

**Western Blotting protein original Figure 5C.**  
**Full scans of uncropped blots presented in the paper. Red boxes indicate the cropped regions. Molecular weight is indicated in kDa.**

**Western Blotting protein original Figure 5C.**  
**Full scans of uncropped blots presented in the paper. Red boxes indicate the cropped regions. Molecular weight is indicated in kDa.**

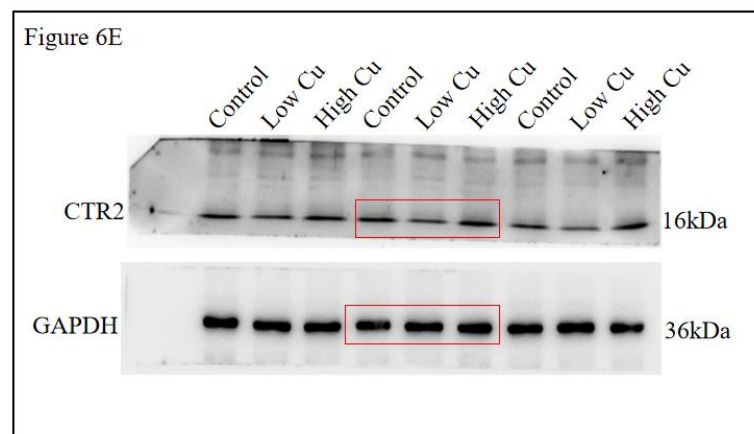

**Western Blotting protein original Figure 5C.**  
**Full scans of uncropped blots presented in the paper. Red boxes indicate the cropped regions. Molecular weight is indicated in kDa.**

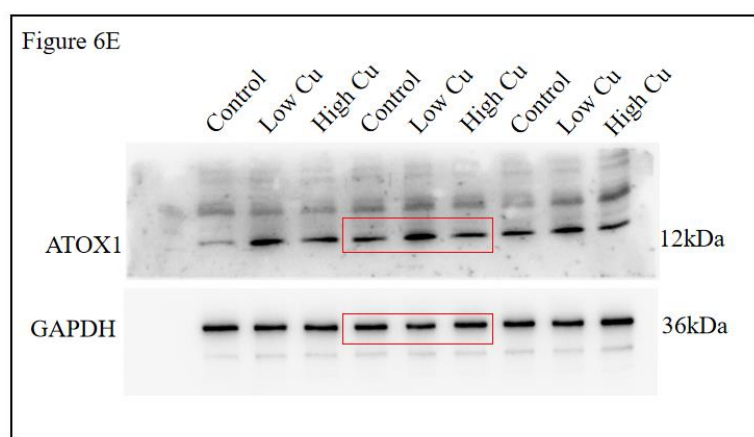

**Western Blotting protein original Figure 6E.**

**Full scans of uncropped blots presented in the paper. Red boxes indicate the cropped regions. Molecular weight is indicated in kDa.**

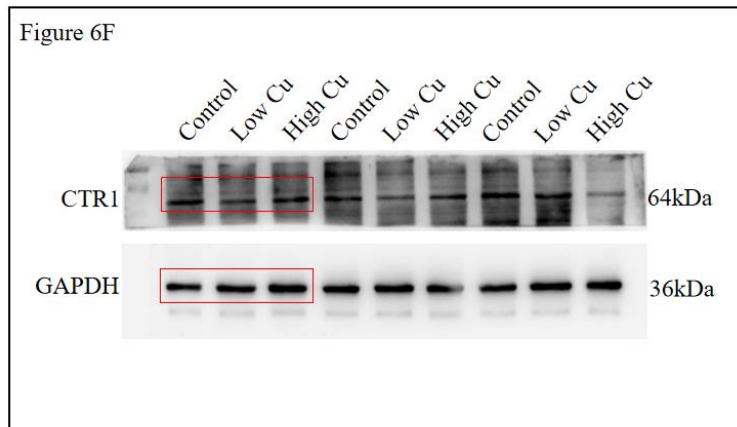

**Western Blotting protein original Figure 6E.**

**Full scans of uncropped blots presented in the paper. Red boxes indicate the cropped regions. Molecular weight is indicated in kDa.**

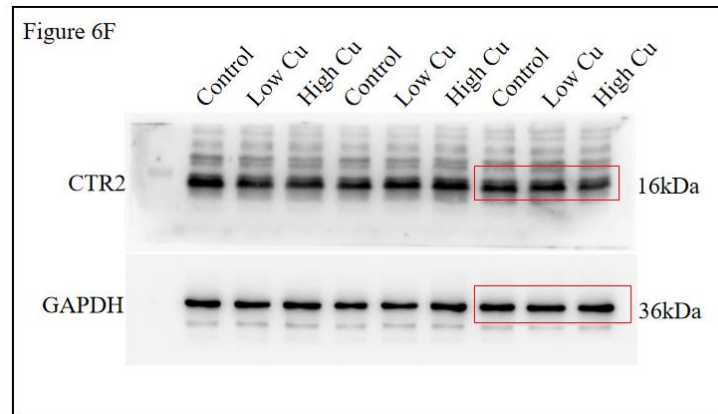

**Western Blotting protein original Figure 6E.**

**Full scans of uncropped blots presented in the paper. Red boxes indicate the cropped regions. Molecular weight is indicated in kDa.**

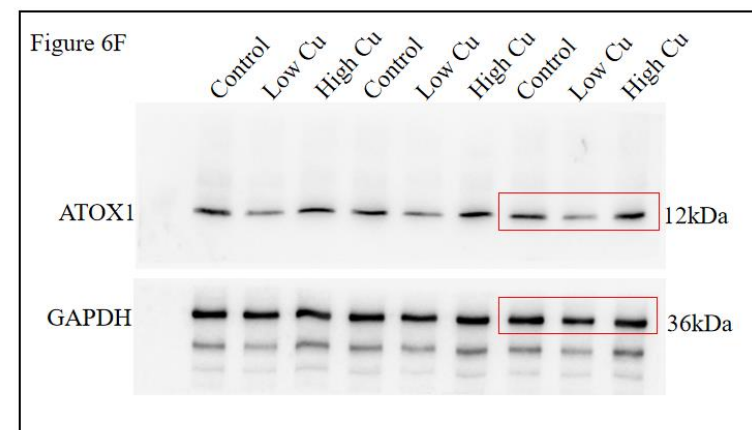

**Western Blotting protein original Figure 6F.**

**Full scans of uncropped blots presented in the paper. Red boxes indicate the cropped regions. Molecular weight is indicated in kDa.**

**Western Blotting protein original Figure 6F.**

**Full scans of uncropped blots presented in the paper. Red boxes indicate the cropped regions. Molecular weight is indicated in kDa.**

**Western Blotting protein original Figure 6F.**

**Full scans of uncropped blots presented in the paper. Red boxes indicate the cropped regions. Molecular weight is indicated in kDa.**
