

Supplementary Table S1. Clinicopathological characteristics of the ovarian cancer cohort.

Parameters	Number (%)
Surgical Pathology Type	
Serous	154 (56%)
Mucinous	39 (14%)
Endometrioid	42 (15%)
Clear Cell	16 (6%)
Other	13 (5%)
Mixed	12 (4%)
Surgical Pathology Grade	
Low	40 (17%)
Med	57 (25%)
High	134 (58%)
Surgical Pathology Stage	
1	101 (39%)
2	43 (17%)
3	108 (41%)
4	10 (3%)
Residual Tumour Following Surgery	
Non	170 (69%)
<1cm	27 (11%)
1-2cm	13 (5%)
>2cm	38 (15%)
Platinum Sensitivity	
Sensitive	217 (92%)
Resistant	20 (8%)

Supplementary Table S2: Cytoplasmic CDK2 expression and clinicopathological parameters.

Parameters	Cytoplasmic CDK2 expression		<i>p value</i>	<i>Adjusted p value</i>
	<i>Low</i>	<i>High</i>		
	<i>N (%)</i>	<i>N (%)</i>		
Pathology Type				
Serous	103 (48%)	58 (72%)	0.001	0.005
Mucinous	40 (19%)	3 (4%)		
Endometrioid	31 (15%)	9 (11%)		
Clear Cell	22 (10%)	2 (2%)		
Other	7 (3%)	4 (5%)		
Mixed	11 (5%)	5 (6%)		
Pathology Grade				
Low	32 (18%)	6 (8%)	0.069	0.069
Med	39 (22%)	15 (19%)

Supplementary Figure S1. **A.** Western blot showing CDK2 expression in PEO1, PRO4, A2780 and A2780cis ovarian cancer cell lines. **B.** Western blot showing CDK4 expression in PEO1, PRO4, A2780 and A2780cis ovarian cancer cell lines. **C.** Western blot showing CDK6 expression in PEO1, PRO4, A2780 and A2780cis ovarian cancer cell lines. **D.** Western blot showing cyclin D1 expression in PEO1, PRO4, A2780 and A2780cis ovarian cancer cell lines. **E.** Western blot showing cyclin E1 expression in PEO1, PRO4, A2780 and A2780cis ovarian cancer cell lines. **F.** Western blot showing RB1 expression in PEO1, PRO4, A2780 and A2780cis ovarian cancer cell lines. **G.** Western blot showing pRB1 expression in PEO1, PRO4, A2780 and A2780cis ovarian cancer cell lines.

