Raw images of the western blot and electrophoretic gel.

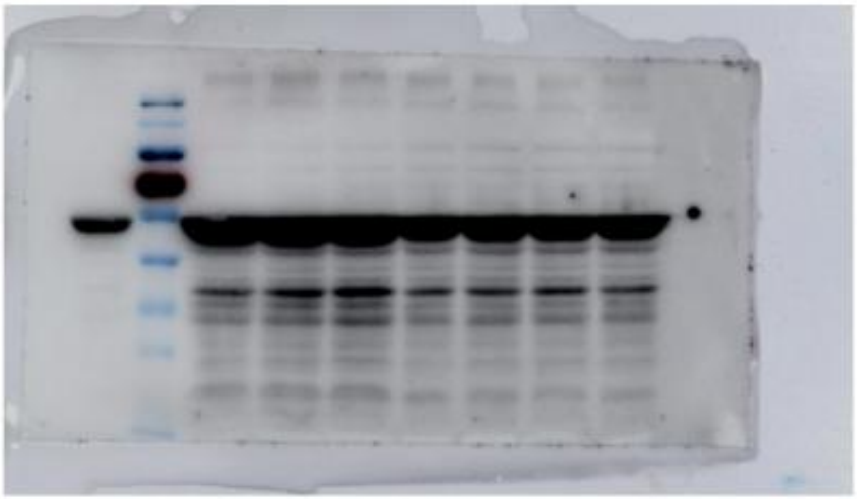

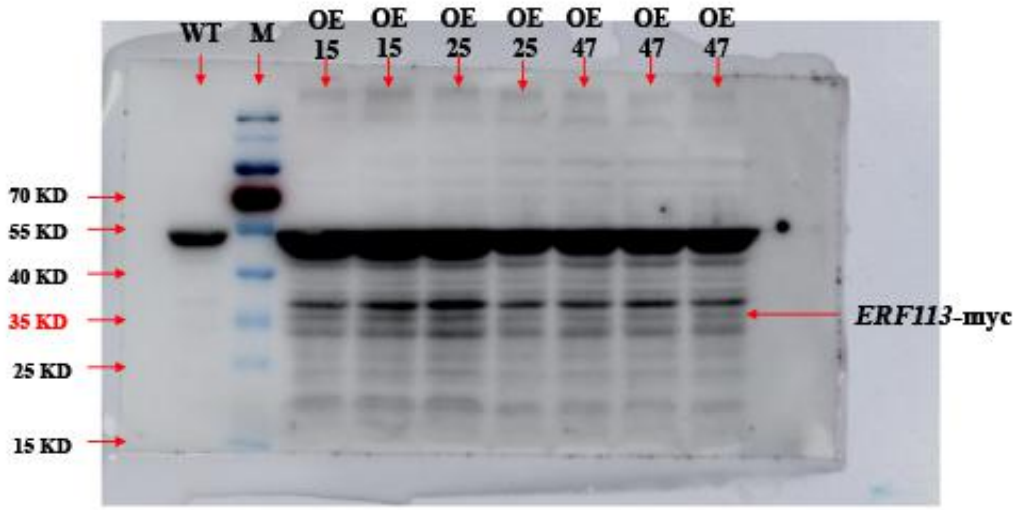

Figure S1B (Raw image): Western Blot image of identification of *GmERF113* -OE transgenic soybean plants

M: Marker; WT: Wide type plant; OE15/25/47: Overexpression of *GmERF113* transgenic soybean plants15/25/47

Figure S1B (Labeled raw image): Western Blot image of identification of *GmERF113* -OE transgenic soybean plants

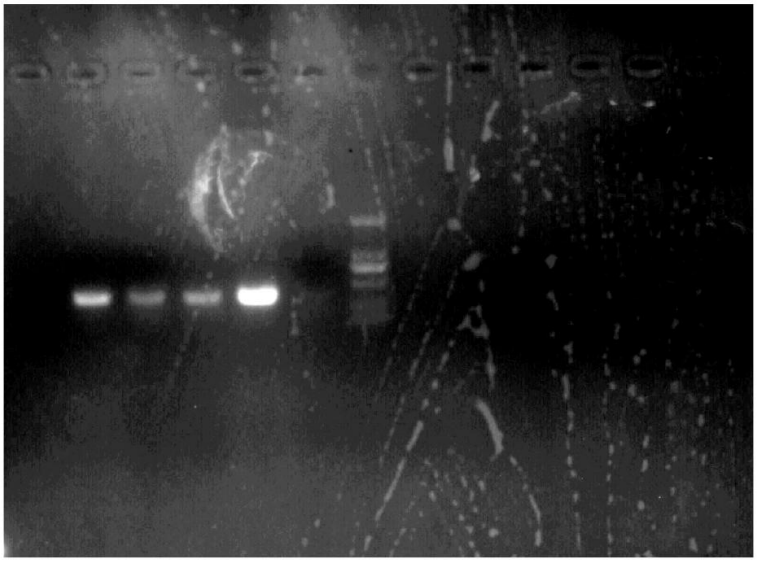

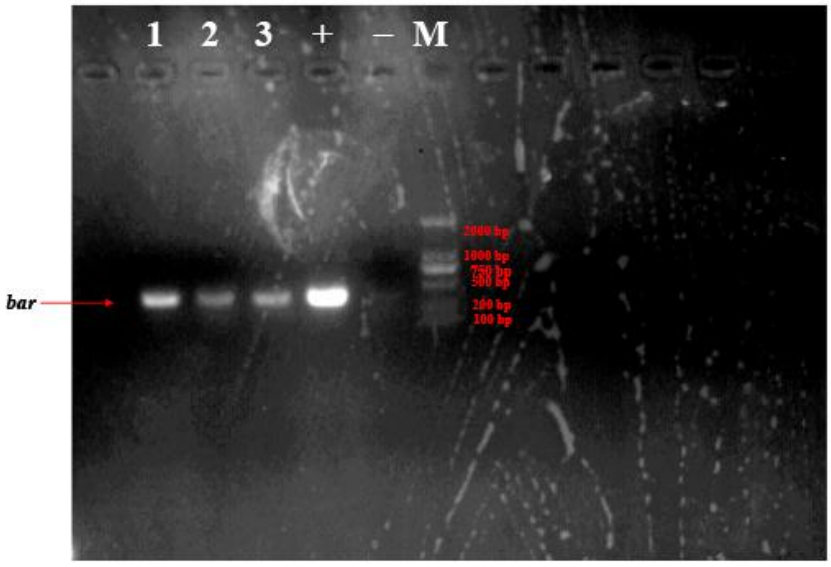

Figure S2B (Raw image): Electrophoretic gel image of identification of *GmPR10-1*-RNAi transgenic soybean hairy roots

1-3: *PR10-1*-RNAi transgenic soybean hairy roots1/2/3; +: positive control; -: negative control; M: Marker

Figure S2B (Labeled raw image): Electrophoretic gel image of identification of *GmPR10-1*-RNAi transgenic soybean hairy roots
