grey, showing an abraded area where a knob may have been applied.	Dark grey to black fabric with a sandy matrix, small-medium inclusions, and moderate levigation.
RC280	undecorated pottery	olla	Body fragment of an olla with a stylized vertical ring handle, dark grey fabric.	Greyish-brown fabric, moderately well levigated with microscopic sandy inclusions.
RC281	undecorated pottery	uncertain/closed shape/pitcher?	Large wall fragment with pedestal base, nearly half preserved; brown surface, poorly preserved.	Black fabric with a sandy matrix and inclusions of varied sizes.
RC282	undecorated pottery	uncertain/closed shape	Wall fragment of a closed vessel with a knob, grey in colour.	Black fabric with a sandy matrix and inclusions of varied sizes.
RC283	undecorated pottery	olla	Rim fragment with attached olla wall; brown surface, heavily worn, with possible burial alteration.	Greyish-yellow fabric with a sandy matrix and inclusions of varied sizes.
RC284	undecorated pottery	uncertain/closed shape	Wall fragment of a closed vessel with a worn surface, possibly altered by burial processes.	Dark grey to black fabric with a sandy matrix and inclusions of varied sizes.
RC285	undecorated pottery	olla	Rim fragment with attached olla wall; brown surface showing signs of burnishing or smoothing.	Fine-grained black fabric with a sandy matrix and small inclusions.
RC286	undecorated pottery	uncertain/closed shape	Wall fragment of a closed vessel with a stylized, irregular horizontal knob.	Fine, well-levigated fabric with a sandy matrix; a brown surface grading into a dark grey-black core. Inclusions are predominantly small, with occasional medium-sized particles.
RC287	undecorated pottery	uncertain/ closed shape	Wall fragment of a closed vessel with a small vertical handle attachment and an abraded surface.	Fine-grained greyish fabric with a sandy matrix and small to medium inclusions.
