

Full length western blot images for Figure 2. Each GAPDH blot corresponds to the blots in the same row.

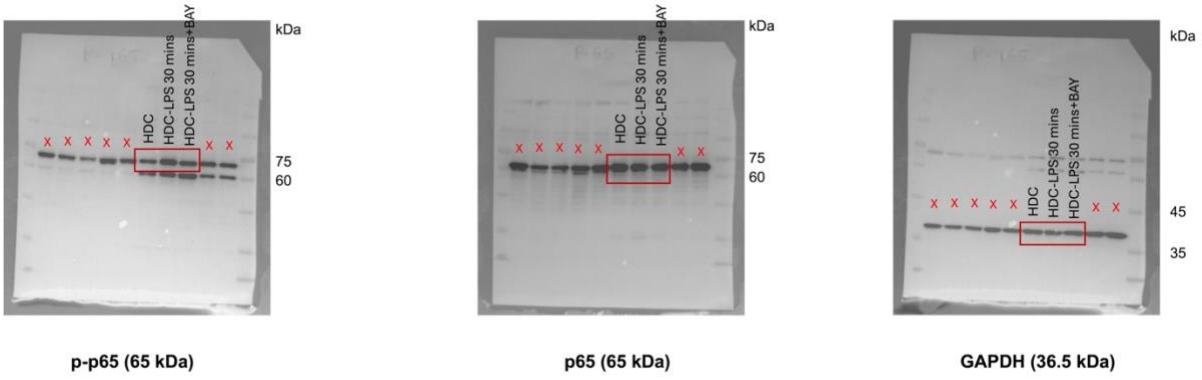

Full length western blot images for Figure 3. GAPDH loading control corresponds to all protein blots presented in the figure.

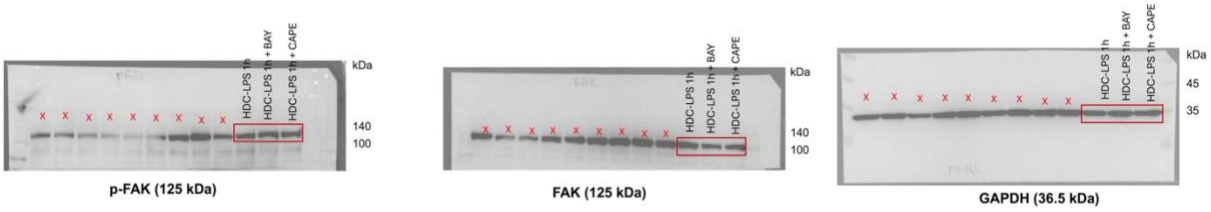

Full length western blot images for Figure 4A and 4B. Each GAPDH blot corresponds to the blots in the same row.

