

Table S1. Healthcare providers used by the Chinese population residing in mainland Portugal (n = 284).

Healthcare Services Used	None		Chinese Doctor		Doctor of Another Nationality	
	n	%	n	%	n	%
Health Centre	19	6.7	19	6.7	246	86.6
Physiotherapy's clinic	265	93.3	3	1.1	16	5.69
Private Clinic / Hospital	198	69.7	19	6.4	68	23.9
Dental Care Clinic	192	67.6	5	1.8	87	30.6
Pharmacy	37	13	19	6.7	228	80.3
Public hospital	48	16.9	22	7.7	214	75.4
INEM	268	94.4	2	0.7	14	4.9
Healthcare 24h (online service 24/7)	274	96.5	0	0	10	3.5
Emergency Service	201	70.8	5	1.6	78	25.7

Each participant could choose more than one option (hence the sum being >284).

Table S2. Health reasons for seeking healthcare in Portugal.

Reasons (n=304)	Western Medicine (Public and Private Sectors)		TCM	TCM/Western Medicine (Public and Private Sectors)		None	All
	n (%)	n (%)		n (%)	n (%)		
Car Accident	10 (3.5)	0 (0)	0 (0)	274 (96.5)	0 (0)	274 (96.5)	0 (0)

Table S3. Health reasons for seeking healthcare in China (n=165).

Health Problem	n	%
Chronic Disease Monitoring	140	84.8
Preventive Care	63	38.2
Stomach-Intestine Disease	42	25.5
Musculoskeletal Disease	26	15.8
Medical treatment	17	10.3
Respiratory disease	16	9.7
Surgical treatment	13	7.9
Work Accident	12	7.3
Liver Disease	9	5.5
Heart disease	8	4.8
Psychiatric Disease	8	4.8
Pregnancy Monitoring	7	4.2
Diabetes	7	4.2
Oncological Disease	7	4.2
Other	7	4.2
Vaccination	6	3.6
Neurological Disease	6	3.6
Personal accident	6	3.6
Childbirth	4	2.4
Children's health	4	2.4
Chemotherapy	3	1.8
Radiotherapy	2	1.2
Dentistry	0	0
Car Accident	0	0

Each participant could choose more than one option (hence the sum being > 165).
