

Supplementary Information

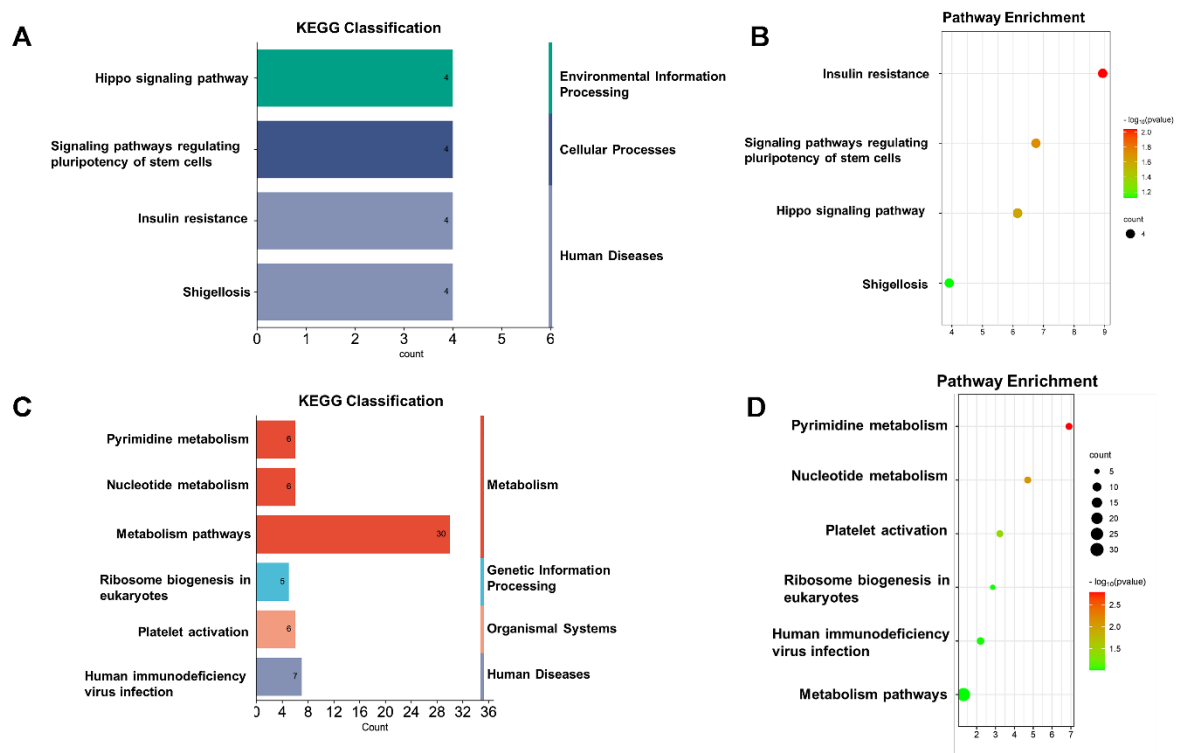

Figure S1. KEGG analysis of differentially expressed lncRNAs target genes. (A) The number of upregulated lncRNAs' target genes KEGG classifications was shown; (B) The results of KEGG pathway enrichment analysis of upregulated lncRNAs' target genes were shown in scatter plots; (C) The number of downregulated lncRNAs' target genes KEGG classifications was shown; (D) The results of KEGG pathway enrichment analysis of downregulated lncRNAs' target genes were shown in scatter plots.
