Supplemetary file captions

Supplemetary Figure S1. Reactions of 'Picual' according to different treatments and time intervals between inoculations: A) Control treatment (C/C). B) ND/C treatment. C) Interval: 10 days; treatment of C/D (left) and ND/D (right) . D-E) Interval: 1 month; (D) ND/D (left) and C/D (right) treatment; (E) Variability of response in ND/D treatment. F-G) Interval: 2 months; (F) ND/D (left) and C/D (right) treatment; (G) Variability of response in ND/D treatment.

Supplemetary Figure S2. Reactions of 'Picual' according to different treatments and time intervals between inoculations: A-D) Interval: 4 months; (A) C/D treatment at 8 weeks after inoculation with the defoliant isolate; (B) ND/D treatment at 8 weeks after inoculation with the defoliant isolate; (C) ND/D (right) and C/D (left) treatment; (D) ND/D (right) and C/D (left) treatment at 12 weeks after inoculation with the defoliant isolate. E) Interval: 6 months; ND/D (right) and C/D (left) treatment at 8 weeks after inoculation with the defoliant isolate of *Verticillium dahliae*.