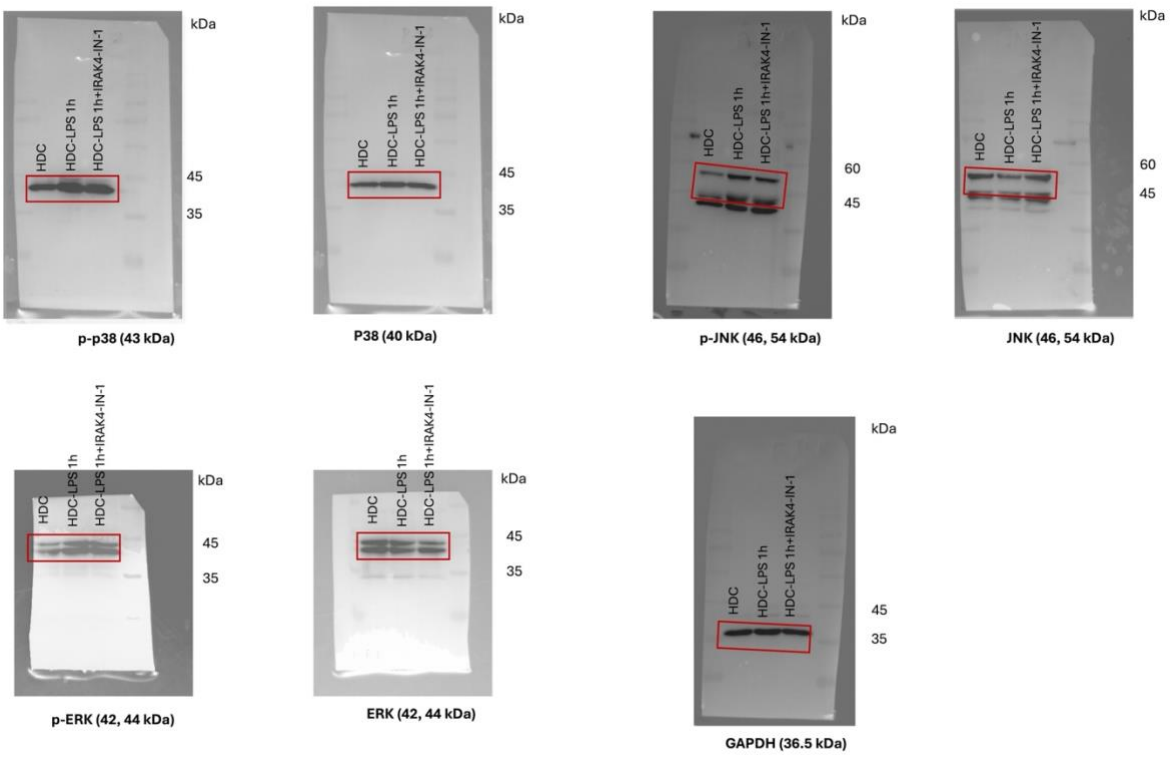

Full length western blot images for Figure 5. GAPDH blot corresponds to the blots in the same row.

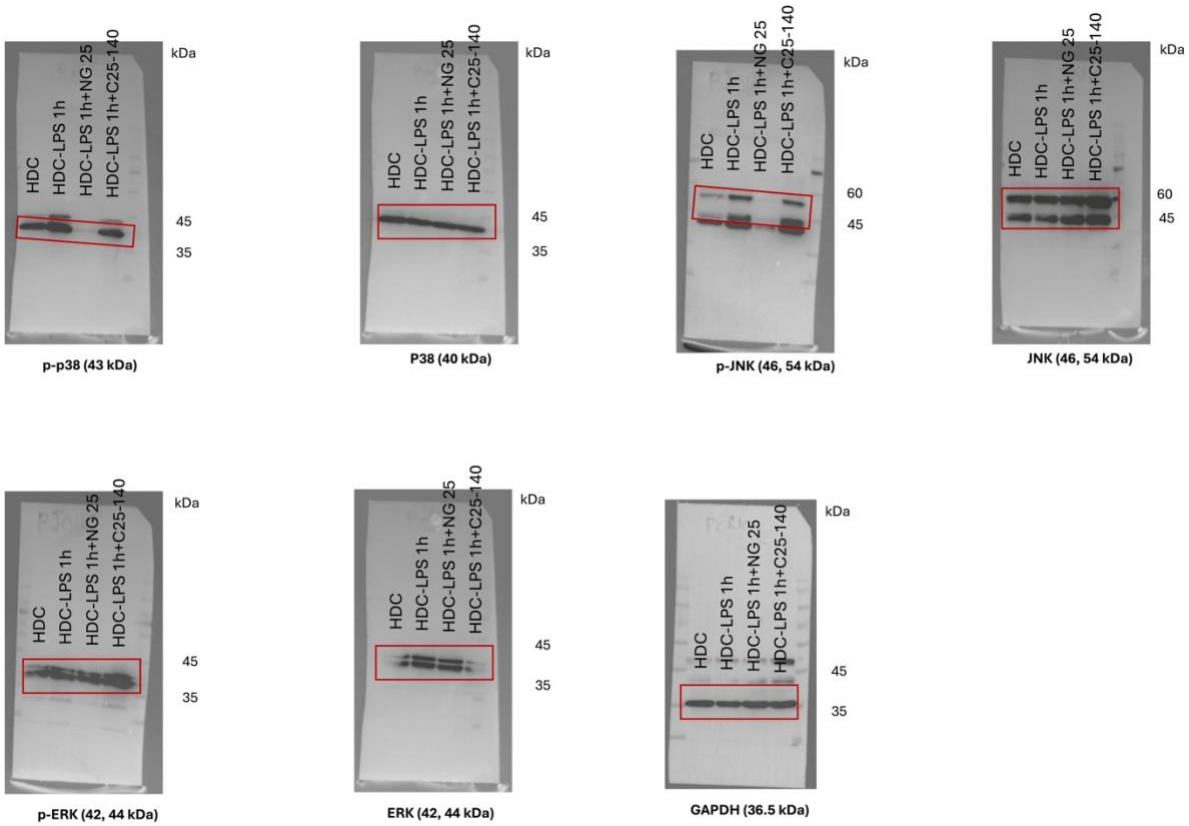

Full length western blot images for Supplementary Figure 2. GAPDH blot corresponds to the blots in the same row.

Full length western blot images for Supplementary Figure 3. GAPDH blot corresponds to the blots in the same row.

Full length western blot images for Supplementary Figure 4A. GAPDH loading control corresponds to all protein blots presented in the figure.

Full length western blot images for Supplementary Figure 4B. GAPDH loading control corresponds to all protein blots presented in the figure.
