

Supplementary Table S1. Characteristics of inoperable CTEPH patients excluded from the study.

Patient ID	Sex	Age at diagnosis (years)	Cause of exclusion	Cause of death
1	F	70	Lack of consent	
2	M	83	Non-CTEPH related death	Colon cancer
3	F	67	Non-CTEPH related death	Abdominal surgery-related complications
4	F	89	Non-CTEPH related death	Sepsis
5	F	27	CTEPH persistent after PEA	-
6	F	57	CTEPH persistent after PEA	
7	M	73	Non-CTEPH related death	Orthopedic surgery related complication
8	F	36	Lack of follow-up	
9	M	66	Lack of consent	
10	F	78	Lack of follow-up	
11	M	59	CTEPH persistent after PEA	
12	M	67	CTEPH persistent after PEA	
13	F	70	Lack of consent	
14	M	53	Lack of consent	
15	M	55	CTEPH persistent after PEA	
16	M	89	Non-CTEPH related death	COVID-19
17	M	70	Non-CTEPH related death	Sepsis
18	F	74	Non-CTEPH related death	Sepsis
19	M	59	Non-CTEPH related death	Colon cancer
20	F	61	Unknown cause of death	

Abbreviations: CTEPH – chronic thromboembolic pulmonary hypertension; F – female; M – male; PEA – pulmonary endarterectomy
