

## **Supplementary Materials**

### **Enhanced Retinal Ganglion Cell Survival via Autophagy Activation in a Novel Retinal Ischemia/Reperfusion Rat Model**

**Si Hyung Lee, Jung Woo Han, Su-ah Yoon, Hun Soo Chang and Tae Kwann Park.**

**Supplementary Figure S1. Fluorescence angiography images of a rat retina (A) before, 2h after double-circumlibal suturing (B), and immediately after suture release (C).**

**Supplementary Figure S2. A negative control image of retinal cross section without primary antibodies.**
