Abbreviations: l, left; r, right; MPFC, medial prefrontal cortex; LP, lateral parietal; LPFC, lateral prefrontal

cortex; PPC, posterior parietal cortex; AI, anterior insula; RPFC, rostral prefrontal cortex; IPS, intraparietal sulcus; PCC, posterior cingulate cortex; IFG, inferior frontal gyrus; FEF, frontal eyes field; dACC, dorsal anterior cingulate cortex; SMG, supramarginal gyrus, MCC, middle cingulate cortex; PrG, precentral gyrus; PANSS, positive and negative symptom scale; PANSS_positive scores, positive symptoms scores; PANSS_negative scores, negative symptoms scores; PANSS_general scores, general psychopathology symptoms scores; CPZ, chlorpromazine equivalents.

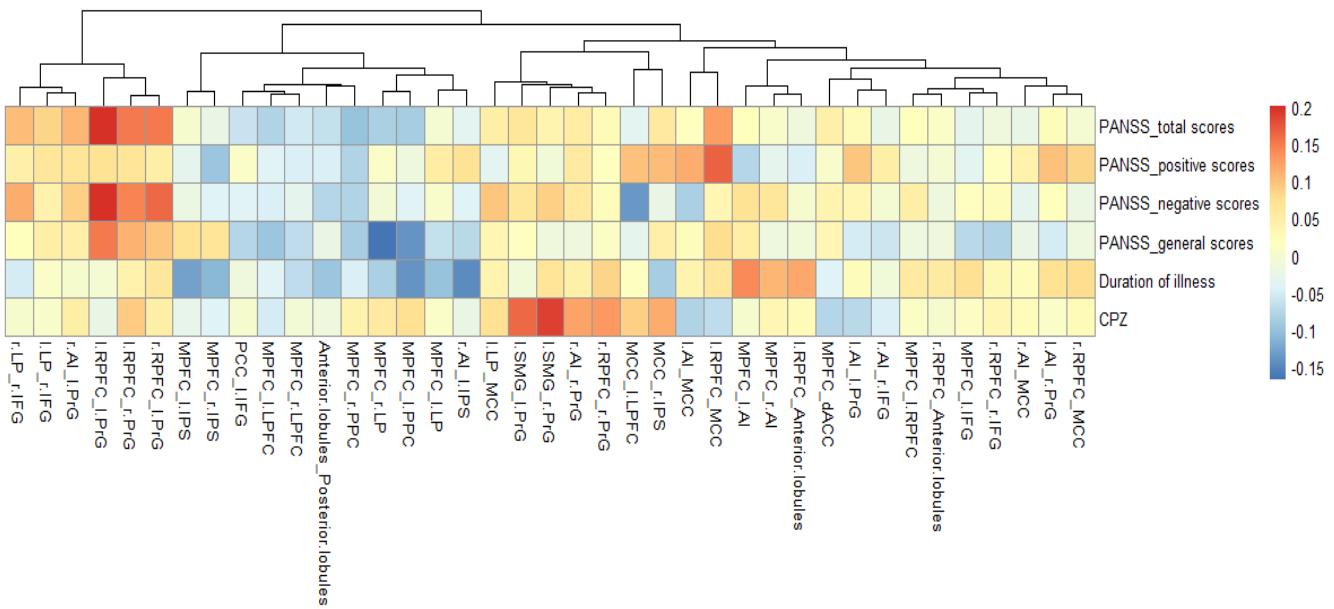

Figure S1. The heatmap of the partial correlation between the clinical variables and intra- and inter-networks. Abbreviations: l, left; r, right; MPFC, medial prefrontal cortex; LP, lateral parietal; LPFC, lateral prefrontal cortex; PPC, posterior parietal cortex; AI, anterior insula; RPFC, rostral prefrontal cortex; IPS, intraparietal sulcus; PCC, posterior cingulate cortex; IFG, inferior frontal gyrus; FEF, frontal eyes field; dACC, dorsal anterior cingulate cortex; SMG, supramarginal gyrus; MCC, middle cingulate cortex; PrG, precentral gyrus; PANSS, positive and negative symptom scale; PANSS_positive scores, positive symptoms scores; PANSS_negative scores, positive symptoms scores; PANSS_general scores, general psychopathology symptoms scores; CPZ, chlorpromazine equivalents.
