

Figure S2. Consensus sequences of B2 subfamilies from cricetids *Cricetulus griseus* (Cg) and *Peromyscus maniculatus* (Pm), as well as from a spalacid *Nannospalax galili* (Ng). B2 subfamilies from the *Mus musculus* (Mm) are shown for comparison. Consensus sequences of the A and B boxes of pol III promoter are shown above the alignment. β signal, PASs, and pol III transcription terminator are marked by asterisks in different colors.
