

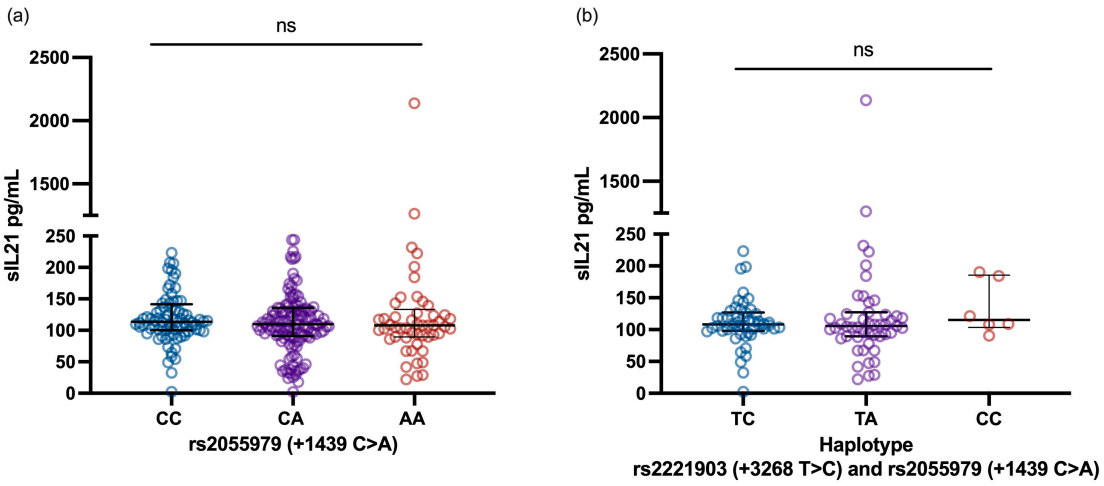

Figure S1. IL-21 levels according to rs2055979 (+1439 C>A) genotypes and rs2055979 and rs2221903 haplotypes in the *IL21* gene. IL-21 levels according to rs2055979 (+1439 C>A) genotypes (a) and rs2055979 and rs2221903 haplotypes (b) of *IL21* gene. Data are shown in median and IQR. p-value was obtained through Kruskal-Wallis's test with Dunn's post hoc test. IQR: interquartile range.