Supplementary Figure 2

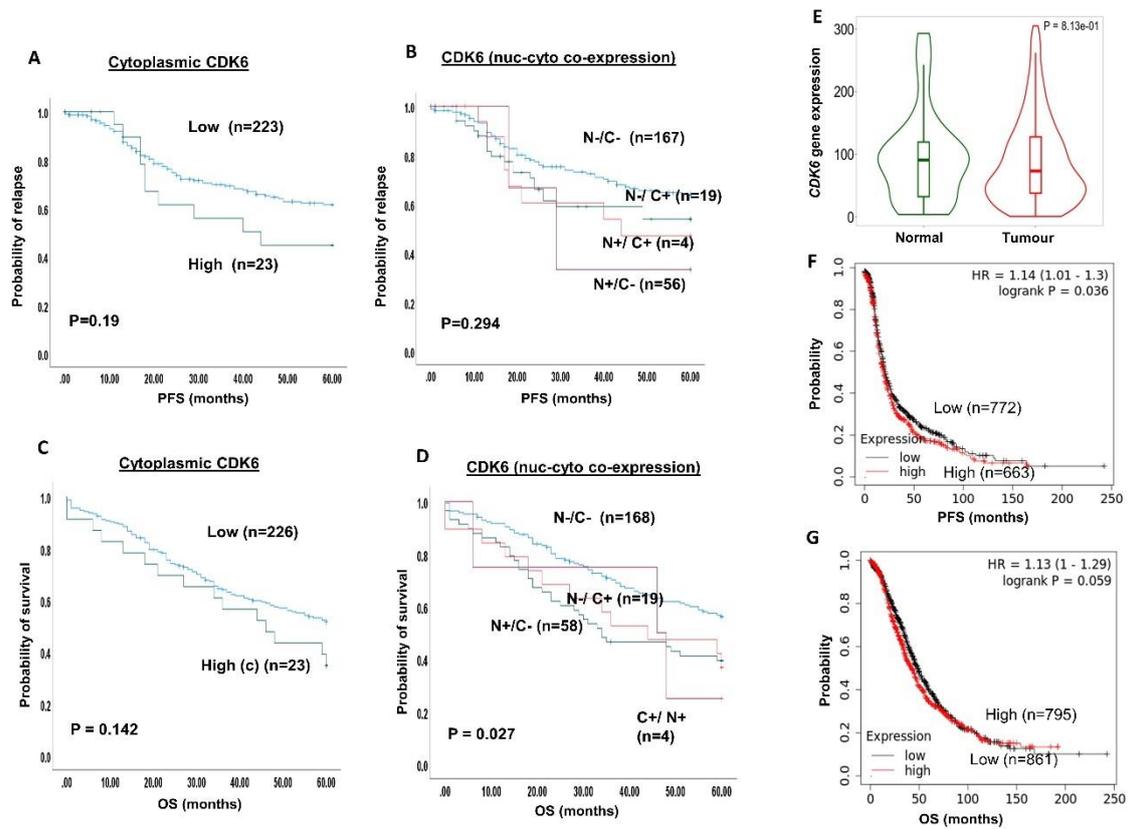

Supplementary Figure S2. **A.** Kaplan-Meier curve for CDK2 cytoplasmic expression and progression free survival. **B.** Kaplan-Meier curve for CDK2 nuclear & cytoplasmic co-expression and progression free survival. **C.** Kaplan-Meier curve for CDK2 cytoplasmic expression and overall survival. **D.** Kaplan-Meier curve for CDK2 nuclear & cytoplasmic co-expression and overall survival. **E.** Violin plot shows the median of CDK2 mRNA expression in normal and ovarian tumors; the red and green central bars represent the median, long green, and red lines represent the interquartile range. On each side of the red and green lines is a kernel density estimation to show the distribution shape of the data. **F.** Kaplan-Meier curve for CDK2 mRNA expression and progression free survival. **G.** Kaplan-Meier curve for CDK2 mRNA expression and overall survival.

