Supplementary Table S1

Baseline vascular comorbidities and concomitant medications in asciminib-treated CML patients.

Patient No.	Vascular comorbidities / risk factors	Vascular events reported	Concomitant vascular medications (classified)
P1	Dyslipidaemia	None recorded	rosuvastatin; metoprolol
P2	Data not available	None recorded	Data not available
P3	Ischaemic heart disease	None recorded	enoxaparin
P4	Data not available	None recorded	aspirin
P5	Data not available	None recorded	Data not available
P6	Dyslipidaemia; hypertension; ischaemic heart disease	None recorded	clopidogrel; rosuvastatin; ezetimibe; amlodipine, perindopril
P7	Peripheral arterial occlusive disease; prior cerebrovascular accident; hypertension; femoro-popliteal disease; prior coronary artery bypass grafting	Peripheral arterial occlusive disease	aspirin, ticagrelor; atorvastatin; amlodipine, candesartan, hydrochlorothiazide, metoprolol, perindopril; empagliflozin, insulin degludec/aspart, metformin
P8	Dyslipidaemia; ischaemic heart disease	None recorded	rosuvastatin; metoprolol; empagliflozin
P9	Hypertension; dyslipidaemia; diabetes mellitus with neuropathy	Stroke; transient ischaemic attack	aspirin, clopidogrel; apixaban; rosuvastatin; metoprolol tartrate; empagliflozin, gliclazide, metformin
P10	Ischaemic heart disease	None recorded	Data not available
P11	Dyslipidaemia; hypertension; ischaemic heart disease	None recorded	rosuvastatin; atenolol, indapamide, telmisartan
P12	Hypertension; ischaemic heart disease	None recorded	amlodipine, indapamide, ramipril
P13	Ischaemic heart disease	None recorded	Data not available
P14	Data not available	None recorded	Data not available
P15	Ischaemic heart disease	None recorded	Data not available
P16	Cerebrovascular disease; ischaemic heart disease	None recorded	Data not available
P17	Hypertension; dyslipidaemia; aortic stenosis	Chest pain; LAD disease on angiography	aspirin, clopidogrel; heparin; simvastatin; bisoprolol, hydrochlorothiazide, metoprolol, ramipril, spironolactone

P18	Hypertension; dyslipidaemia; ischaemic heart disease	Internal carotid artery stenosis; diffuse peripheral vascular disease (ultrasound)	clopidogrel; pravastatin; antihypertensive: perindopril
P19	Dyslipidaemia; hypertension; ischaemic heart disease	None recorded	rosuvastatin; amlodipine, perindopril, spironolactone
P20	Hypertension; dyslipidaemia; diabetes mellitus with nephropathy	End-stage renal failure	aspirin; enoxaparin, heparin; atorvastatin, simvastatin; ezetimibe; antihypertensive: amlodipine, metoprolol, perindopril; empagliflozin, linagliptin, metformin
P21	Ischaemic heart disease	None recorded	Data not available
P22	Atrial fibrillation; diabetes mellitus; dyslipidaemia; hypertension; ischaemic heart disease	None recorded	aspirin; atorvastatin; dapagliflozin, metformin
P23	Ischaemic heart disease	None recorded	Data not available
P24	Dyslipidaemia; ischaemic heart disease	None recorded	Data not available

Notes: Patient identifiers are anonymised and presented as sequential numbers. Vascular comorbidities, events, and concomitant medications are reported only where documented in the source clinical dataset; absence of information indicates unavailable data rather than absence of disease. Medication classes are summarised for contextual purposes and were not used for stratified statistical inference.
