

**Supplementary Material**

**Table S1.** The accuracy of C-reactive protein, lymphocyte to monocyte ratio, and combination of these two markers

Variable	Sensitivity	Specificity	PPV	NPV	Accuracy
CRP	56.7	88.1	70.8	80.0	77.5
LMR	76.7	61.0	50.0	83.7	66.3
CRP+LMR	53.3	94.9	84.2	80.0	80.9

PPV, positive predictive value; NPV, negative predictive value; CRP, C-reactive protein; LMR, lymphocyte-to-monocyte ratio
