

S3 - Characteristics of included guidelines across the USA, Europe, Japan, and their overall quality scores by AGREE-II tool.

N	Title	Year	Society/Developer	Country	Developed methods	AGREE-II. Overall Quality
1	International Consensus Guidance for the Management of Myasthenia Gravis	2016	American Academy of Neurology	America	Consensus-based	5/7
2	Plasmapheresis in neurologic disorders	2011	American Academy of Neurology	America	Evidence-based	6/7
3	Intravenous immunoglobulin in the treatment of neuromuscular disorders	2012	American Academy of Neurology	America	Evidence-based	6/7
4	Repetitive nerve stimulation and single-fiber electromyography in the evaluation of patients with suspected myasthenia gravis or Lambert-Eaton myasthenic syndrome	2015	American Association of Electrodiagnostic Medicine	America	Literature review	5/7
5	Thymectomy for autoimmune myasthenia gravis	2000	American Academy of Neurology	America	Evidence-based review	6/7
6	Care of the Patient with Myasthenia Gravis	2014	American Association of Neuroscience Nurses	America	Evidence-based review	4/7
7	EFNS/ENS Guidelines for the treatment of ocular myasthenia	2013	European Federation of Neurological Societies	Europe	Literature review	6/7
8	Guidelines for treatment of autoimmune neuromuscular transmission disorders	2010	European Federation of Neurological Societies	Europe	Literature review	6/7
9	EFNS guidelines for the use of intravenous immunoglobulin in treatment of neurological diseases	2008	European Federation of Neurological Societies	Europe	Literature review	5/7
10	Myasthenia gravis: Association of British Neurologists' management guidelines	2015	Association of British Neurologists	UK	Literature review	6/7
11	Myasthenia in pregnancy: best practice guidelines from a UK multispecialty working group.	2013	UK multispecialty working group	UK	Literature review	6/7
12	Consensus statement: the use of intravenous immunoglobulin in the treatment of neuromuscular conditions.	2009	American Association of Neuromuscular & Electrodiagnostic Medicine	America	Consensus-based	4/7
13	Japanese clinical guidelines for myasthenia gravis: Putting into practice	2015	Japanese Society for Neuroimmunology	Japan	Literature review	6/7