Supplementary Figure 3

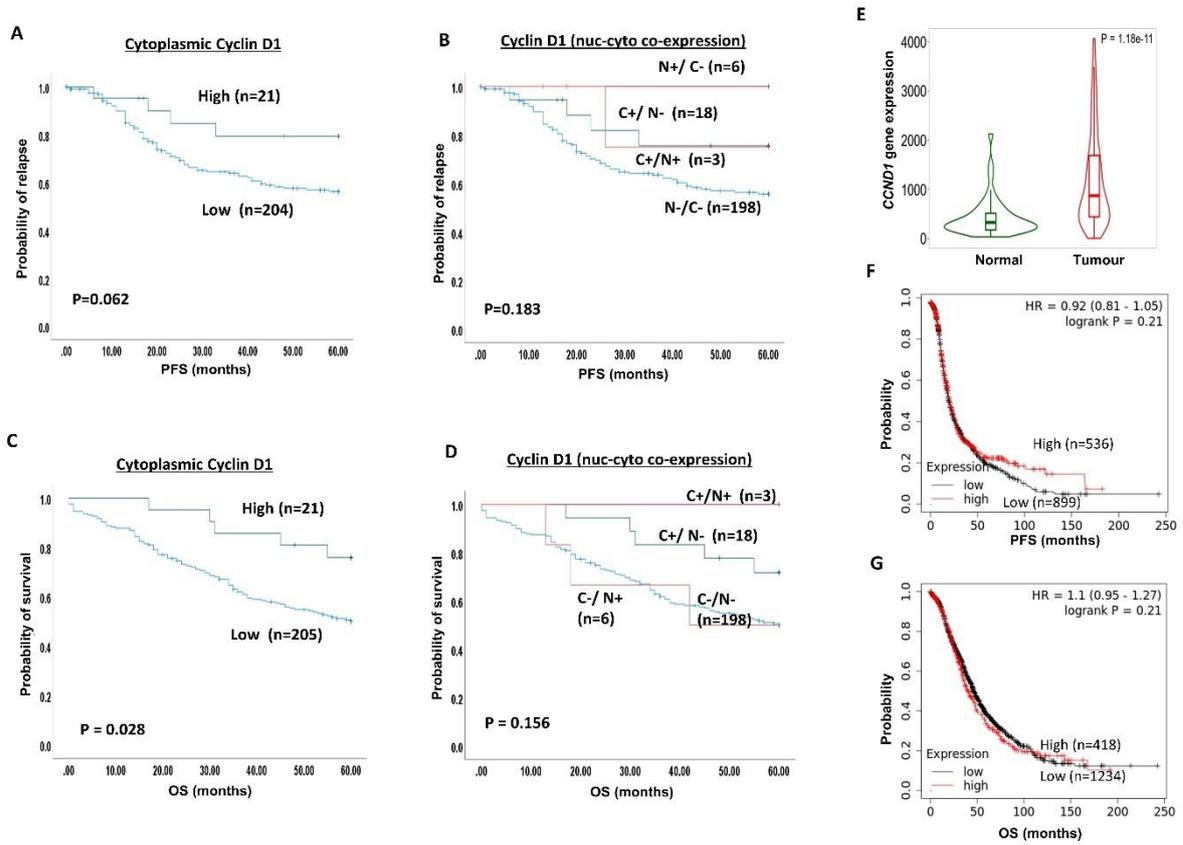

Supplementary Figure S3. **A.** Kaplan-Meier curve for CDK4 cytoplasmic expression and progression free survival. **B.** Kaplan-Meier curve for CDK4 nuclear & cytoplasmic co-expression and progression free survival. **C.** Kaplan-Meier curve for CDK4 cytoplasmic expression and overall survival. **D.** Kaplan-Meier curve for CDK4 nuclear & cytoplasmic co-expression and overall survival. **E.** Violin plot shows the median of CDK4 mRNA expression in normal and ovarian tumors; the red and green central bars represent the median, long green, and red lines represent the interquartile range. On each side of the red and green lines is a kernel density estimation to show the distribution shape of the data. **F.** Kaplan-Meier curve for CDK4 mRNA expression and progression free survival. **G.** Kaplan-Meier curve for CDK4 mRNA expression and overall survival.

