Supplementary Figure S1

Representative agarose gel electrophoresis of CCR5 PCR products.

Supplementary Figure S1. Representative agarose gel electrophoresis of CCR5 PCR products. Lanes 1–5, 7–10, 12–18, 20–22, and 24: CCR5/CCR5 homozygotes; lanes 6, 11, 19, and 23: CCR5/CCR5Δ32 heterozygotes; M, DNA size marker. The 183-bp product corresponds to the wild-type CCR5 allele, whereas the 151-bp product corresponds to the CCR5Δ32 allele.
