

The sample with the arrow was not included in the current study due to correspond To another condition of *Trichoderma* no discussed in the current manuscript

a/b gDNA: 585 bp
a/b cDNA: 414 bp

The figure was cut due to we used three primers (a/c/d). To simply the explanation we cut the figure without modifying the interpretation

a/d gDNA: 1,110 bp
a/d cDNA: 940 bp

c/d gDNA: 250 bp
c/d cDNA: 250 bp