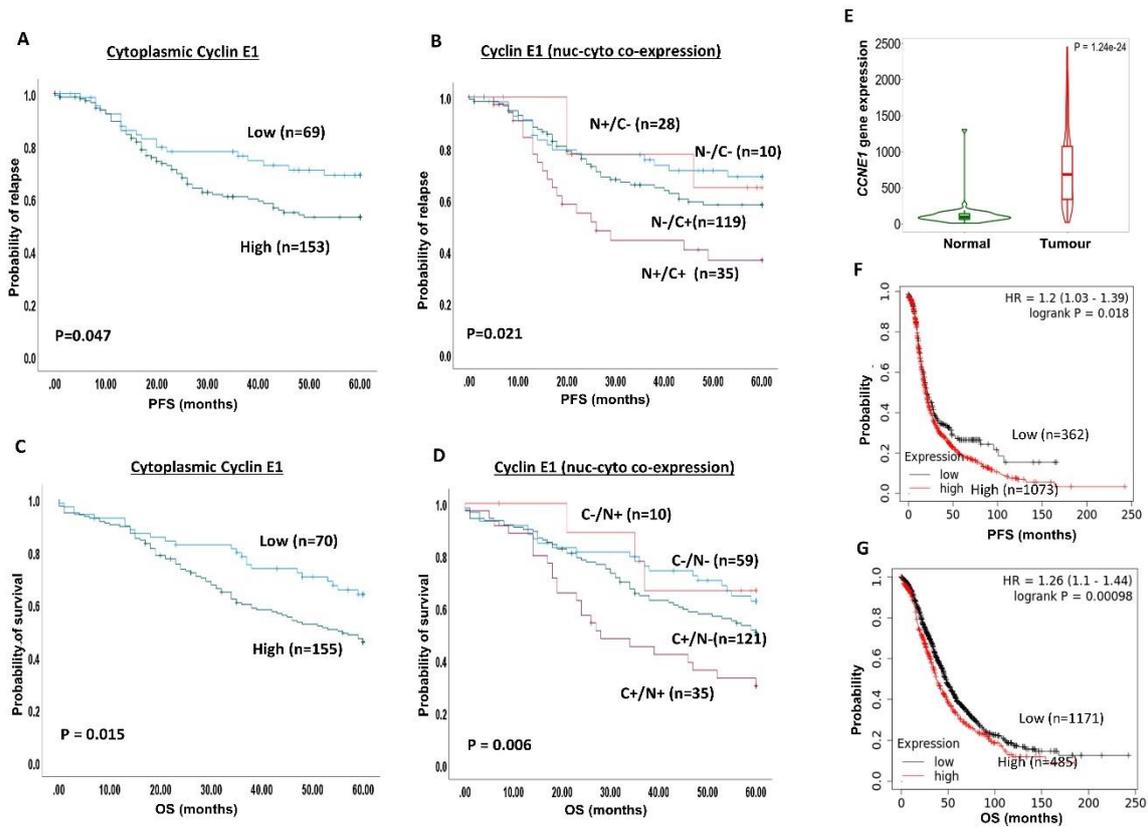

Supplementary Figure S4. **A.** Kaplan-Meier curve for CDK6 cytoplasmic expression and progression free survival. **B.** Kaplan-Meier curve for CDK6 nuclear & cytoplasmic co-expression and progression free survival. **C.** Kaplan-Meier curve for CDK6 cytoplasmic expression and overall survival. **D.** Kaplan-Meier curve for CDK6 nuclear & cytoplasmic co-expression and overall survival. **E.** Violin plot shows the median of CDK6 mRNA expression in normal and ovarian tumors; the red and green central bars represent the median, long green, and red lines represent the interquartile range. On each side of the red and green lines is a kernel density estimation to show the distribution shape of the data. **F.** Kaplan-Meier curve for CDK6 mRNA expression and progression free survival. **G.** Kaplan-Meier curve for CDK6 mRNA expression and overall survival.

