

Supplementary Figure 1: Unsupervised clustering of 22q11.2DS and control samples coloured by age. **A.** Hierarchical clustering. Each row represents one microarray probe each column represents one sample. **B.** Multidimensional scaling.

Supplementary Figure 2: Unsupervised clustering of 22q11.2DS and control samples coloured by sex. **A.** Hierarchical clustering. Each row represents one microarray probe each column represents one sample. **B.** Multidimensional scaling, controls encircled in blue.