Supplementary Figure 5

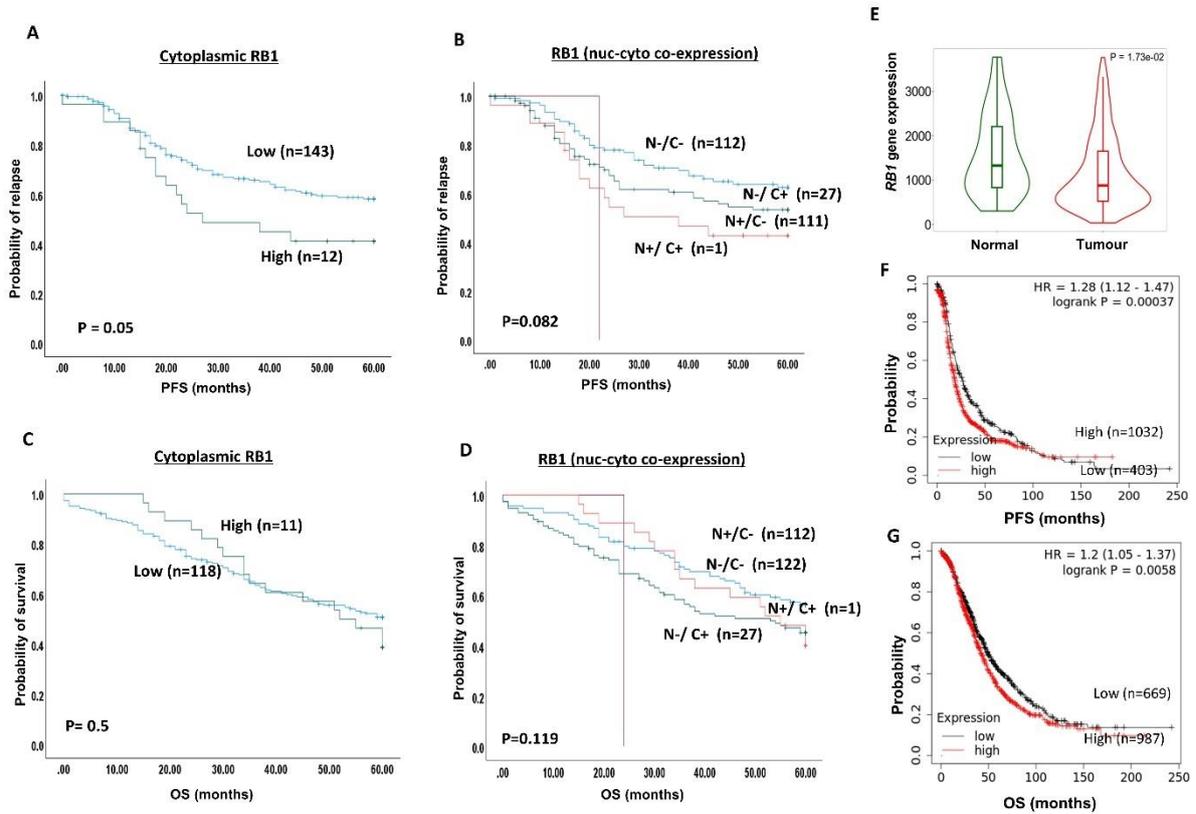

Supplementary Figure S5. **A.** Kaplan-Meier curve for Cyclin D1 cytoplasmic expression and progression free survival. **B.** Kaplan-Meier curve for Cyclin D1 nuclear & cytoplasmic co-expression and progression free survival. **C.** Kaplan-Meier curve for Cyclin D1 cytoplasmic expression and overall survival. **D.** Kaplan-Meier curve for Cyclin D1 nuclear & cytoplasmic co-expression and overall survival. **E.** Violin plot shows the median of *Cyclin D1* mRNA expression in normal and ovarian tumors; the red and green central bars represent the median, long green, and red lines represent the interquartile range. On each side of the red and green lines is a kernel density estimation to show the distribution shape of the data. **F.** Kaplan-Meier curve for *Cyclin D1* mRNA expression and progression free survival. **G.** Kaplan-Meier curve for *Cyclin D1* mRNA expression and overall survival.

Supplementary Figure 6

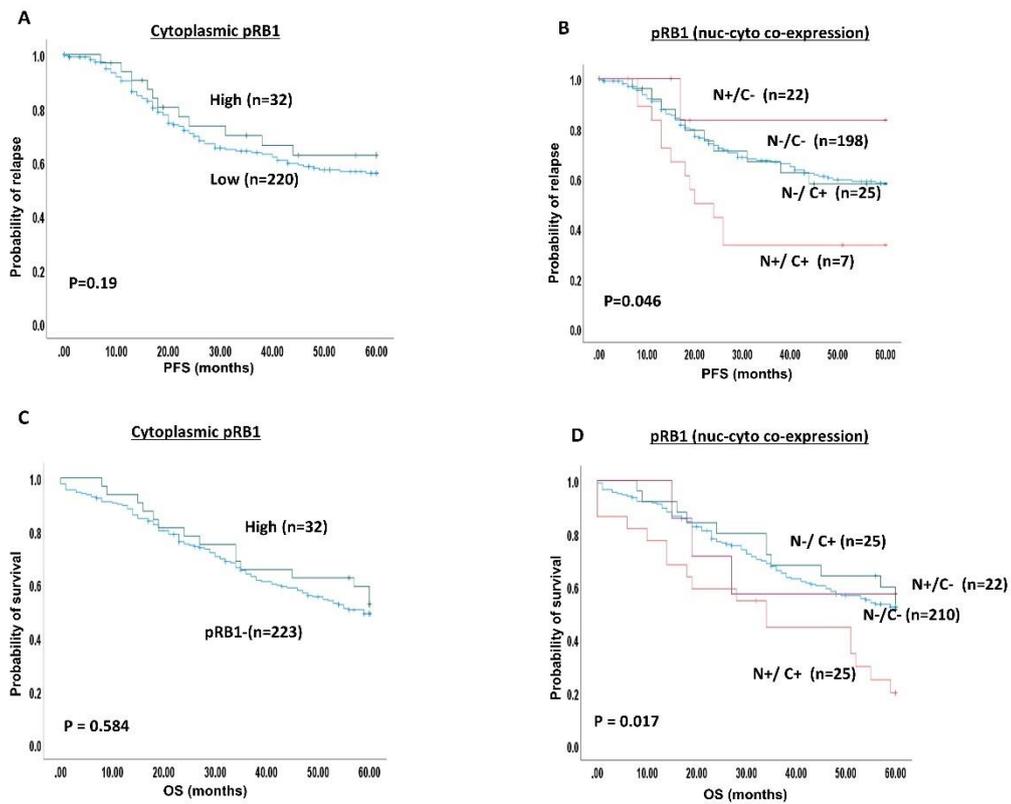

Supplementary Figure S6. **A.** Kaplan-Meier curve for Cyclin E1 cytoplasmic expression and progression free survival. **B.** Kaplan-Meier curve for Cyclin E1 nuclear & cytoplasmic co-expression and progression free survival. **C.** Kaplan-Meier curve for Cyclin E1 cytoplasmic expression and overall survival. **D.** Kaplan-Meier curve for Cyclin E1 nuclear & cytoplasmic co-expression and overall survival. **E.** Violin plot shows the median of *Cyclin E1* mRNA expression in normal and ovarian tumors; the red and green central bars represent the median, long green, and red lines represent the interquartile range. On each side of the red and green lines is a kernel density estimation to show the distribution shape of the data. **F.** Kaplan-Meier curve for *Cyclin E1* mRNA expression and progression free survival. **G.** Kaplan-Meier curve for *Cyclin E1* mRNA expression and overall survival.

Supplementary Figure 7

Supplementary Figure S7. **A.** Kaplan-Meier curve for RB1 cytoplasmic expression and progression free survival. **B.** Kaplan-Meier curve for RB1 nuclear & cytoplasmic co-expression and progression free survival. **C.** Kaplan-Meier curve for RB1 cytoplasmic expression and overall survival. **D.** Kaplan-Meier curve for RB1 nuclear & cytoplasmic co-expression and overall survival. **E.** Violin plot shows the median of *RB1* mRNA expression in normal and ovarian tumors; the red and green central bars represent the median, long green, and red lines represent the interquartile range. On each side of the red and green lines is a kernel density estimation to show the distribution shape of the data. **F.** Kaplan-Meier curve for *RB1* mRNA expression and progression free survival. **G.** Kaplan-Meier curve for *RB1* mRNA expression and overall survival.

Supplementary Figure S8. **A.** Kaplan-Meier curve for pRB1 cytoplasmic expression and progression free survival. **B.** Kaplan-Meier curve for pRB1 nuclear &cytoplasmic co-expression and progression free survival. **C.** Kaplan-Meier curve for pRB1 cytoplasmic expression and overall survival. **D.** Kaplan-Meier curve for pRB1 nuclear &cytoplasmic co-expression and overall survival
